GOVERNMENT OF INDIA TERMINABLE LOAN.

NOTICE AS TO THE CONDITIONS ON WHICH THE PUBLIC MAY SUBSCRIBE THROUGH THE POST OFFICE.

THE Government are raising this year's loan in a new form carrying 4 per cent. interest. It will be repaid in full not later than November 1923, but Government can repay it, if they wish, any time after October 1920.

2. Rupees 4½ crores have already been raised in the usual way by the receipt of applications at Calcutta, Madras, Bombay and other large centres, and, so far, the loan is now closed. But in addition a special opportunity is being given to persons who wish to take up the loan in small amounts, whether they are savings bank depositors or not, of subscribing through the nearest post office which transacts savings bank business.

HOW TO SUBSCRIBE.

3. Applications through the post office can be made any time up to the 30th October.

4. Applications must be for even hundreds of rupees and for not less than Rs. 100 and not more, in the case of any one applicant, than Rs. 5,000.

NOTE.—An applicant may apply for the new loan up to Rs. 5,000, notwithstanding that he already holds 3½ per cent. Promissory notes previously purchased through the post office.

5 A person desiring to apply must fill up the form below, which can also be obtained at any post office which transacts savings bank business. He must at the same time pay the full amount for which he applies. For this purpose he can use the money in his savings bank account if he is a savings bank depositor, or he can pay in cash direct. The applicant may go to the post office himself or send a messenger. All amounts paid will be acknowledged.

6. For every Rs. 100 which the applicant pays he will receive Government Promissory notes for the same amount.

CUSTODY OF PROMISSORY NOTES.

7. The notes may either be kept by the applicant in his own custody, or if he prefers, they may be retained in the custody of the post office authorities on his behalf. He should state which method he prefers in filling up the form of application. If he wishes to keep the notes himself, the post office will advise him when they are ready for delivery, and, on his presenting himself personally, they will be made over to him. If he decides to leave them with the post office, his personal attendance will not again be required, but the post office will send him an intimation in due course that they have been received and are held on his behalf. Should he at a later date desire to keep the notes himself they will then be made over to him.

PAYMENT OF INTEREST

8. Interest at 4 per cent. a year will be paid half-yearly, *i.e.*, 2 per cent. on the 31st May and 2 per cent. on the 30th November every year. For the broken period from the date of subscription to the 30th November next, interest will be paid in cash at the time the Promissory notes are delivered if the applicant keeps them himself, or will be credited into the savings bank account mentioned in the next paragraph if he leaves the notes in the custody of the post office authorities.

9. If the applicant decides to leave his Promissory notes in the custody of the post office authorities, the latter will draw the interest for him regularly each half year and credit the amount into a savings bank account which will be opened for this purpose in his name. The post office will also inform him from time to time whenever interest is thus received. No charge will be levied for this service, and no income-tax will be deducted in making the half-yearly payments of interest.

If he keeps the Promissory notes himself, income-tax will be deducted from interest in the usual way at the time the half-yearly payments are made.

SALE OF PROMISSORY NOTES.

10. If at any time a savings bank depositor who holds Promissory notes in this new loan, which have been purchased through the post office by the procedure here described, desires to sell them again, or any part of them, the post office will arrange this for him without charging brokerage or other fees. Full particulars as to this can be obtained from the post office at any time.

FORM OF APPLICATION.

I _____

NOTIFICATION I.

No. 10025P.—The 27th August 1915.—In exercise of the power conferred by section 15, sub-section (*1*), of the Cantonments Act, 1910 (XV of 1910), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to impose a water-rate at three and-a-half per cent. on the annual value of holdings situated within the Darjeeling Cantonment:

Darjeeling.

Provided as follows:—

(1) nothing contained in this notification shall apply to any holding occupied by a person entitled to a free supply of water from the State;

(2) the said water-rate shall not be levied upon buildings which belong to the State and are not used for residential purposes;

(3) such water-rate shall not be levied upon any house or land, no part of which is within a radius of one thousand feet from the nearest stand-pipe or other supply of water available to the public;

(4) nothing in clause (3) shall prevent the Cantonment Authority from making any special arrangement consistent with any enactment or rules for the time being in force in the Cantonment with persons residing beyond the radius prescribed by that clause.

J. H. KERR,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION II.

No. 10026P.—The 27th August 1915.—In exercise of the power conferred by section 15, sub-section (*2*), of the Cantonments Act, 1910 (XV of 1910), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to apply for the assessment and recovery of the water-rate imposed in the Darjeeling Cantonment by Notification No. 10035P. of this date, the provisions of sections 6 (*3*) and (*5*), 96, 97, 99, 100, 101, 103, 105, 106, 107, 108, 109, 112 to 130, 279 (*3*), 281, 285, 286, 312 to 314, 354, Form B in the Third Schedule, and Forms A, B, C, D and E in the Fourth Schedule, of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), in the following adapted form:—

Darjeeling.

PART I.—ASSESSMENT.

[Bengal Act III of 1884, section 6(3).]

1. In these rules,—

Definitions.

(*1*) "holding" means land held under one title or agreement, and surrounded by one set of boundaries:

Provided that where two or more adjoining holdings form part and parcel of the site or premises of a dwelling-house, manufactory, warehouse or place of trade or business, such holdings shall be deemed to be one holding for the purposes of these rules;

[*Ibid*, s. 6 (5).]

(*2*) "land" includes benefits arising out of land, houses, and things attached to the earth or permanently fastened to anything attached to the earth.

[*Ibid*, s. 96.]

2. The Cantonment Authority, after making such inquiries as may be necessary, shall determine the valuation of all holdings within the Cantonment as hereinafter provided.

The Cantonment Authority to determine the valuation of holdings.

[*Ibid*, s. 97.]

3. Save as herein otherwise provided, such valuation shall be valid for five years from the date on which it first takes effect in the Cantonment, and until the beginning of the year next after the date on which a new valuation may be made, or until the valuation be revised and amended.

Duration of assessment

[*Ibid*, s. 99.]

4. The Cantonment Authority, in order to prepare the valuation list, may, whenever it thinks fit, by notice, require the owners and occupiers of all holdings to furnish it with returns of the rent or annual value thereof; and the Cantonment Authority, or any person authorized by it in writing in that behalf, may, at any time between sunrise and sunset, enter, inspect and measure any such

Returns for ascertaining annual value.

holding after having given forty-eight hours' previous notice of its intention to the occupier thereof.

[Bengal Act III of 1884, section 100.]

Penalty for default in furnishing return.

5. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required to do so, or knowingly makes a false or incorrect return, shall be liable to a fine not exceeding twenty rupees, and to a further daily fine not exceeding five rupees for each day during which he shall omit to furnish a true and correct return; and whoever hinders, obstructs or prevents the Cantonment Authority, or any person appointed by the Cantonment Authority as aforesaid, from entering or inspecting or measuring any such holding shall be liable to a fine not exceeding two hundred rupees.

[*Ibid*, s 101]

Annual value of holding how to be ascertained.

6. The gross annual rental at which any holding may be reasonably expected to let shall be deemed to be the annual value thereof, and such value shall accordingly be determined by the Cantonment Authority and entered in the valuation list:

Provided that, if there be on a holding any building or buildings the actual cost of erection of which can be ascertained or estimated, the annual value of such holding shall in no case be deemed to exceed an amount which would be equal to seven and-a-half per cent. on such cost, in addition to a reasonable ground-rent for the land comprised in the holding;

Provided also that, where the actual cost so ascertained shall exceed one lakh of rupees, the percentage on the annual value to be levied in respect of so much of the cost as is in excess of one lakh of rupees shall not exceed one-fourth of the percentage determined by the Cantonment Authority under this rule;

Provided further that, in estimating the annual value of a holding under this rule, the value of any machinery that may be on such holding shall not be taken into consideration.

[*Ibid*, s. 103.]

Preparation of valuation and rating list.

7. The Cantonment Authority shall cause to be prepared a valuation and rating list, which shall contain the following particulars, and any others which it may think proper to include:—

(*a*) name of the street or road on which the holding is situated;
(*b*) number of the holding on the register;
(*c*) description of the holding;
(*d*) annual value of the holding;
(*e*) name of owner;
(*f*) amount of rate payable for the year;
(*g*) amount of quarterly instalment;
(*h*) if the holding is exempted from assessment, a note to that effect.

[*Ibid*, s. 106.]

Power of the Cantonment Authority in cases of excessive hardship.

8. Whenever, from the circumstances of the case, the levy of the rate on any holding in the Cantonment would be productive of excessive hardship to the person liable to pay the same, the Cantonment Authority at a meeting may reduce the amount payable on account of such holding, or may remit the same.

[*Ibid*, s 107.]

Application for reduction of assessment.

9. If the value of any holding shall be diminished from any cause beyond the control of the owner thereof, the owner thereof may apply for reduction of the valuation of the same.

[*Ibid*, s. 108.]

Power to revise valuation and assessment.

10. The Cantonment Authority may, at any time after the publication of the notice required by rule 12, value and rate any holding which was without authority omitted from the valuation and rating list, or which has become liable to valuation and rating after the publication thereof; and may enhance the valuation and rating of any holding which may appear to have been insufficiently valued or rated through mistake, oversight, or fraud; and may revalue and reassess the water-rate on any holding the value of which has been increased by addit ons or alterations to any building thereon.

Any water-rate imposed, or enhancement made, under this rule shall take effect from the beginning of the quarter next following that in which the rate shall be imposed or enhancement made.

[Bengal Act III of 1884, section 109.]

Power to revise assessment list

11. The Cantonment Authority may, at any time, substitute for any name mentioned in the valuation and rating list the name of any person to whom any holding mentioned therein shall have been transferred.

Such person shall be liable to pay the water-rate payable on such holding from the first day of the quarter next after the date of the transfer.

[*Ibid*, s. 112]

Publication of notice of assessment.

12. When the valuation and rating list of the water-rate on the annual value of holdings shall have been prepared or revised, the President of the Cantonment Authority shall sign the same, and shall cause it to be deposited in the office of the Cantonment Authority, and shall cause the notice in Form A of the Schedule annexed to these rules to be published as far as possible in the following manner:—

[*Ibid*, s. 354.]

Every such notice shall be written in, or translated into, the vernacular of the district, and deposited in the office of the Cantonment Authority, and a copy shall be posted up in a conspicuous position at such office, and in such other public places as the Cantonment Authority may direct.

And a public proclamation shall be made throughout the Cantonment by beat of drum, notifying that such copy has been so posted up, and that the original is open to inspection in the office of the Cantonment Authority.

[*Ibid*, s. 113.]

Application for review.

13. Any person who is dissatisfied with the amount assessed upon him, or with the valuation or rating of any holding, or who disputes his occupation of any holding, or his liability to be assessed or rated, may apply to the Cantonment Authority to review the amount of valuation or rating, or to exempt him from the rate.

[*Ibid*, s. 114.]

Procedure upon review.

14. Every application presented under rule 13 shall be heard and determined by not less than three members of the Cantonment Authority, who shall be appointed in that behalf by the Cantonment Authority at a meeting. The members so appointed, after taking such evidence and making such inquiries as they may deem necessary, may pass such orders as they shall think fit in respect of such application.

The decision of such members, or of a majority thereof, in such cases shall be final.

[*Ibid*, s. 115]

Limitation of time for application of review

15. Unless good cause shall be shown to the satisfaction of such members for extending the time allowed, no such application shall be received after the expiration of one month from the date of publication of the notice required by rule 12 relating to the list containing the valuation or rating in respect of which the application is made, or after the expiration of fifteen days from the date of service of the first notice of demand for payment at the rate in respect of which the application is made, whichever period shall last expire.

[*Ibid*, s. 116]

Assessment to be questioned only under these rules

16. No objection shall be taken to any rating in any other manner than is provided for in these rules.

PART II.—RECOVERY.

[*Ibid*, s. 117]

Office hours for payment of the water-rate

17. By notification to be posted up in its office, the Cantonment Authority shall declare at what hours of each day (not being a Sunday or other recognized holiday), the office shall be open for the receipt of money and the transaction of business.

[*Ibid*, s. 118]

Water-rate payable in advance

18. The amount due by any person on account of the water-rate shall be deemed to be the amount entered in the list, the notice relating to which is published under rule 12, unless the amount entered in such list is subsequently altered by the Cantonment Authority as provided in these rules; in which case the amount to which the rating is so altered shall be deemed to be the amount due. Every instalment of such rate shall be deemed to be due on the first day of the quarter in respect of which such instalment is payable.

[*Ibid*, s. 279(3).]

Payment of water-rate.

19. The water-rate shall be paid by the occupiers of the holdings by quarterly instalments in advance.

[Bengal Act III o 1884, section 119]

Receipt to be given.

20. For all sums paid on account of the water-rate a receipt stating the amount and the rate on account of which it is paid shall be given, signed by the tax-collector, or by some other officer authorized by the Cantonment Authority to grant such receipts.

[*Ibid*, s 120.]

Bill and notice of demand to be presented.

21. At any time within six months after any sum has become due on account of the water-rate, the Cantonment Authority shall cause to be presented to the person liable to the payment thereof a bill for the said sum, which shall contain a statement of the period for which the water-rate is in arrear. If the amount mentioned in such bill be not paid on presentation thereof, a notice of demand in the form marked B in the Schedule annexed to these rules, with copy of the bill appended thereto, shall be served on the person liable to pay the same, and such notice of demand may be served at any subsequent time:

Provided that no charge shall be made in respect of the service of such notice.

Such notice shall be signed by the President of the Cantonment Authority or an officer authorized in that behalf, and shall be served by the person authorized to receive payment.

[*Ibid*, s. 281.]

Occupier paying water-rate may deduct one-fourth from rent due to owner.

22. Whenever the person by whom the water-rate shall have been paid, or from whom the said rate shall have been recovered, is not the owner of the house or land in respect of which the water-rate shall have been assessed, such person may recover from the owner one-fourth of the water-rate so paid or recovered; and may deduct the same from the rent payable by him to such owner:

Provided that, if any house belongs to one owner and the land on which it stands and any adjacent land which is usually occupied therewith belongs to another, the owner of the house may deduct from the rent which he pays for such lands such proportion of the water-rate recovered from him by the occupier as is equal to the proportion which such rent bears to the valuation of the entire holding.

[*Ibid*, s. 105.]

Water-rate due from non-resident owner may be recovered from occupier.

23. If the sum due from the owner of any holding remains unpaid after the notice of demand has been duly served, and such owner be not resident within the Cantonment, or the place of abode of such owner be not known, the same may be recovered from the occupier for the time being of such holding:

Provided that no arrear of the tax which has remained due from the owner of any holding for more than one year shall be so recovered from the occupier thereof.

[*Ibid*, s 285.]

Person subletting to several different tenants to be deemed occupier

24. Whenever any person holding any house or land from the owner thereof has sublet the same in severalty to two or more persons, the person holding from the owner shall, for the purposes of these rules, be deemed to be the occupier of such house or land.

[*Ibid*, s. 312.]

Power to assess owners in certain cases.

25. If any holding shall be occupied by more than one tenant holding severally, or shall be of less value than one hundred rupees, it shall be lawful for the Cantonment Authority to recover the rate from the owner of such holding, who shall have the following remedies for the recovery of such rate from the tenant.

[*Ibid*, s. 313]

Owner to recover from the occupier rates paid by owner

Whenever any rate shall be recovered from any owner of any holding under the provisions of these rules, it shall be lawful for such owner, if there shall be but one occupying tenant of such entire holding, to recover from such tenant the entire amount of the rate which shall have been so paid by such owner; and, if there shall be one occupying tenant of a part of such holding or more than one occupying tenant of such holding, then to recover from such tenant, or each of such tenants, such sum as shall bear to the entire amount of rate which may have been so recovered from such owner the same proportion as the value of the portion of such holding in the occupation of such tenant bears to the entire value of such holding, subject, however, to the provisions of the next paragraph.

[Bengal Act III of 1884, section 314.]

Every owner who, under the provisions of the last paragraph, may be entitled to recover any sum from any occupying tenant of any holding or of any portion thereof, shall have, for the recovery of such sum, all such and the same remedies, powers, rights and authorities as if such sum were rent payable to such owner by such tenant in respect of so much of such holding as may be in the occupation of such tenant:

Owner may recover rate so paid as rent

[*Ibid*, s. 286 proviso.]

Provided that the owner shall not be entitled to recover from any occupying tenant more than three-fourths of the water-rate that would but for this proviso be recoverable by him.

[*Ibid*, s. 121.]

26. If any person, after service upon him of the bill and notice referred to in rule 21, shall not, within fifteen days of the service of such notice or from the date of any order made on an application for review under rule 13, pay the sum due either to the Cantonment Authority at its office, or to some person authorized by it to receive the money, or show to the Cantonment Authority sufficient cause for not paying the same,—the amount of the arrear due, with costs on the scale shown in the table of fees marked C in the Schedule annexed to these rules, may, at any time within three months after the date of service of the said notice, or of the order made on an application for review as aforesaid, be levied by distress and sale of any moveable property belonging to the defaulter, except ploughs, plough-cattle, tools or implements of agriculture or trade, wherever found, or of any moveable property belonging to another person, subject to the same exceptions which may be found within the holding in respect of which such defaulter is liable to such rate:

If not paid in fifteen days, process of distress may issue.

Provided that, when the holding in respect of which the default is committed is a place of business, and the moveable property distrained is shown to the satisfaction of the Cantonment Authority to have been left there for repairs or safe custody in the ordinary course of business, it shall be released:

Provided also that, if the said property or any part thereof belonging to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same.

Ibid, s. 122.]

27. Every warrant of distress and sale under rule 26 shall be issued by the Cantonment Authority, and shall be in the form marked D in the Schedule annexed to these rules.

Distress how to be made.

Distress shall be made by actual seizure of moveable property, and the officer charged with the execution of the warrant shall be responsible for the due custody thereof.

Such officer shall make an inventory of all moveable property seized under the warrant, and shall give not less than ten days' previous notice of the sale, and of the time and place thereof, by beat of drum, in the Cantonment, and by serving on the defaulter a notice in the form marked E in the Schedule annexed to these rules:

Provided that, if the property is of a perishable nature, it may be sold at once with the consent of the defaulter, or without such consent at any time after the expiry of six hours from the seizure.

[*Ibid*, s. 123.]

28. The officer charged with the execution of the warrant may, under the special orders of the Cantonment Authority, between sunrise and sunset, break open any outer or inner door or window of a house, in order to make the distress, if he has reasonable ground for believing that such house contains any moveable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance:

Officer may break open door.

Provided that he shall not enter or break open the door of any room appropriated for the zenana or residence of women, which by usage of the

country is considered private, except after three hours' notice and opportunity given for the retirement of the women.

29. If the sum due be not paid with costs before the time fixed for the sale, or the warrant be not discharged or suspended by the Cantonment Authority, the moveable property seized shall be sold by auction at the time and place specified, in the most public manner possible, and the proceeds shall be applied in discharge of the arrears and costs. [Bengal Act III of 1864, section 124]

Sale how to be conducted.

The surplus sale-proceeds (if any) shall be credited to the Cantonment Fund, and may be paid on demand to any person who establishes his right to the satisfaction of the Cantonment Authority or in a Court of competent jurisdiction.

The tax-collector, or other officer Authorized in that behalf, shall make a return of all such sales to the Cantonment Authority in the form marked F in the Schedule annexed to these rules.

30. All officers and servants of the Cantonment Authority, and all chaukidars, constables and other officers of police, are prohibited from purchasing any property at any such sale. [*Ibid*, s 125.]

Certain persons prohibited from purchasing at sales.

Whoever (not being a public servant within the meaning of section 21 of the Indian Penal Code) contravenes the provisions of this rule shall be punished with simple imprisonment for a term which may extend to two months or with fine or with both.

31. The Cantonment Authority shall cause a regular account to be kept of all distresses levied and sales made, for the recovery of the water-rate under these rules. [*Ibid*, s 126]

Cantonment Authority to keep account of distresses and sales

32. If no sufficient moveable property belonging to a defaulter, or being upon the premises in respect of which he is rated, can be found within the Cantonment, the Deputy Commissioner of Darjeeling, or any other Magistrate having jurisdiction over the Cantonment, may, on the application of the Cantonment Authority, issue his warrant to any officer of his Court for the distress and sale of any moveable property or effects belonging to the defaulter within any other part of the jurisdiction of the Magistrate, or for the distress and sale of any moveable property belonging to the defaulter within the jurisdiction of any other Magistrate exercising jurisdiction within the territories administered by the Governor of Bengal, and such other Magistrate shall endorse the warrant so issued, and cause it to be executed, and the amount, if levied, to be remitted to the Magistrate issuing the warrant, who shall remit the same to the Cantonment Authority. [*Ibid*, s. 127.]

Sale of property beyond limits of Cantonment.

33. No distress or sale made under these rules shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any error, defect, or want of form in the bill, notice, summons, warrant of distress, inventory or other proceeding relating thereto. [*Ibid*, s. 128.]

Distress or sale not unlawful for want of form.

34. Instead of proceeding by distress and sale, or in case of failure to realize thereby the whole or any part of the water-rate, the Cantonment Authority may sue the person liable to pay the same in any Court of competent jurisdiction. [*Ibid*, s. 129.]

Cantonment Authority may bring suit instead of distraining or on failure of distress.

35. The Cantonment Authority may order to be struck off the books any amount in respect of water-rate which may appear to them to be irrecoverable.

Irrecoverable amounts.

36. The President of the Cantonment Authority shall, for the transaction of business under these rules, exercise all or any of the powers vested in the Cantonment Authority, excepting any power which is only exercisable by that Authority at a meeting. [*Ibid*, s. 130.]

Powers of President.

FORM A (*see* RULE 12).

CANTONMENT OF DARJEELING.

Notice of the preparation of the valuation and rating list of holdings.

WHEREAS a valuation and rating list of the water-rate on the annual value of holdings has been deposited in the office of the Cantonment Authority as required by rule 12 of the rules for the assessment and recovery of the rate ;

Notice is hereby given that the said list is open to the inspection of all persons desiring to inspect the same at the office of the said Cantonment Authority during office hours on any day not being a close holiday ; and that the several owners of the holdings included therein are hereby required to pay the quarterly instalments set opposite to their names with regularity at the office appointed by the Cantonment Authority for the receipt of the same, or to the tax-collector or other officer authorized to receive payment, the first payment to be made on the first day of ( ) and every subsequent payment on or before the first day of ( ), the first day of ( ), and the first day of ( ), and in default thereof, any arrear that may be due will be realized by the distress and sale of the moveable property belonging to the defaulter, or which may be found on the holding in respect of which the valuation is made, and by such other proceedings as are allowed by law.

A. B.,

President of the Cantonment Authority.

Dated this day of

[Bengal Act III of 1884, Fourth Sch., Form A.]

FORM B (*see* RULE 21).

Notice of Demand.

To

Cantonment of Darjeeling.

TAKE notice that the sum of Rs. , being the amount due from you, as shown in the accompanying bill, is hereby demanded from you, and that if you do not, within fifteen days, pay the same to an officer authorized to receive payment, or into the office of the Cantonment Authority, the amount, together with costs, will be levied by distress and sale of your goods and chattels, or otherwise as provided by law.

A. B.,

President of the Cantonment Authority.

(*The following note will be added at the foot of the above notice in those cases only in which the notice is to be addressed to a person who has not already paid one instalment of the tax at the rate at which the demand is made.*)

NOTE.—If you have any objection to make against this demand, you may, instead of paying the amount which is hereby demanded, present a petition to the Cantonment Authority praying for a review of the amount assessed (or rated). Such petition must be presented within fifteen days of the service of this notice, otherwise it will not be received. If you present such petition no amount will be levied from you until the Cantonment Authority shall have passed an order on your petition ; but after fifteen days from such order the amount due by you, with such costs as the Cantonment Authority may direct, will be levied unless it has been previously paid.

NOTIFICATION I.

No. 10027P.—The 27th August 1915.—In exercise of the power conferred by section 15, sub-section (*1*), of the Cantonments Act, 1910 (XV of 1910), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to impose a lighting-rate at three per cent. on the annual value of holdings situated within the Darjeeling Cantonment:

Darjeeling.

Provided that the said lighting-rate shall not be levied on buildings which are the property of the State and are not used for residential purposes.

J. H. KERR,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION II.

No. 10028P.—The 27th August 1915.—In exercise of the power conferred by section 15, sub-section (*2*), of the Cantonments Act, 1910 (XV of 1910), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to apply for the assessment and recovery of the lighting-rate imposed in the Darjeeling Cantonment by Notification No. 10027P. of this date, the provisions of sections 6(*3*), 96, 97, 98, 99, 100, 101, 103, 106, 107, 108, 109, 112 to 130, 310, 312 to 315 and 354, Form B in the Third Schedule, and Forms A, B, C, D and E, in the Fourth Schedule of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), in the following adapted form:—

Darjeeling.

PART I.—ASSESSMENT.

1. In these rules the expression "holding" means land held under one title or agreement and surrounded by one set of boundaries: [Bengal Act III of 1884, section 6 (*3*).]

Definition of holding.

Provided that where two or more adjoining holdings form part and parcel of the site or premises of a dwelling-house, manufactory, warehouse, or place of trade or business, such holdings shall be deemed to be one holding for the purposes of these rules.

Explanation.—Holdings separated by a road or other means of communication shall be deemed adjoining within the meaning of this proviso.

2. The Cantonment Authority, after making such inquiries as may be necessary, shall determine the valuation of all holdings within the Cantonment as hereinafter provided. [*Ibid*, s. 96.]

The Cantonment Authority to determine the valuation of holdings.

3. Save as is herein otherwise provided, such valuation shall be valid for five years from the date on which it first takes effect in the Cantonment, and until the beginning of the year next after the date on which a new valuation may be made, or until the valuation be revised and amended. [*Ibid*, s. 97.]

Duration of assessment.

4. The rate on the value of holdings shall not be assessed or levied on any holding which is duly registered as a public burial or burning-ground. [*Ibid*, s. 98.]

Holdings exempted from tax.

5. The Cantonment Authority, in order to prepare the valuation list, may, whenever it thinks fit, by notice, require the owners or occupiers of all holdings to furnish it with returns of the rent or annual value thereof; and the Cantonment Authority, or any person authorized by it in writing in that behalf, at any time between sunrise and sunset, may enter, inspect and measure any such holding after having given forty-eight hours' previous notice of its intention to the occupier thereof. [*Ibid*, s. 99.]

Returns for ascertaining annual value

6. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required to do so, or knowingly makes a false or incorrect return, shall be liable to a fine not exceeding twenty rupees, and to a further daily fine not exceeding five rupees for each day during which he shall omit to furnish a true and correct return; and whoever hinders, obstructs or prevents the Cantonment Authority, or any person appointed by it, as aforesaid, from entering or inspecting or measuring any such holding shall be liable to a fine not exceeding two hundred rupees. [*Ibid*, s. 100.]

Penalty for default in furnishing return

[Bengal Act III of 1894, section 101.]

Annual value of holding how to be ascertained.

7. The gross annual rental at which any holding may be reasonably expected to let shall be deemed to be the annual value thereof, and such value shall accordingly be determined by the Cantonment Authority and entered in the valuation list:

Provided that, if there be on a holding any building or buildings the actual cost of erection of which can be ascertained or estimated, the annual value of such holding shall in no case be deemed to exceed an amount which would be equal to seven and-a-half per cent. on such cost, in addition to a reasonable ground-rent for the land comprised in the holding;

Provided also that, in estimating the annual value of a holding under this rule, the value of any machinery that may be on such holding shall not be taken into consideration.

[*Ibid*, s. 103]

Preparation of valuation and rating list

8. The Cantonment Authority shall cause to be prepared a valuation and rating list, which shall contain the following particulars and any others which the Cantonment Authority may think proper to include:—

(*a*) name of the street or road in which the holding is situated;
(*b*) number of the holding on the register;
(*c*) description of the holding;
(*d*) annual value of the holding;
(*e*) name of owner and occupier;
(*f*) amount of rate payable for the year;
(*g*) amount of quarterly instalment;
(*h*) if the holding is exempted from assessment, a note to that effect.

[*Ibid*, s. 215]

Occupier liable to the rate for the time of occupation only.

9. Every occupier shall be liable to the lighting-rate for the time of his occupation. When any person shall have been an occupier for a part only of any quarter, he shall be liable only for so much of the rate for that quarter as may be proportionate to the number of days during which he shall have been an occupier.

Excess paid in advance to be refunded

If he shall have paid the rate in advance, the amount paid in excess of the sum due under this rule shall be refunded.

[*Ibid*, s. 106]

Power of the Cantonment Authority in cases of excessive hardship.

10. Whenever, from the circumstances of the case, the levy of the rate on any holding in the Cantonment would be productive of excessive hardship to the person liable to pay the same, the Cantonment Authority at a meeting may reduce the amount payable on account of such holding, or may remit the same.

[*Ibid*, s. 107.]

Application for reduction of assessment

11. If the value of any holding shall be diminished from any cause beyond the control of the owner thereof, the owner thereof may apply for reduction of the valuation of the same.

[*Ibid*, s. 108.]

Power to revise valuation and assessment.

12. The Cantonment Authority may, at any time after the publication of the notice required by rule 14, value and rate any holding which was without authority omitted from the valuation and rating list, or which has become liable to valuation and rating after the publication thereof, and may enhance the valuation and rating of any holding which may appear to have been insufficiently valued or rated through mistake, oversight or fraud, and may revalue and reassess the lighting-rate on any holding the value of which has been increased by additions or alterations to any building thereon.

Any lighting-rate imposed, or enhancement made, under this rule shall take effect from the beginning of the quarter next following that in which the rate shall be imposed or enhancement made.

[*Ibid*, s. 109]

Power to revise assessment list

13. The Cantonment Authority may, at any time, substitute for any name mentioned in the valuation and rating list the name of any person to whom any holding mentioned therein shall have been transferred. Such person shall be liable to pay the lighting-rate payable on such holding from the first day of the quarter next after the date of the transfer.

[*Ibid*, s. 112]

Publication of notice of assessment.

14. When the valuation and rating list of the lighting-rate on the annual value of holdings shall have been prepared or revised, the Cantonment Authority shall sign the same, and shall cause it to be deposited in its office and shall cause the

notice in Form A of the First Schedule annexed to these rules to be published as far as possible in the following manner:—

Every such notice shall be written in, or translated into, the vernacular of the district, and deposited in the office of the Cantonment Authority, and a copy shall be posted up in a conspicuous position at such office and in such other public places as the Cantonment Authority may direct. [Bengal Act III of 1884, s 354.]

And a public proclamation shall be made throughout the Cantonment by beat of drum, notifying that such copy has been so posted up and that the original is open to inspection in the office of the Cantonment Authority.

Application for review.

15. Any person who is dissatisfied with the amount assessed upon him or with the valuation or rating of any holding, or who disputes his occupation of any holding, or his liability to be assessed or rated, may apply to the Cantonment Authority to review the amount of assessment, valuation or rating, or to exempt him from the assessment or rate. [*Ibid*, s. 113]

Procedure upon review

16. Every application presented under the last preceding rule shall be heard and determined by not less than three members of the Cantonment Authority, who shall be appointed in that behalf by the Authority at a meeting. The members so appointed, after taking such evidence and making such inquiries as they may deem necessary, may pass such orders as they shall think fit in respect of such application. [*Ibid*, s. 114]

The decision of such members, or of a majority thereof, in such cases shall be final.

Limitation of time for application of review.

17. Unless good cause shall be shown to the satisfaction of such members for extending the time allowed, no such application shall be received after the expiration of one month from the date of publication of the notice required by rule 14 relating to the list containing the valuation or rating in respect of which the application is made, or after the expiration of fifteen days from the date of service of the first notice of demand for payment at the rate in respect of which the application is made, whichever period shall last expire. [*Ibid*, s. 115]

Assessment to be questioned only under this rules.

18. No objection to any assessment or rating shall be taken in any other manner than is provided for in these rules. [*Ibid*, s 116]

PART II.—RECOVERY.

Office hours for payment of the lighting-rate

19. By notification to be posted up in its office, the Cantonment Authority shall declare at what hours of each day (not being a Sunday or other recognized holiday) the office shall be open for the receipt of money and the transaction of business. [*Ibid*, s. 117]

Lighting-rate payable in advance.

20. The amount due by any person on account of the lighting-rate shall be deemed to be the amount entered in the list, the notice relating to which is published under rule 14, unless the amount entered in such list is subsequently altered by the Cantonment Authority as provided in these rules, in which case the amount to which the rating is so altered shall be deemed to be the amount due. Every instalment of such rate shall be deemed to be due on the first day of the quarter in respect of which such instalment is payable. [*Ibid*, s 118]

Payment of lighting-rate

21. The lighting-rate shall be paid by the occupiers of the holdings by quarterly instalments in advance. [*Ibid*, s. 310.]

Receipts to be given.

22. For all sums paid on account of the lighting-rate a receipt stating the amount and the rate on account of which it is paid shall be given, signed by the tax-collector or by some other officer authorized by the Cantonment Authority to grant such receipts. [*Ibid*, s. 119.]

Power to assess owner in certain cases.

23. If any holding shall be occupied by more than one tenant holding severally, or shall be of less value than one hundred rupees, it shall be lawful for the Cantonment Authority to recover the rate from the owner of such holding, who shall have the following remedies for the recovery of such rate from the tenant. [*Ibid*, s. 312.]

[Bengal Act III of 1884, s 313.]

Owner to recover from the occupier rates paid by owner.

24. Whenever any rate shall be recovered from any owner of any holding under the provisions of these rules, it shall be lawful for such owner, if there shall be but one occupying tenant of such entire holding, to recover from such tenant the entire amount of the rate which shall have been so paid by such owner; and, if there shall be one occupying tenant of a part of such holding or more than one occupying tenant of such holding, then to recover from such tenant, or each of such tenants, such sum as shall bear to the entire amount of rate which may have been so recovered from such owner the same proportion as the value of the portion of such holding in the occupation of such tenant bears to the entire value of such holding, subject, however, to the provisions of rule 25.

[*Ibid.*, s 311]

Owner may recover rate so paid as rent

25. Every owner, who, under the provisions of these rules, may be entitled to recover any sum from any occupying tenant of any holding or of any portion thereof, shall have, for the recovery of such sum, all such and the same remedies, powers, rights and authorities as if such sum were rent payable to such owner by such tenant in respect of so much of such holding as may be in the occupation of such tenant.

Bill and notice of demand to be presented

26. At any time within six months after any sum has become due on account of the lighting-rate, the Cantonment Authority shall cause to be presented to the person liable to the payment thereof a bill for the said sum, which shall contain a statement of the period for which the ligh ing-rate is in arrear. If the amount mentioned in such bill be not paid on presentation thereof, a notice of demand, in the form marked A in the Second Schedule, with copy of the bill appended thereto, shall be served on the person liable to pay the same, and such notice of demand may be served at any subsequent time:

Provided that no charge shall be made in respect of the service of such notice.

Such notice shall be signed by the President of the Cantonment Authority or an officer authorized in that behalf, and shall be served by the person authorized to receive payment.

[*Ibid*, s 121]

If not paid in fifteen days, process of distress may issue

27. If any person, after service upon him of the bill and notice referred to in rule 26, shall not, within fifteen days of the service of such notice or from the date of any order made on an application for review under rule 16, pay the sum due, either to the Cantonment Authority at its office or to some person authorized by it to receive the money, or show to the Cantonment Authority sufficient cause for not paying the same, the amount of the arrear due, with costs on the scale shown in the table of fees marked B in the Second Schedule, may, at any time within three months after the date of service of the said notice, or of the order made on an application for review as aforesaid, be levied by distress and sale of any moveable property belonging to the defaulter, except ploughs, plough-cattle, tools or implements of agriculture or trade, wherever found, or of any moveable property belonging to any other person, subject to the same exceptions which may be found within the holding in respect of which such defaulter is liable to such rate:

Provided that, when the holding in respect of which the default is committed is a place of business, and the moveable property distrained is shown to the satisfaction of the Cantonment Authority to have been left there for repairs or safe custody in the ordinary course of business, it shall be released;

Provided also that, if the said property or any part thereof belongs to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same.

[*Ibid*, s 122]

Distress how to be made

28. Every warrant of distress and sale under the last preceding rule shall be issued by the Cantonment Authority and shall be in the form marked C in the Second Schedule.

Distress shall be made by actual seizure of moveable property, and the officer charged with the execution of the warrant shall be responsible for

the due custody thereof. Such officer shall make an inventory of all moveable property seized under the warrant, and shall give not less than ten days' previous notice of the sale, and of the time and place thereof, by beat of drum in the Cantonment, and by serving on the defaulter a notice in the form marked D in the Second Schedule:

Provided that, if the property is of a perishable nature, it may be sold at once with the consent of the defaulter, or without such consent at any time after the expiry of six hours from the seizure.

[Bengal Act III of 1881, section 123]

29. The officer charged with the execution of the warrant may, under the special orders of the Cantonment Authority, between sunrise and sunset, break open any outer or inner door or window of a house, in order to make the distress, if he has reasonable ground for believing that such house contains any moveable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance:

Officer may break open door

Provided that he shall not enter or break open the door of any room appropriated for the zenana or residence of women, which by the usage of the country is considered private, except after three hours' notice and opportunity given for the retirement of the women.

[*Ibid*, s. 124]

30. If the sum due be not paid with costs before the time fixed for the sale, or the warrant be not discharged or suspended by the Cantonment Authority, the moveable property seized shall be sold by auction, at the time and place specified, in the most public manner possible, and the proceeds shall be applied in discharge of the arrears and costs.

Sale how to be conducted.

The surplus sale-proceeds (if any) shall be credited to the Cantonment Fund, and may be paid on demand to any person who establishes his right to the satisfaction of the Cantonment Authority or in a Court of competent jurisdiction.

The tax-collector, or other officer authorized in that behalf, shall make a return of all such sales to the Cantonment Authority in the form marked E in the Second Schedule.

[*Ibid*, s. 125.]

31. All officers and servants of the Cantonment Authority, and all chaukidars, constables and other officers of police are prohibited from purchasing any property at any such sale.

Certain persons prohibited from purchasing at sales.

XL of 1860

Whoever (not being a public servant within the meaning of section 21 of the Indian Penal Code) contravenes the provisions of this rule shall be punished with simple imprisonment for a term which may extend to two months, or with fine, or with both.

Penalty.

[*Ibid*, s. 126]

32. The Cantonment Authority shall cause a regular account to be kept of all distresses levied and sales made, for the recovery of the lighting-rate under these rules.

Cantonment Authority to keep account of distresses and sales.

[*Ibid*, s. 127.]

33. If no sufficient moveable property belonging to a defaulter, or being upon the premises in respect of which he is rated, can be found within the Cantonment, the Deputy Commissioner, Darjeeling, or any other Magistrate having jurisdiction over the Cantonment, may, on the application of the Cantonment Authority, issue his warrant to any officer of his Court for the distress and sale of any moveable property or effects belonging to the defaulter within any other part of the jurisdiction of the Magistrate, or for the distress and sale of any moveable property belonging to the defaulter within the jurisdiction of any other Magistrate exercising jurisdiction within the territories administered by the Governor of Bengal, and such other Magistrate shall endorse the warrant so issued, and cause it to be executed, and the amount, if levied, to be remitted to the Magistrate issuing the warrant, who shall remit the same to the Cantonment Authority.

Sale of property beyond limits of Cantonment.

[*Ibid*, s. 128.

34. No distress or sale made under these rules shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any error, defect or want of form in the bill, notice, summons, warrant of distress, inventory or other proceedings relating thereto.

Distress or sale not unlawful for want of form.

[Bengal Act III of 1884, section 129]

35. Instead of proceeding by distress and sale, or in case of failure to realize thereby the whole or any part of the lighting-rate, the Cantonment Authority may sue the person liable to pay the same in any Court of competent jurisdiction.

Cantonment Authority may bring suit instead of distraining or on failure of distress.

[*Ibid*, s. 130]

36. The Cantonment Authority may order to be struck off the books any amount in respect of lighting-rate which may appear to them to be irrecoverable.

Irrecoverable amounts.

37. The President of the Cantonment Authority shall, for the transaction of business under these rules, exercise all or any of the powers vested in the Cantonment Authority, excepting any power which is only exerciseable by that Authority at a meeting.

Powers of President.

NOTIFICATION II.

Darjeeling.

No. 10030P.—The 31st August 1915.—In exercise of the power conferred by section 15, sub-section (*2*), of the Cantonments Act, 1910 (XV of 1910), and with the previous sanction of the Governor General in Council, the Governor in Council is pleased to apply for the assessment and recovery of the water-tax imposed in the Cantonment of Takdah, by Notification No. 10029P. of this date, the provisions of sections 96, 97, 98, 99, 100, 103, 105, 106, 107, 108, 109, 112 to 130, 279(*3*) and 354, and Form B in the Third Schedule, and Forms A, B, C, D and E in the Fourth Schedule, of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), in the following adapted form :—

ASSESSMENT.

The Cantonment Authority to determine the annual rental value of buildings.

1. The Cantonment Authority, after making such inquiries as may be necessary, shall determine the annual rental value of all buildings within the Cantonment as hereinafter provided. [Bengal Act III of 1884, section 96.]

Duration of assessment.

2. Save as herein otherwise provided, such valuation shall be valid for five years from the date on which it takes effect in the Cantonment, and until the beginning of the year next after the date on which a new valuation may be made, or until the valuation be revised and amended. [*Ibid*, s. 97.]

Buildings exempted from tax.

3. The rate on the value of buildings shall not be assessed or levied on any building which is used as a public burial or burning ground. [*Ibid*, s. 98.]

Returns for ascertaining annual value.

4. The Cantonment Authority, in order to prepare the rental valuation list, may, whenever it thinks fit, by notice, require the owners or occupiers of all buildings, to furnish it with returns of the rent or annual value thereof; and the Cantonment Authority, or any person authorised by it in writing in that behalf, at any time between sunrise and sunset, may enter, inspect and measure any such building after having given forty-eight hours' previous notice of its intention to the occupier thereof. [*Ib d*, s. 99.]

Penalty for default in furnishing return.

5. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required to do so, or knowingly makes a false or incorrect return, shall be liable to a fine not exceeding twenty rupees, and to a further daily fine not exceeding five rupees for each day during which he shall omit to furnish a true and correct return; and whoever hinders, obstructs, or prevents the Cantonment Authority, or any person appointed by the Authority as aforesaid, from entering or inspecting or measuring any such building shall be liable to a fine not exceeding two hundred rupees. [*Ibid*, s. 100.]

Annual rental value how to be ascertained.

6. For the purposes of these rules the annual rental value of buildings shall be calculated as follows :—

(*a*) in the case of any house erected for letting purposes or ordinarily let, the gross annual rental at which such house, together with its appurtenances and any furniture that may be let for use or enjoyment therewith, is let from year to year;

(*b*) in the case of any house not erected for letting purposes and not ordinarily let, 5 per cent. on the sum obtained by adding the present estimated cost of erecting the house, less a reasonable amount to be deducted on account of depreciation (if any), to the estimated value of the land valued with the house as part of the same premises;

(*c*) in the case of any house owned by Government (including any house acquired at the cost of the Cantonment Fund), the actual rental assessed by the Military Works or other department under whose control the building may be.

[Bengal Act III of 1884, section 103]

Preparation of valuation list.

7. The Cantonment Authority shall cause to be prepared a rental valuation list, which shall contain the following particulars, and any others which the Cantonment Authority may think proper to include:—

(*a*) number of the building on the register;

(*b*) name of the street or road in which the building is situated;

(*c*) description of the building;

(*d*) annual rental value of the building;

(*e*) name of owner:

(*f*) amount of water-tax payable for the year;

(*g*) amount of monthly instalment; and

(*h*) if the building is exempted from assessment, a note to that effect.

[*Ibid*, s. 106]

Power of Cantonment Authority in cases of excessive hardship.

8. Whenever, from the circumstances of the case, the levy of the rate on any building in the Cantonment would be productive of excessive hardship to the person liable to pay the same, the Cantonment Authority at a meeting may reduce the amount payable on account of such building, or may remit the same.

[*Ibid*, s. 107]

Application for reduction of assessment.

9. If the rental value of any building shall be diminished from any cause beyond the control of the owner thereof, the owner thereof may apply for reduction of the water-tax.

[*Ibid*, s. 108.]

Power to revise rental valuation and assessment.

10. The Cantonment Authority may, at any time after the publication of the notice required by rule 12, value the annual rental of any building which was without authority omitted from the rental valuation list or which has become liable to valuation after the publication thereof; and may enhance the rental valuation of any building which may appear to have been insufficiently valued through mistake, oversight or fraud, or which has been increased by additions or alterations and may reassess the tax accordingly.

Any tax imposed or enhancement made under this rule shall take effect from the beginning of the month following that on which the tax shall be imposed or enhancement made.

[*Ibid*, s. 109.]

Power to revise assessment list.

11. The Cantonment Authority may, at any time, substitute for any name mentioned in the rental valuation list the name of any person to whom any building mentioned therein shall have been transferred. Such person shall be liable to pay the tax from the first day of the month following that in which the transfer has been made.

[*Ibid*, s. 112.]

Publication of notice of assessment.

12. When the rental valuation list for the tax shall have been prepared or revised, the Cantonment Authority shall sign the same, and shall cause it to be deposited in its office, and shall cause the notice in Form A in the First Schedule annexed to these rules to be published as far as possible in the following manner:—

[*Ibid*, s. 354.]

Every such notice shall be written in, or translated into, the vernacular of the district, and deposited in the office of the Cantonment Authority, and a copy shall be posted up in a conspicuous position at such office, and in such other public places as the Authority may direct.

And a public proclamation shall be made throughout the Cantonment by beat of drum, notifying that such copy has been so posted up, and that the original is open to inspection in the office of the Cantonment Authority.

13. Any person who is dissatisfied with the amount assessed upon him, or who disputes his occupation of any building, or his liability to be assessed, may apply to the Cantonment Authority to revise the amount of the tax or to exempt him from it. [Bengal Act III of 1884, section 113.]

Application for review

14. Every application presented under rule 13 shall be heard and determined by not less than three members of the Cantonment Authority, who shall be appointed in that behalf by the Cantonment Authority at a meeting. The members so appointed, after taking such evidence and making such inquiries as they may deem necessary, may pass such orders as they shall think fit in respect of such application. The decision of such members, or of a majority thereof, in such cases shall be final. [*Ibid*, s. 114.]

Procedure upon review.

15. Unless good cause shall be shown to the satisfaction of the said members of the Cantonment Authority for extending the time allowed, no such application shall be received after the expiration of one month from the date of publication of the notice required by rule 12 relating to the list containing the amount of water-tax in respect of which the application is made, or after the expiration of fifteen days from the date of service of the first notice of demand for payment of the amount in respect of which the application is made, whichever period shall last expire. [*Ibid*, s. 115.]

Limitation of time for application of review.

16. No objection shall be taken to any assessment in any other manner than is provided for in these rules. [*Ibid*, s. 116.]

Assessment to be questioned only under these rules.

RECOVERY OF THE TAX.

17. By notification to be posted up in its office, the Cantonment Authority shall declare at what hours of each day (not being a Sunday or other recognised holiday) the office shall be open for the receipt of money and the transaction of business. [*Ibid* s. 117.]

Office hours for payment of taxes.

18. The amount due by any person on account of the tax shall be deemed to be the amount entered in the list, the notice relating to which is published under rule 12, unless the amount entered in such list is subsequently altered by the Cantonment Authority as provided in these rules; in which case such altered amount shall be deemed to be the amount due. Every instalment of such tax shall be deemed to be due on the first day of the month in respect of which such instalment is payable. [*Ibid*, s. 118.]

Tax payable in advance.

19. The water-tax shall be paid by the occupiers of the holdings by quarterly instalments in advance. [*Ibid*, s. 279(3).]

Payment of water-tax.

20. For all sums paid on account of the tax a receipt stating the amount shall be given signed by the Secretary to the Cantonment Authority or by some other officer authorised by the Cantonment Authority to grant such receipt. [*Ibid*, s. 119.]

Receipts to be given.

21. At any time within three months after any sum has become due on account of the tax the Cantonment Authority shall cause to be presented to the person liable to the payment thereof a bill for the said sum which shall contain a statement of the periods for which the tax is in arrear. If the amount mentioned in such bill be not paid on presentation thereof, a notice of demand, in Form "A" in the Second Schedule annexed to these rules, with a copy of the bill appended thereto, shall be served on the person liable to pay the same, and such notice of demand may be served at any subsequent time: [*Ibid*, s. 120.]

Bill and notice of demand to be presented.

Provided that no charge shall be made in respect of the service of such notice.

Such notice shall be signed by the President of the Cantonment Authority or an officer authorised in that behalf, and shall be served by the person authorised to receive payment.

22. If the sum due from the owner of any building remains unpaid after the notice of demand has been duly served, and such owner be not resident within the Cantonment, or the place of abode of such owner be not known, the same may be recovered from the occupier for the time being of [*Ibid*, s. 105.]

Tax due from non-resident owner may be recovered from occupier.

such building, who may deduct from the next rent and following payments of his rent the amount which may be so paid by or recovered from him :

Provided that no arrear of the tax which has remained due from the owner of any building for more than one year shall be so recovered from the occupier thereof.

[Bengal Act III of 1884, section 121]

If not paid within fifteen days, process of distress may issue.

23. If any person, after service upon him of the bill and notice referred to in rule 21, shall not, within fifteen days of the service of such notice or from the date of any order made on an application for review under rule 13, pay the sum due, either to the Cantonment Authority at its office or to some person authorised by it to receive the money, or show to the Cantonment Authority sufficient cause for not paying the same, the amount of the arrear due, with costs on the scale shown in the Table of Fees marked "B" in the Second Schedule annexed to these rules, may, at any time within one month after the date of service of the said notice, or of the order made on an application for review as aforesaid, be levied by distress and sale of any moveable property belonging to the defaulter, except ploughs, plough-cattle, tools or implements of agriculture or trade, wherever found, or of any moveable property belonging to any other person, subject to the same exceptions which may be found within the building in respect of which such defaulter is liable to the tax :

Provided that when the building in respect of which such default is committed is a place of business, and the moveable property distrained is shown to the satisfaction of the Cantonment Authority to have been left there for repairs or safe custody in the ordinary course of business it shall be released ;

Provided also that, if the said property or any part thereof belong to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same.

[*Ibid*, s. 122.]

Distress how to be made

24. Every warrant of distress and sale under rule 23 shall be issued by the Cantonment Authority, and shall be in Form "C" in the Second Schedule annexed to these rules.

Distress shall be made by actual seizure of moveable property, and the officer charged with the execution of the warrant shall be responsible for the due custody thereof.

Such officer shall make an inventory of all moveable property seized under the warrant, and shall give not less than ten days' previous notice of the sale and of the time and place thereof by beat of drum in the Cantonment, and by serving on the defaulter a notice in Form "D" in the said Second Schedule :

Provided that, if the property is of a perishable nature, it may be sold at once with the consent of the defaulter, or without such consent at any time after the expiry of six hours from the seizure.

[*Ibid*, s. 123.]

Officer may break open door

25. The officer charged with the execution of the warrant may, under the special orders of the Cantonment Authority, between sunrise and sunset, break open any outer or inner door or window of a house in order to make the distress, if he has reasonable ground for believing that such house contains any moveable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance :

Provided that he shall not enter or break open the door of any room appropriated for the zenana, or residence of women, which by the usage of the country is considered private, except after three hours' previous notice and opportunity given for the retirement of the women.

[*Ibid*, s. 124.]

Sale how to be conducted

26. If the sum due be not paid with costs before the time fixed for the sale, or the warrant be not discharged or suspended by the Cantonment Authority, the moveable property seized shall be sold by auction at the time and place specified, in the most public manner possible, and the proceeds shall be applied in discharge of the arrears and costs.

The surplus sale-proceeds (if any) shall be credited to the Cantonment Fund, and may be paid on demand to any person who establishes his right

to the satisfaction of the Cantonment Authority or in a Court of competent jurisdiction.

The officer authorised to execute the warrant shall make a return of all such sales to the Cantonment Authority in the Form marked "E" in the Second Schedule annexed to these rules.

[Bengal Act III of 1884, section 125.]

Certain persons prohibited from purchasing at sales.

27. All officers and servants of the Cantonment Authority and all chaukidars, constables and other officers of police are prohibited from purchasing any property at any such sale.

Penalty.

Whoever (not being a public servant within the meaning of section 21 of the Indian Penal Code) contravenes the provisions of this rule shall be punished with simple imprisonment for a term which may extend to two months, or with fine, or with both. XLV of 1860

[*Ibid*, s. 16]

Cantonment Authority to keep an account of distresses and sales.

28. The Cantonment Authority shall cause a regular account to be kept of all distresses levied and sales made for the recovery of the tax under these rules.

[*Ibid*, s 127.]

Sale of property beyond limits of Cantonment.

29. If no sufficient moveable property belonging to a defaulter or being upon the premises in respect of which he is assessed can be found within the Cantonment the Deputy Commissioner of Darjeeling, or any other Magistrate having jurisdiction over the Cantonment, may, on the application of the Cantonment Authority, issue his warrant to any officer of his Court for the distress and sale of any moveable property or effects belonging to the defaulter within any other part of the jurisdiction of the Magistrate, or for the distress and sale of any moveable property belonging to the defaulter within the jurisdiction of any other Magistrate exercising jurisdiction within the territories administered by the Governor of Bengal; and such other Magistrate shall endorse the warrant so issued and cause it to be executed, and the amount, if levied, to be remitted to the Magistrate issuing the warrant, who shall remit the same to the Cantonment Authority.

[*Ibid*, s. 128]

Distress or sale not unlawful for want of form.

30. No distress or sale made under these rules shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any error, defect or want of form in the bill, notice, summons, warrant of distress, inventory, or other proceeding relating thereto.

[*Ibid*, s. 129.]

Cantonment Authority may bring suit instead of distraining or on failure of distress.

31. Instead of proceeding by distress and sale, or in case of failure to realise thereby the whole or any part of the tax, the Cantonment Authority may sue the person liable to pay the same in any Court of competent jurisdiction.

[*Ibid*, s. 130.]

Irrecoverable taxes

32. The Cantonment Authority may order to be struck off the books the amount of any tax which may appear to it to be irrecoverable.

Power of President.

33. The President of the Cantonment Authority shall, for the transaction of business under these rules, exercise all or any of the powers vested in the Cantonment Authority excepting any power which is only exerciseable by that Authority at a meeting.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

The 31st August 1915.

No. 14.—Notification.—In exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of all previous notifications on the subject, the Governor in Council is pleased to make and fix the following rules and schedule of rates of tolls for the line of navigation known as the Madaripur Bhil channel and the Lower Kumar river as defined in Notification No. 128, dated the 26th June 1900, and Notification No. 162, dated the 22nd July 1902, paragraphs 17 and 18.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations notified in the Schedule II attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty shall, for the purposes of these rules, be determined by the following measurements:—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll-station of entry with a ticket on which the name of the serang

manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll-station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the Collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (I) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll-station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel, in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll-station the procedure as laid down in rules 6 and 8 will be adopted.

(II) The traffic manifest or the receipt for the same may be demanded by any navigation officer while the vessel is within the limits of the Bhil channels between the Manickdah entrance and Chur Maguria.

11. The term "Navigation officer" as used in rule 6 shall include the Collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Public Works Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (1) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(2) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the Collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

20. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

21. For any infringement of rule 6, 7, 8, 9, 10, 13, 14, 15, 17, 19 or 20 the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a pay for any continuing infringement.

PART IA.

Orders and Notifications by the Government of India.

The following notification, issued by the Government of India in the Foreign and Political Department, published in the *Gazette of India* dated the 14th August 1915, is republished for general information.

J. H. KERR,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

Simla, the 10th August 1915.

No. 1367-G.—With reference to the notification of the Government of India, in the Foreign Department, No. 1606-G., dated the 29th July 1910, the following revised section of the Political Department Memorial Rules is published for general information :—

II.—MEMORIALS, ETC., ADDRESSED TO HIS MAJESTY THE KING-EMPEROR OF INDIA, OR TO THE SECRETARY OF STATE FOR INDIA.

1. Every memorial must be submitted to the Political Officer of the State within whose jurisdiction the subject matter has arisen, accompanied by a copy of the order appealed against and by a letter requesting its transmission to the authority to which it is addressed.

2. Memorials may be transmitted either in manuscript or in print, but must, with all accompanying documents, be properly authenticated by the signature of the memorialist on each sheet.

3. Subject to the exceptions hereinafter contained every memorial received which conforms to the above rules should be forwarded by the Political Officer through the usual official channel with a concise statement of material facts, and, unless there be special reasons to the contrary, an expression of opinion.

4. Memorials, together with their accompanying documents, should be in English. If the accompanying documents must necessarily be forwarded in the vernacular, an English translation should be appended, which should be attested by the signature of the memorialist on each sheet.

N. B.—The transmitting officer should examine such translations, and if they are found to be incorrect or faulty, notice the fact in sending on the memorial.

5. Every memorial should be accompanied by copies of all the orders passed in the case by the authorities who have dealt with it in India.

6. Local Governments, Administrations, and Political* Officers in direct subordination to the Foreign and Political Department of the Government of India are vested with discretionary power to withhold memorials addressed to His Majesty or to the Secretary of State in the following cases :—

(1) When the memorial is illegible or unintelligible.

(2) When the memorial contains language which, in the opinion of the authority who would otherwise forward it, is disloyal, disrespectful, or improper.

(3) When a previous petition of the memorialist (which term includes a rejoinder submitted by the memorialist in answer to a previous petition of some other party) has been disposed of by the Secretary of State, and the petition discloses no new facts or circumstances which afford grounds for a reconsideration of the case.

(4) When the memorialist has not previously appealed to the Government of India (or the Government of Madras, Bombay or Bengal, as the case may be) and received the decision of the Governor-General (or Governor) in Council upon it.

(5) When the memorial is an appeal preferred more than six months after the date on which the memorialist was informed of the orders against which he appeals, provided that the Local Government, Administration, or Political Officer, as the case may be, may, at their or his discretion, extend the period to twelve months, if the delay will facilitate a settlement of the dispute, or other good cause is shown.

(6) When the memorial refers to matters in which the memorialist is not personally interested.

(7) When the memorial is in effect an appeal in a boundary case between Native States in which the decision, original or appellate, of the Political Officer has been passed after enquiry on the spot and confirmed on appeal by the Local Government, Local Administration or the Government of India as the case may be.

(8) Cases which turn entirely on questions of fact, where the Political Officer and Local Government or Local Administration are in agreement.

7. Provided they do not contravene the conditions specified in the preceding section, memorials which are appeals against orders passed by the Governor-General in Council (or Governor in Council in Madras, Bombay or Bengal, as the case may be) in the exercise of political control in territories not included in British India, shall be forwarded, except in the following cases in which a discretionary power to withhold the memorials may be exercised :

†(1) When the order appealed against has been passed by the Government of India, Madras, Bombay or Bengal (as the case may be), as a recognised Court of Appeal in regard to a judgment or order of any Court of civil or criminal jurisdiction established or continued by the Governor-General in Council in such territories.

(2) When the order appealed against is a mere refusal to exercise political control in regard to a judgment or order of any special Court established by the Governor-General in Council in such territories, from which Court there is, by its constitution, no appeal, though a general political control over it is declared or understood to exist.

---

*Political Officers who are not Heads of Local Administrations may not exercise discretionary power to withhold memorials of the kind referred to in clauses (7) and (8) of Rule 6

† *Note to Rule 7 (1) of Sections I and II.*—Memorials which are practically appeals for mercy or pardon must be transmitted. But their transmission will not affect the discretion in regard to capital sentences allowed to Local Governments and Administrations by the Home Department Resolution No. 20 – 1073-13, dated the 14th October 1885, as modified by Foreign Department Circular letter No. 3299-I B, dated the 30th August 1901

(3) When the order appealed against is a mere refusal to interfere in a matter of purely internal policy with the action or orders of the Ruler of a Native State, of which the memorialist is a subject: provided that the State is one in which it is not customary for the British Government to intervene in matters of internal policy, and that the matter complained of does not disclose a state of misrule so gross that the Paramount Power would be called upon to interfere.

N. B.—This rule applies to a temporary Administration established in a Native State by the Governor-General in Council when the temporary Administration is appointed to exercise the same powers and occupy the same position as the Native Administration which it supersedes.

8. Memorials from persons,* in such territories which are not covered by these rules, may be treated under the memorial rules of the Home Department when they are applicable.

*E. g., petitions from Government servants about dismissal, pensions, etc

9. The following special rules apply to the case of appeals against the orders of the Government of Bombay:—

(1) In the following cases the decision of the Local Government shall ordinarily be considered as final, an appeal to the Secretary of State for India only being admissible with the permission of the Local Government, which should be previously obtained:—

(*a*) Giras cases in States of classes I to IV in Kathiawar, which would have been tried by the Rajasthanik Court when it existed, but are now tried by the States Huzur Courts from whose decision an appeal lies to the Agency and to the Local Government.

(*b*) Giras cases in States below class IV in which the decision of the Agent to the Governor, Kathiawar, is at present final under the rules sanctioned in Government Resolution No. 6511, dated the 18th November 1898, subject to the general political control of the Local Government.

(*c*) Cutch Jadeja Court cases.

(2) Memorialists who desire to appeal against the orders of the Government of Bombay, in political cases shall have the option of addressing such appeals either to the Government of India or to the Secretary of State and such appeal shall be forwarded subject to the provisions of Rules 6 and 7. When in the exercise of this option an appeal has been presented to the Government of India, no further appeal shall lie to the Secretary of State. This rule shall not apply to—

(*a*) appeals in Giras cases or in those which are specially covered by any of the foregoing rules;

(*b*) memorials of the class specially reserved in Rule IV of the rules published with Home Department Notification No. 148 (Public), dated the 19th January 1905;

(*c*) memorials which involve questions affecting the status, dignity or powers of a Ruling Chief or his relations with the Paramount Power (including questions of succession or adoption) and with other Chiefs.

NOTIFICATIONS.

Simla, the 25th August 1915.

No. 1896-I.-B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all other powers enabling him in that behalf, the Governor General in Council is pleased to make the following Law to regulate the import, transport, sale and possession of morphia, coca, cocaine and cocaine substitutes in the areas in the Hyderabad State in which the Governor General in Council exercises jurisdiction :—

Short title and extent.

1. (*1*) This Law may be called the Hyderabad Intoxicating Drugs Law, 1915.

(2) It extends to the areas in the Hyderabad State in which the Governor General in Council exercises jurisdiction through the Resident at Hyderabad (hereinafter called the Resident).

Definitions.

2. In this Law—

(*i*) "Coca" means the dried or green leaves of the coca plant (*Erythroxylum coca*), and includes the plant itself.

(*ii*) "Cocaine" means the alkaloid obtained from the coca plant, and includes all preparations and admixtures thereof.

(*iii*) "Cocaine substitute" means any such synthetic preparation as has a physiological action similar to that of cocaine.

(*iv*) "Intoxicating drug" means morphia, coca, cocaine and cocaine substitutes.

(*v*) "Licensed druggists" means a druggist who has been licensed under this Law to sell morphia, cocaine and cocaine substitutes, or any of them.

(*vi*) "Medical practitioner" means—

(*a*) any person possessed of qualifications which render him eligible for registration under the Medical Act, 1858, and any Act of Parliament amending the same, or under any law for the registration of medical practitioners for the time being in force in any part of British India, or

21 & 22 Vict., c 90

(*b*) any dentist possessed of qualifications which render him eligible for registration as a dentist under the Dentists' Act, 1878, and any Act of Parliament amending the same, or

41 & 42 Vict., c 33

(*c*) any other person engaged in medical practice, licensed as a medical practitioner for the purposes of this Law by the prescribed Authority.

(*vii*) "Morphia" means the alkaloid of opium known as morphia or morphine, and includes all preparations and admixtures thereof.

(*viii*) "Notification" means a notification in the Hyderabad Residency Orders.

(*ix*) "Place" includes building, house, shop, tent, booth, enclosure vessel, raft and vehicle.

(*x*) "Prescribed" means prescribed by rule under this Law.

Prohibition as to coca.

3. No coca shall be imported, transported, possessed or sold.

Prohibition as to import and transport by post.

4. No intoxicating drug shall be imported or transported by means of the post.

Import.

5. No morphia, cocaine or cocaine substitute shall be imported, except under a permit granted by the prescribed Authority, by a medical practitioner or licensed druggist.

Transport.

6. No morphia, cocaine or cocaine substitute shall be transported, except—

(*a*) under a permit granted by the prescribed Authority, by a medical practitioner or licensed druggist, or

(*b*) in quantities not exceeding those which any person other than a medical practitioner or licensed druggist as such is authorised to possess under the provisions of this Law.

Possession.

7. No morphia, cocaine or cocaine substitute shall be possessed, except—

(*a*) when purchased in accordance with the prescription of a medical practitioner, in quantities not exceeding the terms of such prescription;

(*b*) by a medical practitioner as such, in quantities not exceeding half an ounce in the aggregate of morphia, cocaine and cocaine substitutes, or such greater quantity as the prescribed Authority may, by general or special permit, authorise, or

(*c*) by a licensed druggist as such, in quantities not exceeding those which may be specified in his license.

Sale.

8. (*1*) No morphia, cocaine or cocaine substitute shall be sold, except by a medical practitioner or licensed druggist—and

(*a*) to a medical practitioner or a licensed druggist, in quantities not exceeding those which the purchaser is authorised under this Law to possess, or

(*b*) in accordance with the prescription of a medical practitioner:

Provided that not more than one sale shall be made on the same prescription, except under the written direction of a medical practitioner.

(*2*) A written record shall be made of every sale in the prescribed manner.

Major offences.

9. Whoever, in contravention of this Law or of any rule made thereunder, imports, transports, possesses or sells any intoxicating drug, shall be punishable with imprisonment for a term which may extend to one year, or with fine which may extend to two thousand rupees, or with both.

Minor offences.

10. Whoever breaks any condition of a license or permit granted under this Law, for the breach of which no other penalty is imposed, shall be punishable with fine which may extend to fifty rupees, and shall be liable to the forfeiture of his license or permit.

Attempt, abetment and possession of illicit drug.

11. Whoever attempts to commit any offence punishable under this Law, or abets the commission of any such offence, or receives or retains any intoxicating drug in respect of which he knows or has reason to believe that any such offence has been committed, shall be punishable with the punishment provided for such offence.

Enhanced punishment after previous conviction.

12. Whoever, having been previously convicted of an offence punishable under section 9, or under section 10 read with section 9, subsequently commits any such offence, shall be liable to twice the punishment which might be imposed on a first conviction.

Confiscation.

13. Any intoxicating drug in respect of which any offence punishable under section 9 has been committed, shall be liable to confiscation, whether the accused is, or is not, convicted.

Arrest and seizure without warrant

14. Any officer of Police, subject to the prescribed restrictions, may—

(*a*) seize and detain any intoxicating drug which he has reason to believe to be liable to confiscation under this Law; and

(*b*) detain and search, and, if he thinks proper, arrest any person whom he has reason to believe to have committed an offence under section 9, or under section 11 read with section 9.

Warrants of arrest and search.

15. (*1*) Whenever a Magistrate has reason to believe—

(*a*) that any person has committed an offence under section 9, or under section 11 read with section 9, or

(*b*) that any intoxicating drug in respect of which such an offence is being, or is likely to be committed, is kept or sold in any place,

such Magistrate may issue a warrant for the arrest of such person, or for the search of such place by day or by night.

(*2*) A Magistrate issuing a warrant for the arrest of any person under this section may, by endorsement on the warrant, direct that, if such person executes a bond with sufficient sureties for his attendance before the Magistrate, the person to whom the warrant is directed shall take such security, and shall release the person arrested from custody; and the person executing such warrant shall in such a case give effect to such direction.

(*3*) The person executing a warrant under this section may exercise any or all of the powers specified in section 14, and shall forward anything seized, and, subject to the provisions of sub-section (*2*), any person arrested, to the Magistrate by whom such warrant was issued.

Search without warrant.

16. Whenever a Police-officer, not below the rank of Head Constable, has reason to believe that any intoxicating drug in respect of which an offence under section 9, or under section 11 read with section 9, has been, is being, or is likely to be, committed, is kept or concealed in any place, and that a search warrant cannot be obtained without affording the offender an opportunity of escape or of concealing evidence of the offence, he may, after recording the grounds of his belief, enter and search such place by day or by night, and may exercise therein all or any of the powers specified in section 14.

V of 1898.

Application of Criminal Procedure Code.

17. Save as in this Law otherwise expressly provided, the provisions of the Code of Criminal Procedure, 1898, relating to searches, arrests and warrants shall apply, so far as may be, to all searches and arrests made, and warrants issued, under this Law.

Procedure after arrest or seizure.

18. (*1*) Whenever any officer makes an arrest or seizure under section 14 or section 16, he shall, without delay, take or send any person arrested or thing seized to the officer in charge of the nearest police-station, together with a report of the particulars of such seizure or arrest.

(*2*) An officer in charge of a police-station, to whom any person arrested or thing seized is made over, shall forthwith forward such person or thing to a Magistrate having jurisdiction, unless he considers further inquiry necessary, in which case he shall proceed in accordance with the provisions of Chapter XIV of the Code of Criminal Procedure, 1898:

Provided that such officer may, instead of forwarding a person arrested to the Magistrate, take a bond with such sureties as he may think sufficient, for the attendance of such person before the Magistrate on a date to be specified; and in such a case, he shall forward the bond taken to the Magistrate.

Exemptions.

19. (*1*) Nothing in this Law shall apply to—

(*a*) the import, transport, possession or sale of intoxicating drugs on behalf of the British Government, or the Government of His Highness the Nizam, or

(*b*) intoxicating drugs in transit to or from British India in accordance with the law of British India.

(*2*) Subject to the provisions of sub-section (*1*), the Resident may, with the previous sanction of the Governor-General in Council, by notification, either wholly or partially, and subject to such conditions, if any, as he may

think fit, exempt any medicinal preparations containing intoxicating drugs, or any class of such preparations, from all or any of the provisions of this Law.

Rules.

20. The Resident may, by notification, make rules for all or any of the following purposes, namely :—

(*1*) to provide for the registration of sales and for the endorsement of sales on prescriptions;

(*2*) to determine the authority by which, the form in which, and the terms and conditions on and subject to which, any licence or permit may be granted; and may, by such rules, among other matters—

(*a*) fix the period of validity of such licence or permit;

(*b*) fix the fee, if any, payable for such licence or permit, and the time, place and manner of payment of such fee; and

(*c*) provide for the production of such licence or permit, on the demand of any officer empowered in this behalf;

(*3*) to regulate the disposal of things confiscated or seized as liable to confiscation under this Law;

(*4*) to regulate the powers and duties of officers under this Law; and

(*5*) generally to carry out the provisions of this Law.

Repeal

21. (*1*) The Hyderabad Intoxicating Drugs Law, 1911, is hereby repealed.

(*2*) The provisions of sections 6 and 24 of the General Clauses Act, 1897, shall apply for the interpretation of sub-section (1). X of 1897

The 26th August 1915.

No. 1465-G.—With the sanction of His Majesty's Government, the Governor General in Council is pleased to recognise the appointment of Mr. J. Preston Doughten as Vice-Consul for the United States of America at Calcutta.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

24-Parganas.

No. 2042M.—The 26th August 1915.—In exercise of the power conferred by clause (*a*) of section 59 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to approve the resolution passed by the Commissioners of the Titagarh Municipality, in the district of the 24-Parganas, under section 23 of that Act, electing Mr. C. L. Thomson to be Chairman of that Municipality, *vice* Mr. T. Burns, resigned.

No. 2046M.—The 27th August 1915.—In exercise of the power conferred by section 569 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), the Governor in Council is pleased to sanction the following rules made by the Corporation of Calcutta under clause (*b*) of section 73 of that Act, for regulating the commutation of pensions granted to Municipal Officers and servants into lump sum payments.—

RULES REGULATING THE COMMUTATION OF PENSIONS.

1. Subject to the conditions stated below, the Corporation may, on the application of a pensioner (existing and future), permit commutation, for a lump payment of a portion of his pension, the sum payable being calculated according to the table of present values, printed in Appendix 10 of the Civil Service Regulations.

2. All applications for commutation must be made to the Chairman of the Corporation in Form A appended to these rules, setting forth the grounds and purposes of such application.

3. On receipt of an application for commutation, the Chairman shall satisfy himself, by strict enquiry and scrutiny, on the following points :—

(*a*) That the commutation is for a definite purpose and to the distinct and permanent advantage of the applicant and his family;
(*b*) That the case is one of a very exceptional nature;
(*c*) That the amount of pension intended to be commuted is not more than one-fourth of the amount of pension sanctioned;
(*d*) That the residue after commutation is not less than Rs. 15 per month and is sufficient to maintain the pensioner in the status of life to which he has been accustomed, and
(*e*) That the age of the applicant does not exceed 70 years.

4. (*a*) If on consideration of the facts stated in the application and on being satisfied on the points mentioned in rule 3, the Chairman decides to recommend to the Corporation such commutation, the applicant should be required to produce a certificate as to his expectation of life ordinarily from the Health Officer of the Corporation. It will be open to the Chairman to require the applicant to produce such further or other medical certificates as he may consider necessary.

(*b*) In the case of a pensioner who has an impaired life the Health Officer shall submit a report as to the age upon which the commutation should be calculated so as to allow for the probable decrease in his expectation of life, and the Corporation, on the recommendation of the Chairman, may, then, at their discretion, sanction the commutation, the sum payable being computed on the basis of the age at which his life has been so estimated by the Health Officer.

(*c*) The certifying medical officer shall subject the applicant to a strict medical examination requiring him to give such information as to his health and habits as is usual in the case of persons proposing to insure their lives in Insurance Companies and will report in the following form :—

"I have examined.....and am of opinion that he $\frac{\text{is}}{\text{is not}}$ of good bodily health and $\frac{\text{has}}{\text{has not}}$ the prospect of an average duration of life. I therefore $\frac{\text{do}}{\text{do not}}$ recommend compliance with his application to capitalize a portion of his pension."

(*d*) In the case of a pensioner who has retired on invalid pension, the particulars of his incapacity and statement of his medical case must be communicated to the certifying medical authority.

5. The lump sum payable on commutation will be certified by the Chief Accountant according to the table of present values shown in Appendix 10 of the Civil Service Regulations with special reference to the date on which the commutation should take effect.

6. The Corporation, at their discretion, may allow the application for commutation on the recommendation of the Chairman and on being satisfied on the points mentioned in rules 3 and 5.

7. All sanctions to the commutation of a pension shall be subject to the condition that the expenditure can be met from a sanctioned Budget grant.

8. Commutation once applied for, sanctioned and given effect to, cannot be rescinded, *i.e.*, the portion of a pension commuted cannot be restored on refund of the capitalized value.

9. If a pensioner, whose pension has been commuted, dies before receiving the commutation value, the amount will be payable to his heirs.

10. If a pensioner, a portion of whose pension has been commuted, dies before he has drawn a full year's pension, the fact of commutation having been allowed, cancels any claim on the part of his family to a compassionate allowance.

FORM A.

I desire to commute a portion of my pension. After careful consideration I am convinced that it will be to the distinct and permanent advantage of myself and my family to make this application. I also declare that I have correctly answered each and all of the questions below and otherwise submitted all necessary information to the best of my belief and knowledge, and

further I agree to be bound by the Rules for commution of pensions sanctioned by the Corporation.

Questions.

1. Nature of pension.
2. Amount of monthly pension.
3. How much of the pension is proposed to be commuted.
4. Have you a wife living? Name any other members of your family dependent upon you for support with their respective ages.
5. Your present monthly income from all sources with particulars.
6. Have you any debts? Give particulars.
7. How do you propose to utilize the commutation money, if granted?
8. Do you suffer from any complaint likely to shorten life? If so, state its nature.
9. Present age.
10. Any further statement which you think might help in the disposal of your application.

The normal surplus which may be expected in future.	REMARKS.
20	21
Rs. 66,000.*	Increase in receipt under Municipal rates and taxes is due to the revision of assessment by districts and to the imposition of the tax on professions and trades from 1915-16. Increase in expenditure under Miscellaneous is due to the payment of simple interest on the loan of Rs. 5,50,000 for the canal drainage scheme received in different instalments.

* The annual expected normal surplus is Rs. 1,12,000 from which Rs. 46,000, being the annual charges for the canal drainage loan of Rs. 5,50,000 and for the survey loan of Rs. 84,000 already received from Government, have been deducted and Rs. 66,000 have been shown as the normal expected surplus.

In addition to the details required on the reverse, clear information should be given below under the following heads:—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the borrowing body has taken, or has agreed to take, in order to make good the deficiency.

Ordinary surplus is sufficient to meet the charges of the proposed loan.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the local body.

The revenue is increasing every year on account of the introduction of the revision of assessment by districts and of the tax on professions and trades from 1912-13.

(*c*) A statement of all outstanding loans as well as the annual charges involved on their account.

Hooghly.

No. 2052M.—The 27th August 1915.—In exercise of the powers conferred by section 351 of the Bengal Municipal Act, 1884 (Act III of 1884), the Governor in Council confirms the following by-laws which have been framed by the Commissioners of the Serampore Municipality in the district of Hooghly :—

BY-LAWS FOR THE SERAMPORE MUNICIPALITY UNDER SECTION 350 OF BENGAL ACT, III OF 1884.

DEFINITIONS.

1. In these by-laws—

(*1*) "Carriage" includes also a motor-car; and

(*2*) "Cattle" means cattle as defined in section 3 of the Cattle-trespass Act, 1871 (I of 1871).

GENERAL EXCEPTION.

2. As section 34 of the Police Act, 1861 (V of 1861), is in force in this Municipality, no act which constitutes an offence under that section should be punishable under by-law 21, 36 or 54.

PENALTIES.

3. The penalty for the infringement of any of the by-laws shall be—

(*a*) a fine not exceeding the sum stated at the foot of the by-law,

(*b*) in the case of a second or subsequent conviction for a similar offence, a fine not exceeding the sum (if any) stated in that behalf at the foot of the by-law, and

(*c*) in the case of a continuing offence, a further fine, not exceeding the sum (if any) stated at the foot of the by-law as the daily fine, which daily fine may be imposed for each day after written notice of the offence from the Commissioners.

REGULATION OF TRAFFIC ON ROADS.

4. No owner of any carriage or cart shall allow it to be driven on any road by a driver under 14 years of age.

Fine, Rs. 10.

5. No driver shall drive or have in his charge on any road more than one carriage or cart, except in the case of two carts, the hinder one of which is securely fastened to the preceding cart.

Fine, Rs. 10.

6. Any person driving a carriage or cart, or riding a bicycle, or driving or riding an animal, or carrying a palanquin, on any road, shall, when passing any vehicle coming from the opposite direction, keep to his left, and shall, when overtaking any vehicle, keep to his right.

Fine, Rs. 10.

7. No person shall drive any of the undermentioned vehicles or animals, or convey any palanquin, on any road, between half-an-hour after sunset and half-an-hour before sunrise, unless lights are provided as follows :—

(*a*) every carriage must carry two conspicuous lights, one on each side;

(*b*) every cart must carry one conspicuous light;

(*c*) every led horse and every elephant, camel or palanquin must be accompanied by one conspicuous light ;

(*d*) Every cycle must carry one conspicuous light in front.

Fine, Rs. 50.

8. No person shall drive any motor-car or ride any motor-cycle, or any tricycle or bicyle, on any road, unless it has attached to it a bell, horn or other suitable signal in good order.

Fine, Rs. 50.

9. No cart shall, without the general or special permission of the Commissioners, carry on any road a load in excess of twenty maunds.

Fine, Rs. 10.

10. No person shall drive upon a road any cart laden with iron girders, rails, beams, bullas, bamboos, planks or other materials of a similar character which exceed twelve feet in length, unless the cart be accompanied by another person, and be loaded in such a way that no portion of the said materials touches the ground.

Fine, Rs. 10.

11. No person shall drive upon a road any cart laden with bricks, stones or other materials of a similar character, unless such materials be so secured that they cannot fall on to the road.

Fine, Rs. 10.

12. No person shall convey on any road bamboos or timber placed on the back of any animal in such a way that any portion of such bamboos or timber touches the ground.

Fine, Rs. 10.

13. No person shall, without the general or special permission of the Commissioners, take any elephant or camel along any road.

Fine, Rs. 50.

14. No person shall allow any elephant in his charge to go over any bridge on any road, unless the bridge be constructed of arched masonry.

Fine, Rs. 10.

15. No person shall drive upon a road, at the same time, more than two loaded pack-animals.

Fine, Rs. 10.

16. No person riding or driving a mare on any road shall allow a foal to accompany the mare unless it is secured.

Fine, Rs. 10.

17. No person shall drive a bullock-cart on the centre of any road on which cart tracks are provided.

Fine, Rs. 10.

18. No person shall sit or sleep on any road so as to obstruct traffic.

Fine, Rs. 10.

REGULATION OF TRAFFIC ON FOOT-PATHS.

19. No person shall wilfully drive or ride any cart, carriage, bicycle, horse or cattle on any foot-path set apart for the use of foot passengers.

Fine, Rs. 10.

PREVENTION OF OBSTRUCTIONS, ENCROACHMENTS AND NUISANCES ON OR NEAR ROADS.

20. No person shall abandon, or let loose or negligently allow to get loose, any cattle on or on to any road.

Fine, Rs. 10.

21. No person shall, without the general or special permission of the Commissioners, deposit any articles or things on any road except for a temporary purpose, or use any road as a place for keeping any carriage, cart or cattle, or for washing any article, or for any other private purpose:

Provided that, during the months of April, May and June, between the hours of 10 P.M. and 5 A.M., *khatias* may be laid on the side of a road in such a manner as not to cause obstruction or danger to persons using the road.

Fine, Rs. 10.

22. No person shall plant a tree on any road without the general or special permission of the Commissioners.

Fine, Rs. 10.

23. No person shall, without the general or special permission of the Commissioners, make any excavation on any road, or enclose any road or any part thereof.

Fine, Rs. 10; daily fine, Rs. 2.

24. No person shall, without the general or special permission of the Commissioners, remove turf or cut grass from any road or the slopes thereof.

Fine, Rs. 10.

25. No person shall affix or cause to be affixed to any building, owned or occupied by him, any gutter, spout or other thing intended for the conveyance and discharge of water, or shall leave in any such building any opening for the discharge of water, in such a way that the water discharged therefrom is thrown or falls upon a road, or into any drain in or near a road, or upon any culvert or platform constructed by such owner or occupier over such drain, except through a down-pipe or other suitable contrivance reaching to the level of the road or drain.

Fine, Rs. 10; daily fine, Rs. 2.

26. No person shall throw or discharge any stone or missile on or near any road.

Fine, Rs. 10.

27. No person shall drive any vehicle across a public drain in or near any road so as to cause damage to such drain.

Fine, Rs. 10.

28. No owner or occupier of land abutting on any road shall fence such land with barbed wire.

Fine, Rs. 10; daily fine, Rs. 2.

29. No person shall—

(*a*) place any burning material in any municipal dust-bin on or near a road, or

(*b*) burn in any such dust-bin any paper, leaves, grass, wood or other material.

Fine, Rs. 10.

30. No person shall convey sewage or offensive matter by any road otherwise than—

(*a*) in a closely covered receptacle of such description and pattern as are prescribed from time to time by the Commissioners at a meeting, and

(*b*) between such hours as are so prescribed.

Fine, Rs. 10.

31. No person shall, on or within sight of any road, kill, or clean the carcass of, any cattle or poultry.

Fine, Rs. 10.

32. No person shall take or drive any carriage or cart over a road or part of a road which is closed under section 201 of the Bengal Municipal Act, 1884, or displace any barrier or fence erected under that section.

Fine, Rs. 10.

LETTING-OFF OF FIREARMS, FIREWORKS, FIRE-BALLOONS OR BOMBS.

33. No person shall let off any firearms, fireworks, fire-balloons or bombs on or within one hundred yards of any road, except with the general or special permission of the Commissioners.

This by-law shall not apply to the letting off of harmless squibs or crackers.

Fine, Rs. 10.

REGULATION OF THE USE OF, AND PREVENTION OF NUISANCES IN REGARD TO, PUBLIC WATER-SUPPLY, BATHING AND WASHING PLACES, STREAMS, CHANNELS, TANKS AND WELLS.

34. No person shall, without the general or special permission of the Commissioners, set up any obstruction in any *nala* or watercourse which is a source of public water-supply.

Explanation.—The spreading of fishing-nets and the placing of fishing-traps in any such *nala* or watercourse are included in the word "obstruction" as used in this by-law.

Fine, Rs. 10; daily fine, Rs. 2.

35. No person shall ease himself at the side of or into any river, stream, channel, tank or well which is used by the public.

Fine, Rs. 10.

36. Every owner or occupier of any part of the bank of any *nala* or watercourse, which is a source of public water-supply, shall—

(*a*) keep such bank free from filth, dense vegetation and other obstruction, and

(*b*) at all times allow the Commissioners, or any of their servants duly authorized in this behalf, to have access to such *nala* or watercourse for any purpose of public conservancy.

Fine, Rs. 10.

37. A person cleansing a channel or tank shall not leave any weeds taken therefrom on the slopes or banks of the channel or tank, but shall remove the same altogether within three days.

Fine, Rs. 10; daily fine, Rs. 2.

38. The owner of every well which is a source of public water-supply shall construct a masonry platform and drains to prevent the surface water falling into the well or stagnating in its vicinity.

Fine, Rs. 10; daily fine, Rs. 2.

39. No person shall bathe, or shall wash clothes, utensils or any other article, within a distance of ten feet from the lowest platform of any public well or of any filtered water standpipe which is used by the public.

Fine, Rs. 10.

40. Except with the general or special permission of the Commissioners and under such conditions as they may from time to time prescribe, no person shall use any standpipe or fountain belonging to the Commissioners for any purpose other than drawing water—

(*a*) for drinking on the spot, or

(*b*) for carrying away for domestic purposes.

Fine, Rs. 10.

41. No person shall use for any other purpose any drinking trough which is intended for watering cattle.

Fine, Rs. 10.

PLEADERS' SURVEY CLASSES, 1916.

1. Classes for the training of pleaders in surveying will be opened in January and February 1916 in connection with the Civil Engineering College, Sibpur, the Bihar School of Engineering, Bankipur, the Dacca School of Engineering, and the Survey School at Cuttack, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the heads of the institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires, to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 30th November. His application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centres, and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed:—

(*a*) Practical work—

Chain surveying, Prismatic compass surveying, Plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.
Construction of scales.
Mensuration of areas.
Plotting.
Variation of compass.
Preparation of field-books from maps.
Elementary principle of levelling.
Plotting of level sections.

Candidates who obtain the required percentage of attendance at this course of instruction are qualified to appear at the Practical Examination held in 1916, 1917 and 1918.

B. HEATON,

Principal, Civil Engineering College, Sibpur, and Secretary to the Pleaders' Survey Examination Board.

NOTIFICATION.

ANNUAL EXAMINATION OF PLEADERS IN SURVEYING.

(*See* Government Notification No. 3157-J., dated 25th November 1909.)

(Modified in Government Notification No. 320J.D., dated 16th July 1914.)

1. The next examination will be held in February 1915 and will be conducted at the following centres (provided that not less than five names be registered at each centre):—Sibpur and Dacca in Bengal, and Bankipur and Cuttack in Bihar and Orissa.

2. Each examination is completed in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the Examiner in it.

3. Candidates practising in the Courts of the Presidency and Burdwan Divisions will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhoot, Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Rajshahi, Dacca and Chittagong Divisions at Dacca.

4. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

5. No candidate will be admitted to the examination unless he has been enrolled as a pleader and

(*i*) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack or Dacca in 1912, 1913, 1914 or 1915, and has not previously appeared at the examination more than twice, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer Examination, or

(*iv*) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(*v*) has been specially exempted from the operation of this rule by the Board controlling the examination.

6. A candidate wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose Court he is enrolled, and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 11th January. The form may be had from the Principal, Civil Engineering College.

7. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50. *which fee will in no case be returned.*

8. The exact date of the examination and the proposed programme will be published in the *Calcutta*, *Bihar* and *Orissa*, and *Assam Gazettes*.

TEST EXAMINATION OF PRIVATE CANDIDATES FOR MATRICULATION EXAMINATION, 1916.

A TEST EXAMINATION of private students, who have not attended any school, recognised or unrecognised, for at least one year previous to the ensuing examination, will be held at the office of the Inspector of Schools, Presidency Division, 285, Bow Bazar Street, Calcutta, from Monday, the 6th December 1915. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private student" includes schoolmasters.

2. Private candidates are students, who have not attended any school for at least one year previous to the Matriculation examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last, or the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation examination, must be submitted in original along with the application for permission to appear at the test examination. A statement of antecedents of the candidate should accompany his application. He should state whether he read in any unrecognised school, and if so, in what school and in what year. A student who failed to pass the annual examination for promotion to the first class at the end of the year 1914 and then left school will, under no circumstances, be allowed to appear at the Matriculation examination of 1916.

3. *Bonâ-fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination; they must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation examination unless he completes the age of sixteen years on the first day of the month in which the Matriculation examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, not later than the 1st November 1915, his application for admission to the test examination, with the following particulars:—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation examination, (5) second language besides English, (6) Vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.

(*b*) Additional paper in the Classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

6. The admission-fee for the examination is Rs. 6 for each candidate, and is to be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay. Under no circumstances the admission-fee will be refunded.

7. No private student will be admitted to the test examination unless he is satisfactorily identified.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, with special permission, present themselves at the test examination held by the head master of the nearest zilla or Government high school within the Presidency Division on condition that they appear at the centre selected by the

candidates from that institution. The head master of such school is hereby authorized to sign the applications, which must afterwards be countersigned by the undersigned. The fees and fines paid by these candidates as per paragraph 6 above should be utilized in meeting the cost of the examination.

10. The Matriculation examination in 1916 will be held on the 1st of March 1916 and following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th January 1916.

INTERMEDIATE AND B.A. EXAMINATIONS IN 1916.

Deputy Inspectors, Sub-Inspectors and *bonâ-fide* teachers of English schools in the Presidency Division who have been employed as such for at least three years preceding the examination will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 4th December 1915.*

1. In accordance with section 9, Chapter XV, of the revised Regulations dealing with the registration of University students, all candidates, who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of some affiliated institutions and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs 2 must accompany every application.

2. Candidates for the B.A. examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F.A., I.A. or I.Sc. certificates, and candidates for the Intermediate examination their Entrance or Matriculation certificates, together with a letter, in original, from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those schoolmasters who were admitted to a previous examination of the same class.

4. The Intermediate and B.A. examinations in 1916 will be held on the 13th and 20th March 1916, respectively, and following days.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before 28th January and 5th February 1916 respectively*, and must be sent to that office by the candidates direct.

Rangpur, the 27th July 1915.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, in the district of Midnapore, will be put up to sale at 12 o'clock on Monday, the 27th September 1915, corresponding with the 11th Aswin, 1323 Amli, at the Court of the Collector of Midnapore.

The purchasers of the several plots of land will be subject to the following conditions :—

1st—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough the lands closer than three feet from its foundation.

2nd—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th—The plots of land will be sold revenue-free to the highest bidders.

5th—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries Imperial Secretariat Buildings, Calcutta.

RESOLUTION ON THE ANNUAL REPORTS OF THE VETERINARY COLLEGE AND OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, FOR THE YEAR 1914-15.

REVENUE DEPARTMENT.

AGRICULTURE.

CALCUTTA, THE 31ST AUGUST 1915.

RESOLUTION—No. 8675.

READ—

The Annual Reports of the Veterinary College and of the Civil Veterinary Department, Bengal, for the year 1914-15, with the Director of Agriculture's review thereon.

LIEUTENANT-COLONEL A. SMITH was Principal of the Bengal Veterinary College, and Mr. P. J. Kerr was Superintendent of the Civil Veterinary Department, Bengal, throughout the year. Babu Dibakar De, Senior Lecturer of the Bengal Veterinary College, acted as Assistant Principal of the College throughout the year during the absence, on furlough in England, of Mr. E. H.

Brand. Mr. A. D. Macgregor, M.R.C.V.S., continued to be under training at the College throughout the year. He accompanied the Superintendent of the Civil Veterinary Department on tour for training in district work during the College vacation. Lieutenant-Colonel Smith made no tour during the year, but was away from Calcutta for 10 days in order to act as a member of the Board of Examiners of the Madras Veterinary College. Mr. Kerr spent 112 days on tour. Severe outbreaks of glanders in certain districts and other important duties interfered with his routine tours for inspecting the work of the veterinary assistants in the province.

2. There was a slight increase in the number of students at the College during the year, the number on the roll at the end of the session being 96, of whom 84 were stipendiary students, as against 91 in the preceding year, including 76 stipendiary students. The results of the year's work were satisfactory. Nineteen students graduated from the College at the close of the year, the percentage of passes at the final examination being 82·60 as compared with 73·53 in 1913-14. The proposal which was under consideration for improving the pay and prospects of the Subordinate Veterinary Service of the province was sanctioned immediately after the close of the year, and the new arrangements which were brought into force with effect from 1st March 1915 will, it is hoped, attract a larger number and a better class of students to the College. The proposal submitted by this Government last year for the addition of a fully qualified European officer to the teaching staff of the College to raise it to the level of other similar institutions in India and to enable it to keep abreast of the modern developments of veterinary science has been sanctioned by His Majesty's Secretary of State for India, and a suitable officer will be recruited for the post as soon as funds permit.

3. The Governor in Council is glad to notice that the work of the Raymond Research Institute continued to be satisfactory and that the popularity of the institution is increasing and a steady progress is being maintained in the diagnosis of contagious and obscure diseases. Besides the examination of pathological and other specimens received from Provincial Veterinary Departments, Army Department, local private practitioners, both European and Indian, and the general public, and the supply of materials to the Imperial Bacteriologist, Imperial Serologist and Major C. A. Lane, I.M.S., for their work, auto-vaccine was prepared in the Laboratory, with which some newly-imported horses of the Army Remount Depôt were successfully treated, and with the preventive vaccine for fowl cholera, also prepared here, some healthy pheasants of the Zoological Gardens, among which the disease broke out, were inoculated with satisfactory results. Some lantern slides of systems of different kinds of contagious diseases among cattle were prepared with the object of exhibiting them in cattle fairs and shows as a means of encouraging people to take more interest in the veterinary profession.

4. The report of the Civil Veterinary Department shows an increase in the mortality of animals from contagious diseases during the year, the total number of deaths reported being 15,950, as against 13,136 in the previous year. The increase is attributed to the more accurate record of deaths kept by the police in most districts, and partly also to an improvement in many districts in the reporting of the outbreaks of cattle diseases. Though the number of deaths amongst *equines* from the principal contagious diseases fell again from 279 in the preceding year to 229, the number of deaths among *bovines* increased from 12,847 to 15,707. The increase in the latter case is attributed to the fact that rinderpest was, as usual, fairly prevalent throughout the province, the districts most seriously affected being Mymensingh, Dacca, Rangpur, Tippera, Burdwan, Midnapore, Murshidabad and the 24-Parganas, and the mortality from this disease alone being 13,662 as against 10,318 in the previous year. The heavy mortality is ascribed to the late receipt or non-receipt of reports, stoppage of the supply of serum for some time at the beginning of the year, and to the prejudice of cultivators against inoculation. Another cause which is reported to tend to the spread of the disease is the indiscriminate removal of the hides of the animals which die of this disease. There were 340 outbreaks of this disease in the area outside Calcutta and its suburbs, resulting in the death of 4,584 uninoculated animals, while out of 37,813 animals, which were inoculated, only 221 or about 0·6 per cent. died. Similarly there were only three deaths among

1,958 animals inoculated for *hæmorrhagic septicæmia*. In Calcutta and its suburbs there were 25 outbreaks of rinderpest, to which prompt attention was given by the staff of the Bengal Veterinary College, and inoculation was performed in 1,198 cases, of which five only proved fatal.

It is reported that considerable prejudice against inoculation still exists among cultivators. The Governor in Council trusts that persistent and tactful efforts on the part of the officers of the Veterinary Department will in the end overcome the objections which are due purely to ignorance, and he would once again impress on the officers of the department the desirability of utilizing every opportunity to explain and demonstrate to cultivators and cattle-owners the benefits of inoculation and other precautions against cattle-diseases generally when touring in the mufassal.

It is observed by the Superintendent, Civil Veterinary Department, that although an improvement has been noticed in many districts in reporting the outbreaks of cattle-diseases, much still remains to be done to bring the system into proper working order. The Governor in Council notices with regret the Superintendent's complaint that very few reports were received from the touring officers of the various departments, who, under the existing orders of Government, are required to report promptly all outbreaks of cattle-diseases coming to their notice, and that in many instances the reports were received by the veterinary assistants after the disease had subsided. His Excellency in Council trusts that the officers concerned will co-operate with the Superintendent of the Civil Veterinary Department in this matter more wholeheartedly in future.

5. The itinerating veterinary assistants visited 10,189 villages and treated 53,287 animals during the year, as against 9,810 villages and 50,598 patients in the previous year. This is satisfactory. Six new veterinary assistants were appointed during the year, bringing the total number of such assistants employed in districts to 69, excluding four staff veterinary assistants and six reserve veterinary assistants. The Governor in Council notices with satisfaction that the local bodies have been realising their responsibilities in the matter of employing additional veterinary assistants, and that applications were made by them for more men than the department could supply during the year. His Excellency in Council trusts that the requirements of the local bodies will be fully met as soon as qualified graduates from the Bengal Veterinary College are available.

6. In Calcutta and its neighbourhood all the stables lying in the area under the Glanders and Farcy Act were regularly inspected during the year and the disease was detected in six stables, as against nine in the previous year. Three stables were also found infected with Surra. In the mufassal, 205 deaths were reported as against 194 in the preceding year. One hundred and sixty-seven deaths occurred in the Sodepur Pinjrapole alone. The outbreaks were very severe also in the four districts, Hooghly, Murshidabad, Darjeeling and Rangpur.

7. Six new dispensaries were opened during the year making a total of 24, all of which were inspected either by the Superintendent or the circle inspectors, except those at Sodepur Pinjrapole, Howrah and Cooch Behar, which are under private management. The total number of patients treated at 23 dispensaries was 24,049 against 21.503 in the previous year. The dispensary at Cooch Behar remained closed during the early part of the year for want of a suitable veterinary assistant. Since the close of the year sanction has been given to the transfer, on certain conditions, of the services of an assistant on Rs. 30 per mensem for the dispensary, who will be paid by the Cooch Behar State, but will work under the supervision and inspection of the Veterinary Department. There is evidence of good work in all dispensaries in the province, especially in the dispensaries at Chittagong, Mymensingh and Chinsura. The establishment of a Veterinary Hospital at Dacca was sanctioned last year, but the building work is being delayed owing to difficulties in connection with the site. A part of the land acquired for the purpose being required by the Eastern Bengal State Railway, the department is considering whether the remaining area will be sufficient for the requirements of the dispensary, or whether the whole site should be abandoned and a new site selected.

8. Only 220 animals were sent for treatment to the Bengal Veterinary College Hospital in connection with cases under the Prevention of Cruelty, to

Animals Act during the year, though 8,455 prosecutions were instituted under the Act. The number of animals sent for treatment at the hospital still continues to be small in comparison with the number of prosecutions instituted. The question has been engaging the attention of Government for some time, and a committee was appointed to consider whether any improvement was possible in the law of cruelty to animals, its administration and the present system under which public and private agencies co-operate in the suppression of cruelty. The committee submitted its report after the close of the year.

9. The question of the improvement of the breed of cattle continued to engage the attention of the Director of Agriculture and of the Superintendent of the Civil Veterinary Department. It is reported that persistent efforts are being made by the officers of the department to impress on the minds of cultivators and owners of cattle generally the advantage of and the urgent need for care in the breeding and management of cattle, though with very little appreciable result. His Excellency in Council notices with regret that though applications were received during the year from several District Boards for good bulls, no suitable animals could be procured and supplied by the Superintendent.

10. The cost of anti-rinderpest serum supplied to local bodies in Eastern Bengal districts was hitherto borne by Government. In Western Bengal districts, however, the District Boards pay for the serum supplied to them. As the cost of serum is a proper local charge, Government has decided that the local bodies in Eastern Bengal districts should also be required to pay for the serum they use.

11. A proposal submitted by the Director of Agriculture for the appointment of a Deputy Superintendent for the Civil Veterinary Department was sanctioned after the close of the year.

12. Orders have been passed since the close of the year on the proposals for the co-ordination of the different rates of pay and allowances of veterinary assistants and veterinary inspectors obtaining in the two parts of the Presidency. The pay of veterinary assistants in the two Western Bengal Divisions was Rs. 30—$\frac{5}{3}$—50, and in the three Eastern Bengal Divisions, Rs. 30—$\frac{10}{5}$—70. The more liberal rates of pay prevailing in the Eastern Bengal Divisions have been adopted for the whole Presidency. As regards local and travelling allowances, the rates already in force in the two parts of the Presidency will continue except that in the districts of the 24-Parganas, Khulna and Jessore, where travelling and living are expensive, the more liberal rates prevailing in Eastern Bengal will apply. The inspectors in Western Bengal were arranged in seven grades ranging from Rs. 70 to Rs. 150, while in Eastern Bengal their pay was Rs. 100—5—175. As the service is small, the time-scale pay Rs. 100—5—175 obtaining in the Eastern Bengal districts has been introduced throughout the Presidency as more suitable than a graded system of promotion. The orders took effect from 1st March 1915. The Governor in Council trusts that the prospects offered under the new arrangements will add to the number of students in the College, greatly facilitate recruitment and generally improve the efficiency of the department.

13. A Deputy Superintendent and an Inspector from Bengal Veterinary College and an Inspector of the Civil Veterinary Department were deputed during the year to Bombay and the Punjab to enlarge their knowledge in veterinary matters. The Governor in Council is glad to notice that the reports submitted by the officers show that these tours were beneficial.

14. The Governor in Council desires to acknowledge his appreciation of the services of Lieutenant-Colonel Smith, Principal of the Bengal Veterinary College, and of Mr. P. J. Kerr, the Superintendent of the Civil Veterinary Department. Their reports indicate a decided advance all round, and they are to be congratulated upon the results achieved.

By order of the Governor in Council,

L. BIRLEY,

Offg. Secretary to the Govt. of Bengal.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF THE YEAR 1915-16.

FINANCIAL DEPARTMENT.

SEPARATE REVENUE BRANCH (SALT).

No. 1595S.R.

Dated Calcutta, the 27th August 1915.

THE following report on the state of the salt market for the first quarter of the year 1915-16, comprising the months of April, May and June 1915, in the Presidency of Bengal, is published for general information.

2. The quantity of salt of every description cleared during the quarter amounted to 2,816,040 maunds (including 2,044,060 maunds issued under the credit system), as compared with 3,064,624 maunds (including 1,411,093 maunds issued under the credit system) in the previous quarter and 4,164,645 maunds (including 2,903,826 maunds issued under the credit system) in the corresponding quarter of the previous year. The net amount of duty levied was Rs. 28,69,125 (including Rs. 22,74,418 adjusted under the credit system), as against Rs. 28,14,551 (including Rs. 17,69,757 adjusted under the credit system) in the previous quarter, and Rs. 36,86,516 (including Rs. 27,79,393 adjusted under the credit system) in the corresponding quarter of the previous year.

3. The subjoined table I shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, compared with the figures of the corresponding quarters of the two previous years :—

(a) Inclusive of 2,044,060 maunds of salt issued under the credit system. Besides this quantity, 29,954 maunds of salt were issued under the credit system to inland bonded warehouses.

* Imported by S. S. Barenfels.

Compared with the corresponding quarter of the previous year and the same quarter of 1913-14, importations were more by ·8 per cent. and less by 9·04 per cent., respectively, but clearances were less by 32·7 and 24·2 per cent. As compared with the corresponding period of the previous year, the increased imports from Port Said, Spain, Madras and Massowah, and the decreased imports from Salif, Hamburg and Bremen, Aden and Bombay are especially noticeable.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter as compared with the preceding four quarters :—

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 30th August 1915.

Summary.—During the week under review light to moderate rain fell generally throughout the province. More rain is wanted in the Western districts. The *aman* paddy seedlings are reported to be withering in parts of the Burdwan Division owing to the insufficiency of rainfall. The transplanting of winter paddy and harvesting of the *bhadoi* crops are continuing. Steeping and washing of jute are in progress. Damage to the standing corps by high floods continues to be reported from some of the Eastern districts. Fodder is scanty in parts of the Pabna, Dacca, Mymensingh and Tippera districts. Cattle-disease exists in twelve districts. Scarcity still prevails in Bankura and Tippera. The average price of common rice for the province has risen by 1·4 per cent., as compared with that of the previous week.

GOVERNMENT OF INDIA TERMINABLE LOAN.

NOTICE AS TO THE CONDITIONS ON WHICH THE PUBLIC MAY SUBSCRIBE THROUGH THE POST OFFICE.

THE Government are raising this year's loan in a new form carrying 4 per cent. interest. It will be repaid in full not later than November 1923, but Government can repay it, if they wish, any time after October 1920.

2. Rupees 4½ crores have already been raised in the usual way by the receipt of applications at Calcutta, Madras, Bombay and other large centres, and, so far, the loan is now closed. But in addition a special opportunity is being given to persons who wish to take up the loan in small amounts, whether they are savings bank depositors or not, of subscribing through the nearest post office which transacts savings bank business.

HOW TO SUBSCRIBE.

3. Applications through the post office can be made any time up to the 30th October.

4. Applications must be for even hundreds of rupees and for not less than Rs. 100 and not more, in the case of any one applicant, than Rs. 5,000.

NOTE.—An applicant may apply for the new loan up to Rs. 5,000, notwithstanding that he already holds 3½ per cent. Promissory notes previously purchased through the post office.

5 A person desiring to apply must fill up the form below, which can also be obtained at any post office which transacts savings bank business. He must at the same time pay the full amount for which he applies. For this purpose he can use the money in his savings bank account if he is a savings bank depositor, or he can pay in cash direct. The applicant may go to the post office himself or send a messenger. All amounts paid will be acknowledged.

6. For every Rs. 100 which the applicant pays he will receive Government Promissory notes for the same amount.

CUSTODY OF PROMISSORY NOTES.

7. The notes may either be kept by the applicant in his own custody, or, if he prefers, they may be retained in the custody of the post office authorities on his behalf. He should state which method he prefers in filling up the form of application. If he wishes to keep the notes himself, the post office will advise him when they are ready for delivery, and, on his presenting himself personally, they will be made over to him. If he decides to leave them with the post office, his personal attendance will not again be required, but the post office will send him an intimation in due course that they have been received and are held on his behalf. Should he at a later date desire to keep the notes himself they will then be made over to him.

PAYMENT OF INTEREST.

8. Interest at 4 per cent. a year will be paid half-yearly, *i.e.*, 2 per cent. on the 31st May and 2 per cent. on the 30th November every year. For the broken period from the date of subscription to the 30th November next, interest will be paid in cash at the time the Promissory notes are delivered if the applicant keeps them himself, or will be credited into the savings bank account mentioned in the next paragraph if he leaves the notes in the custody of the post office authorities.

9. If the applicant decides to leave his Promissory notes in the custody of the post office authorities, the latter will draw the interest for him regularly each half year and credit the amount into a savings bank account which will be opened for this purpose in his name. The post office will also inform him from time to time whenever interest is thus received. No charge will be levied for this service, and no income-tax will be deducted in making the half-yearly payments of interest.

If he keeps the Promissory notes himself, income-tax will be deducted from interest in the usual way at the time the half-yearly payments are made.

SALE OF PROMISSORY NOTES.

10. If at any time a savings bank depositor who holds Promissory notes in this new loan, which have been purchased through the post office by the procedure here described, desires to sell them again, or any part of them, the post office will arrange this for him without charging brokerage or other fees. Full particulars as to this can be obtained from the post office at any time.

The normal surplus which may be expected in future, i.e., the difference between the average ordinary income and the average ordinary expenditure, calculated on the figures in columns 18 to 18 and 17 to 19, respectively.	REMARKS.

In addition to the details shown on the reverse, information is given below under the following heads:—

a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.	The Municipal taxes have been revised with effect from the beginning of the year 1914-15 and the cart-fees have been raised to the maximum rate of Rs. 4 per annum.
(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality.	Nil.
(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.	Nil.
(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.	The Municipal taxes and rates have been revised with effect from the beginning of the year 1914-15 with the result of an increase of Rs. 1,380 and the cart-fees have been raised to the maximum rate of Rs. 4 per annum, whence an increase of Rs. 400 is expected. Rupees 500 are kept under head "Capital outlay on drainage" for the purpose of repairing the existing drains, which sum will be saved when the drains will be constructed. Hence the normal surplus will be increased by Rs. 2,280.

PLEADERS' SURVEY CLASSES, 1916.

1. Classes for the training of pleaders in surveying will be opened in January and February 1916 in connection with the Civil Engineering College, Sibpur, the Bihar School of Engineering, Bankipur, the Dacca School of Engineering, and the Survey School at Cuttack, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the heads of the institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires, to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 30th November. His application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into he treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centres, and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed:—

(*a*) Practical work—

Chain surveying, Prismatic compass surveying, Plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.
Construction of scales.
Mensuration of areas.
Plotting.
Variation of compass.
Preparation of field-books from maps.
Elementary principle of levelling.
Plotting of level sections.

Candidates who obtain the required percentage of attendance at this course of instruction are qualified to appear at the Practical Examination held in 1916, 1917 and 1918.

OFFICE OF THE BOARD OF SANSKRIT EXAMINATIONS, SANSKRIT COLLEGE, CALCUTTA, *the 25th August 1915.*

NOTIFICATION.

TEST EXAMINATION OF PRIVATE CANDIDATES FOR MATRICULATION EXAMINATION, 1916.

A TEST EXAMINATION of private students, who have not attended any school, recognised or unrecognised, for at least one year previous to the ensuing examination, will be held at the office of the Inspector of Schools, Presidency Division, 285, Bow Bazar Street, Calcutta, from Monday, the 6th December 1915. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private student" includes schoolmasters.

2. Private candidates are students, who have not attended any school for at least one year previous to the Matriculation examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last, or the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation examination, must be submitted, in original along with the application for permission to appear at the test examination. A statement of antecedents of the candidate should accompany his application. He should state whether he read in any unrecognised school, and if so, in what school and in what year. A student who failed to pass the annual examination for promotion to the first class at the end of the year 1914 and then left school will, under no circumstances, be allowed to appear at the Matriculation examination of 1916.

3. *Bonâ-fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination; they must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation examination unless he completes the age of sixteen years on the first day of the month in which the Matriculation examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, not later than the 1st November 1915, his application for admission to the test examination, with the following particulars:—

(1) Age, (2) residence. (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation examination, (5) second language besides English, (6) Vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.

(*b*) Additional paper in the Classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

6. The admission-fee for the examination is Rs. 6 for each candidate, and is to be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay. Under no circumstances the admission-fee will be refunded.

7. No private student will be admitted to the test examination unless he is satisfactorily identified.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, with special permission, present themselves at the test examination held by the head master of the nearest zilla or Government high school within the Presidency Division on condition that they appear at the centre selected by the

candidates from that institution. The head master of such school is hereby authorized to sign the applications, which must afterwards be countersigned by the undersigned. The fees and fines paid by these candidates as per paragraph 6 above should be utilized in meeting the cost of the examination.

10. The Matriculation examination in 1916 will be held on the 1st of March 1916 and following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th January 1916.

INTERMEDIATE AND B.A. EXAMINATIONS IN 1916.

Deputy Inspectors, Sub-Inspectors and *bonâ-fide* teachers of English schools in the Presidency Division who have been employed as such for at least three years preceding the examination will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 4th December 1915.*

1. In accordance with section 9, Chapter XV, of the revised Regulations dealing with the registration of University students, all candidates, who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of some affiliated institutions and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F.A., I.A. or I.Sc. certificates, and candidates for the Intermediate examination their Entrance or Matriculation certificates, together with a letter, in original, from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those schoolmasters who were admitted to a previous examination of the same class.

4. The Intermediate and B.A. examinations in 1916 will be held on the 13th and 20th March 1916, respectively, and following days.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before 28th January and 5th February 1916 respectively*, and must be sent to that office by the candidates direct.

P. MUKERJI,

Inspector of Schools, Presidency Division.

COURT No. II.

SUIT No. 1038 OF 1915 O. S.

In the High Court of Judicature at Fort William in Bengal.

ORDINARY ORIGINAL CIVIL JURISDICTION.

The Official Trustee of Bengal of No. 10, Old Post Office Street, in the town of Calcutta, and Trustee of the properties, funds and effects of Anna Apcar Arratoon Apcar, deceased, late of Calcutta, plaintiff, *versus* (1) Aleck Apcar, landholder, carrying on business as builder and contractor at No 133, Canning Street, in the town of Calcutta, and residing at No 47, Beniapuker Road, Entally, in the amalgamated suburbs of the town of Calcutta aforesaid, (2) Johannes Apcar, landholder, residing at No. 14, Kyd Street, in Calcutta aforesaid, (3) Sophy John, spinster, daughter of Emily John, deceased, whose whereabouts are unknown, (4) Apcar Aleck Apcar, residing at No. 8-5-1A, Hatibagan Road, Entally, in the amalgamated suburbs of Calcutta aforesaid, carrying on business as a jute broker, No 4, Commercial Buildings in Calcutta aforesaid, (5) Lizzie Vauqulin, wife of A E. Vauqulin, at present residing at No. 8 Esplanade East in Calcutta aforesaid, (6) Florence Rocca, wife of Dr Guido Portiolo Rocca, who was lately residing at No. 8, Esplanade East in Calcutta aforesaid, but at present residing at No. 2, Rue D'Academie, Mantua in Italy, (7) Minnie Gregory, wife of John M. Gregory, residing at No. 11-2, Lansdowne Road, in Ballygunge, in the amalgamated town of Calcutta, the four last-mentioned defendants being children of the said Aleck Apcar, and (8) Marie Blanche Amslie, wife of Mr. Thomas Oswald Amslie, at present residing at Ashburton Cottage, Waybridge, in the County of Surrey, England, daughter of Catchick Apcar, deceased, and (9) Mrs. Emilie Isabella Apcar, widow of the said Catchick Apcar, deceased, of No. 40, Hetley Road, Shepherds Bush, London, defendants.

UPON reading the plaint herein and upon hearing Mr. H. G. Pearson, Counsel for the plaintiff abovenamed, I do order that the defendants abovenamed do attend before the sitting Judge in Chambers on the 6th day of December 1915 for the determination of the following questions :—

(*a*) Should the income of the trust funds under will of Anna Apcar Arratoon Apcar, deceased, be divided equally between the surviving children only of the said Anna Apcar Arratoon Apcar, deceased, to the exclusion of the issue of the aforesaid deceased children of the said testatrix, or should such issue of such deceased children be entitled to the shares respectively of the said income to which their deceased parents would have been entitled if they were living.

(*b*) Should the whole of the income be paid to the last surviving child of Anna Apcar Arratoon Apcar to the exclusion of all grandchildren.

(*c*) Should the Court be of opinion that the income of the said trust funds is payable to the surviving children or last surviving child of the said Anna Apcar Arratoon Apcar, the plaintiff desires the Court's opinion as to the time from which it becomes payable to the survivors or last survivor

(*d*) Is the devise of the corpus to the grandchildren a devise to them "per stirpes" or "per capita" and did they acquire a vested interest on attaining 21 years of age, even though they attained 21 years of age during the lifetime of the joint tenants.

That all proper directions may be given as to costs.

Dated this 2nd day of September 1915

A. CHAUDHURI, Judge.

GREGORY C MOSES, Attorney for the Plaintiff.

NOTE.—If the defendants do not appear at the time and place above-mentioned, such order will be made and proceedings taken as the Judge may think just and expedient

Notice to Tenderers.

(See A. R. I., Vol. III, paras. 135 and 136)

I.—Sealed Tenders for the supply of the undermentioned supplies from 20th October 1915 to 30th June 1916 will be received by the Superintendent, Remount Depôt, up to 4 P.M. on the 19th September 1915.

II.—Forms of "Tender" and "Schedules" (I. A. F. Z2120, 2121 and 2122) of the stores for the supply of which tenders are invited, are obtainable on payment at the rate of Re 1 per set on application in writing, and samples of the articles to be supplied can be inspected at the Depôt godown any day (Sundays and holidays excepted) between the hours of 10 A M. and 2 P.M

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV —Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ Receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds, as earnest money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs 25 which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest money.

VI.—The approval or rejection of tenders rests with the Quartermaster-General in India who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted

VII.—Tenders will be opened at this office at 12 A.M. on Monday, the 20th September 1915. Tenderers are invited to attend.

VIII —Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M and 4 P M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of Gram and Fodder" and addressed to the Superintendent, Remount Depôt, Alipore (Calcutta), and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits : and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.,

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 980L., dated the 6th September, 1915.—The following Bill was introduced in the Bengal Legislative Council on the 4th September, 1915, and is hereby published for information, together with the Statement of Objects and Reasons annexed thereto:—

A

BILL

to amend the Bengal Smoke-nuisances Act, 1905. Ben. Act III of 1905.

WHEREAS it is expedient to amend the Bengal Smoke-nuisances Act, 1905, in the manner hereinafter appearing;

It is hereby enacted as follows:—

Short title. **1.** This Act may be called the Bengal Smoke-nuisances (Amendment) Act, 1915.

Amendment of section 3. **2.** For clause (*1*) of section 3 of the Bengal Smoke-nuisances Act, 1905 (hereinafter called the said Act), the following shall be substituted, namely:—

"(*1*) 'furnace' means any furnace or fireplace used— [*Cf.* Bom. Act VII of 1912, s. 3 (*1*).]

(*a*) for working engines by steam, or

(*b*) for any other purpose whatsoever:

The Bengal Smoke-nuisances (Amendment) Bill.
(Clauses 3-5.)

Provided that no furnace or fireplace—

(*i*) used for the burning of the dead, or

(*ii*) used in a private house for *bonâ fide* domestic purposes other than the purpose specified in clause (*a*),

shall be deemed to be a furnace or fireplace within the meaning of this Act."

Amendment of section 5.

3. After section 5, sub-section (*2*), of the said Act, the following shall be inserted, namely:—

"(*3*) Every Inspector appointed under sub-section (*1*) shall be deemed to be a public servant within the meaning of section 21 of the Indian Penal Code." XLV of 1860.

Amendment of section 6.

4. In section 6 of the said Act,—

(*a*) for clause (*a*) of sub-section (*1*), the following shall be substituted, namely:—

"(*a*) the erection or use of any specified class of brick, tile or lime-kilns, or";

(*b*) in clause (*b*) of sub-section (*1*), after the word "erection" the words "or use" shall be inserted;

(*c*) in sub-section (*2*), after the word "erected" the words "or used" shall be inserted; and

(*d*) for sub-section (*4*), the following shall be substituted, namely:—

"(*4*) If any person makes coke in or upon any building or land in contravention of any notification issued under sub-section (*1*), clause (*d*),—

(*a*) such person, and

(*b*) the owner or occupier of such building or land

shall be jointly and severally liable to fine which may extend, on a first conviction, to twenty-five rupees, and on any subsequent conviction to fifty rupees; and the coke so made may be seized by an Inspector pending the order of the Magistrate.

(*5*) In any prosecution under sub-section (*4*), the Magistrate may, besides imposing a fine as aforesaid, record an order directing the confiscation of any coke seized as in that sub-section provided; and, in such a case, it shall be lawful for the Commission to dispose of the same in such manner as the Local Government may, by rule made under section 10, prescribe.

(*6*) For the purposes of sub-section (*4*) the expressions 'occupier' and 'owner' shall have the same meaning as in clauses (*30*) and (*32*), respectively, of section 3 of the Calcutta Municipal Act, 1899." Ben Act III of 1899.

Amendment of section 7.

5. In section 7, sub-section (*1*), of the said Act, after the words "for erecting", the words "or using" shall be inserted.

The Bengal Smoke-nuisances (Amendment) Bill.
(Clauses 6-9.)

Amendment of section 8.

6. Section 8, sub-section (*2*), of the said Act, is hereby repealed.

New section 8A

7. After section 8 of the said Act, the following shall be inserted, namely:—

"8A. (*1*) After the commencement of the Bengal Smoke-nuisances (Amendment) Act, 1915,

Submission of plans, and penalty.

(*a*) no furnace, flue or chimney shall be erected, and

(*b*) no furnace, flue or chimney, erected prior to the commencement of the said Act, shall be re-erected, altered or added to

otherwise than in accordance with plans approved by the Commission.

(*2*) In the event of any contravention of the provisions of sub-section (*1*), the owner of the furnace, flue or chimney, as the case may be, shall be liable to fine which may extend to one hundred rupees, and if any such furnace, flue or chimney is used without the permission of the Commission, to a further penalty, not exceeding twenty rupees, for every day during which such wrongful use continues."

Amendment of section 9.

8. After section 9, sub-section (*2*), of the said Act, the following shall be inserted, namely:—

"(*3*) Notwithstanding anything contained in sub-section (*1*), the Commission, and in any urgent case, the President, may, by order in writing, (which shall be produced on demand to the owner, occupier, manager, engineer or person in charge,) authorise any Inspector to enter and inspect without notice and at any time by day or by night any building or place in which the Commission or the President, as the case may be, has reason to believe that a furnace exists or that coke is being made, and to inspect such furnace, building or place:

Provided that, when the President makes any such order, he shall, as soon thereafter as conveniently may be, report the fact to the Commission."

Amendment of section 10.

9. In section 10 of the said Act,—

(*a*) in sub-section (*1*), the words "with the previous sanction of the Governor General in Council, and" are hereby repealed;

(*b*) clause (*f*) of sub-section (*2*), and the word "and" at the end of clause (*h*) of the said sub-section, are hereby repealed; and

(*c*) after clause (*i*) of the same sub-section, the following shall be inserted, namely:—

"(*j*) prescribe rules for the disposal of coke confiscated under section 6, sub-section (*5*); and

(*k*) prescribe a procedure to give effect to the provisions of section 8A."

STATEMENT OF OBJECTS AND REASONS.

Ben. Act III of 1905.

The working of the Bengal Smoke-nuisances Act, 1905, during the past nine years, has disclosed certain defects which it is now considered necessary to remedy. These defects, and the methods by which it is proposed to remedy them, are indicated in the following paragraphs.

II. *Inability to take action in respect of smoke-nuisances caused by chimneys, and steam-engines used for generating electricity, in clubs, hotels and similar institutions.*—Experience in the working of the Act has shown that amendments are required so as to bring clubs, hotels and similar institutions under the Act in Calcutta, as is the case in the United Kingdom, in view of the fact that complaints have frequently been made regarding the smoke emitted from the chimneys of such buildings and that the Commission has, under the present law, found itself powerless to act. It is also considered desirable to subject steam-engines used for generating electricity in such institutions to the provisions of the Act. In order to effect these objects it is proposed to bring furnaces and fire places used in buildings of this class within the definition of "furnace" in clause (*l*) of section 3 of the Act, and thus subject them to the rules made under section 10 (*l*) in respect of the density and altitude of smoke emitted therefrom. The terms of the proposed new clause (*l*) for section 3 closely resemble those of section 3 (*l*) of the Bombay Act (*Clause 2*).

Bom. Act VII of 1912

III. *Smoke-nuisances arising from the partial exemption allowed under the Act to ocean-going steamers in the Port of Calcutta.*—Under the existing law,—proviso (*ii*) to section 3 (*l*) of the Act and rules made under clause (*f*) of section 10 (*2*),—no restriction is placed upon the amount of smoke which ocean-going steamers may emit for a certain period prior to leaving port or to moving from one part of the port to another. Experience has shown that this concession is no longer necessary and that in the cases in which excessive smoke is emitted it is due to carelessness on the part of those responsible on board the vessel. Further, recent statistics show that these cases are increasing very considerably. It is therefore considered that the special exemption hitherto in force, which has been found to be unnecessary in the case of the majority of ocean-going steamers, should be withdrawn, and it is accordingly proposed to repeal that provision of clause (*l*) of section 3 which has hitherto exempted the furnaces of ocean-going steamers. Rule 24 of the existing rules under section 10 of the Act will, in due course, be suitably amended so as to deal with the case of such vessels.

IV. *Inability to prevent the excessive emission of smoke from kilns and furnaces erected before the Act came into force.*—The provisions of section 6 of the Act do not at present apply to such kilns and furnaces, but it is considered highly desirable that they should apply to them. It is therefore proposed to make the necessary alterations in section 6 of the Act so as to give power to prohibit by notification the *use* of kilns and furnaces as well as (at present) their erection. (*Clauses 4 (a), (b) and (c) and 5.*)

V. *Insufficient power to deal effectively with the nuisance caused by coke-making in open fires.*—With a view to put a stop to the great nuisance caused by persons making coke in open heaps, the Local Government issued a notification in February, 1909, under clause (*d*) of section 6 (*l*) of the Act, prohibiting the manufacture of coke without ovens or special appliances within the town of Calcutta. At first, the action taken by the Commission under this notification effected a considerable improvement, but offenders soon discovered that, by giving false names or addresses, or by disowning the coal or by removing to other places, they escaped punishment. In order, therefore, to deal effectively with this nuisance it is proposed, by substituting new provisions in place of sub-section (*4*) of section 6 of the Act, to make the owner or occupier of the building or land (in or upon which coke is made without proper appliances) equally liable with the person who offends in this respect, and to permit of the seizure, confiscation and disposal of the coke which is the subject of the offence. It is further proposed, in order to control more effectively the appliances used in the manufacture of coke, to apply the provisions of the Act and rules thereunder, in respect of the density and altitude of smoke from other furnaces, to furnaces used in the manufacture of coke. (*Clauses 4 (d) and 6.*)

VI. *Inability to control the construction of chimneys and flues.*—It is considered advisable that (as in America) the Commission should have power under the Act to control the construction of chimneys and flues in order to prevent the erection of unsafe chimneys. This proposal would benefit owners by avoiding the expense of subsequent alterations. (*Clause 7.*)

VII. *Inadequate powers of inspection.*—At present Inspectors are required by section 9 of the Act to give notice of their intention to visit places where they suspect that acts contrary to the law are being committed, and this procedure often defeats the purpose of these visits, especially in the case of coke-making. It is therefore proposed to give power to Inspectors to visit suspected places without notice. With a view to minimising the chance of Inspectors being obstructed in their duties, it is proposed to make them "public servants" within the meaning of the Indian Penal Code. (*Clauses 3 and 8.*)

VIII. A further explanation of the provisions of the Bill is given in the subjoined notes on clauses.

NOTES ON CLAUSES.

1. *Clause 2.*—The object of this clause, which follows almost exactly section 3(*1*) of the Bombay Smoke-nuisances Act, 1912, is— Bom. Act VII of 1912.

(*i*) to apply this Act to chimneys, and steam-engines used for generating electricity, in clubs, hotels and similar institutions, and

(*ii*) to provide for the total repeal of the partial exemption in respect of the emission of smoke now enjoyed by ocean-going steamers,

for reasons given in the Statement of Objects and Reasons.

2. *Clause 3.*—This clause will, as indicated in the Statement of Objects and Reasons, enable the Commission to secure the punishment of persons who obstruct Inspectors in the execution of their duties.

3. *Clause 4.*—(*i*) *Sub-clause* (*a*).—This amended sub-clause will enable the Local Government to prohibit, by notification, the *use*, as well as the erection of kilns, and also to deal with any one class of kilns without interfering with any other class.

(*ii*) The Local Government are empowered by *sub-clause (b) of clause 4* to prohibit, by notification, the use of furnaces used for the purposes mentioned in clause (*b*) of section 6 (*1*).

(*iii*) *Sub-clause (c) of clause 4* provides a penalty for breach of a notification prohibiting the *use* of a kiln or certain classes of furnace, and is consequential on the two previous amendments referred to in this paragraph.

(*iv*) The necessity for the provisions in *sub-clause* (*d*) *of clause 4* is referred to in the Statement of Objects and Reasons. The objects of the proposed sub-section (*4*) are—

(*a*) to make the owner or occupier of the building or land in or upon which the offence of making coke without proper appliances is committed equally liable with the person who makes the coke improperly; and

(*b*) to permit of such coke being seized by an Inspector pending the order of the Magistrate.

The proposed sub-section (*5*) empowers the Magistrate, in the case of a conviction under the proposed sub-section (*4*), to order confiscation of the coke seized, the manner of the disposal of the coke upon the passing of any such order being left to the Local Government. The proposed sub-section (*6*) explains the meaning to be given to the terms "owner" and "occupier" as used in sub-section (*4*).

4. *Clause 5.*—This clause contains a consequential provision permitting a demolition order when a fine is imposed under the provision made by sub-clause (*c*) of clause 4—*see* paragraph 3 (*iii*), *ante*.

5. *Clause 6.*—The object of the repeal proposed in this clause is to make furnaces used in kilns, or in foundries in the neighbourhood of dwelling-

houses, or for the manufacture of coke, amenable, as regards the emission of smoke, to the altitude and density rules prescribed under the Act in respect of such emission from other "furnaces," as defined in the Act.

6. *Clause 7.*—The necessity for control over the construction of chimneys and flues is noted in the Statement of Objects and Reasons. The object of this clause is to give the necessary power of control to the Commission by making it compulsory for plans of new chimneys and flues, and plans of alterations in existing ones, to be submitted to them, a penalty being imposed for default in compliance.

7. *Clause 8.*—The object of this clause is to enable Inspectors to visit suspected places without notice, on the authority of a written order from the Commission, or, in an urgent case, from the President, for the reasons explained in the Statement of Objects and Reasons. In every case in which the President passes an order under this provision, he will be required to report the fact to the Commission.

8. *Clause 9.*—(*i*) *Sub-clause* (*a*).—In accordance with the principles of decentralization recommended by the Royal Commission on Decentralization, it is proposed to do away with the necessity for the prior sanction of the Governor General in Council to rules made under the Act. It is considered that this power may safely be entrusted to the Local Government.

(*ii*) *Sub-clause* (*b*) *of clause 9* provides for the repeal of clause (*f*) of sub-section (*2*) of section 10. This amendment is consequential on the proposed repeal of the partial exemption now enjoyed by ocean-going steamers under sub-clause (*ii*) of the proviso to section 3 (*1*) of the Act—*see* paragraph 1 (*ii*), *ante*.

(*iii*) The additions to the rule-making powers proposed in *sub-clause* (*c*) *of clause 9* are merely consequential on the amendments which it is proposed to introduce into the Act by this Bill.

Dated Calcutta, the 7th September 1915.

RESOLUTION.

READ—

The Administrative Report of the Commissioners for the Port of Chittagong for 1914-15.

Income.—The ordinary receipts of the Port Fund during 1914-15 amounted to Rs. 1,98,437 as against Rs. 2,35,758 of the preceding year. The decrease is due partly to the dislocation of the trade caused by the war and partly to the state of the shoals in the river Karnafuli. The Port Commissioners realized during the year Rs. 20,684 from the Public Works Department, being the value of reserve stone on the Salt Golah land. A grant of Rs. 1,50,000 was also given by Government for the improvement of the Port. Adding these sums to the ordinary receipts the total Port Fund receipts amounted to Rs. 3,69,121.

Expenditure.—The expenditure amounted to Rs. 3,90,550 as against Rs. 3,02,456 in the preceding year. The main factors in this increase were—

(*a*) Rupees 2,730 under "Control" on account of increased rate of fees payable to the Port Commissioners for attendance at meetings and leave and acting allowances drawn by the Port Commissioners' office clerks.

(*b*) Rupees 93.249 under "Port" on account of maintenance of revetment, cost of repairs to buoys and chains, share of fees paid to Sir F. Spring, construction of two steel pontoons and grabs and a wooden barge, and cost of land for a coal depôt.

The expenditure under the head "Rentable Lands and Buildings" was also charged during the year under the head "Port" as the Harbour Masters were exempted from payment of rent for their quarters. Savings amounting to Rs. 6,141 were effected under the head "Port Approaches" in respect of overtime allowances for working the dredger *Karnafuli I*, and of stores for the light-vessel *Sarsuti*, steam-tug *Gekko* and the dredger. The year closed with a credit balance of Rs. 3,82,326, which is inclusive of Rs. 1,89,764 invested in Government Promissory notes and Rs. 50,000 in fixed deposit in the National Bank of India, Limited, Chittagong.

Assets and liabilities.—The value of the Port Commissioners' properties including light-houses, lands, works (finished and in progress), etc., was estimated on 31st March 1915 to be Rs. 34,95,931 and the liabilities without the loans taken from Government for revetment work amounted to Rs. 1,30,408.

Dredging.—The dredger *Karnafuli I* was laid up for repairs from 8th February to 1st May 1914. It worked in the main channel off the Railway Terminal Jetties and Double Moorings from 7th May to the end of that month and again in July and August 1914. From June to 3rd July 1914 bucket dredging was started at the pontoon of Messrs. Turner, Morrison & Co., and alongside the Port Commissioners' Jetty berths. At the Inner Bar an average depth of 8′ 10″ was maintained till the end of August, but it had dropped to 6′ 9″, up to date the lowest recorded depth, by the 11th September. By continuous dredging a depth of 12′ 0″ at low water was obtained towards the end of December.

For the Outer Bar the dredger could not be spared till the end of October, when the least depth had dropped to 8′ 6″. The least depth on the main track by the end of December was 10′ 0″. Five inward-bound and two outward-bound vessels were detained for want of sufficient depth of water over the bars. In one instance the detention was for six days, the maximum on record during the year. It is recognised by Government that a second dredger is necessary in the Port of Chittagong to supplement the work of the existing dredger. The Government of India are being addressed on the subject.

River Surveys.—A survey of the main river was completed and new charts were prepared. The Inner and Outer Bars and the Jetty berths were sounded periodically. A preliminary survey was undertaken to study the conditions of the river and the river bed.

Revetment.—Very little erosion took place on the revetted portions. Reserve stones were procured from the Jetinga Valley.

Light-houses.—The Kutubdia and Norman Point Lighthouses were maintained in good order.

Light vessel.—The light vessel *Sarsuti* underwent general overhaul and thorough repairs in the Royal Indian Marine Dockyard, Kidderpore. No complaint regarding the exhibition of the lights was received.

Shipping.—The number of vessels (including native sailing craft) that entered the Port during the year was 714 with a net registered tonnage of 363,760 as against 753 with a net registered tonnage of 457,102 in the previous year. There was one grounding during the year.

Trade.—The total value of sea-borne trade—both foreign and coasting imports and exports—amounted to Rs. 740·66 lakhs as against Rs. 1,026·50 lakhs in the preceding year.

Sanitation.—The health of the Port was good.

Mr. E. Geake held the office of the Chairman, Port Commissioners, Chittagong, from 1st April 1914 and was succeeded by Mr. J. Lang from 17th March 1915. The thanks of Government are due to these officers and to the Commissioners for their efficient administration of the Trust.

By order of the Governor in Council,

CALCUTTA,
The 6th September 1915.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 6th September 1915.

Summary.—During the week under report heavy rain fell in some of the Eastern Bengal districts, but it was generally light to moderate elsewhere. More rain is urgently required in the Western districts for the transplanting of winter paddy and for the growth of the standing crops. The transplanting of winter rice is approaching completion; weeding has commenced. Harvesting of jute and other *bhadoi* crops are in progress. Damage to the standing crops by floods continue to be reported from the districts of the Dacca Division. Fodder is scarce in parts of Jessore, Pabna, Dacca, Mymensingh and Tippera. Cattle-disease is reported from ten districts. Scarcity still exists in Bankura and Tippera. Agricultural loans were issued on a moderate scale in Birbhum, The number of persons employed during the week under the District Board road works in Bankura was 4,671. The average price of common rice for the province has risen by about 2·7 per cent., as compared with that of the previous week.

GOVERNMENT OF INDIA TERMINABLE LOAN.

NOTICE AS TO THE CONDITIONS ON WHICH THE PUBLIC MAY SUBSCRIBE THROUGH THE POST OFFICE.

THE Government are raising this year's loan in a new form carrying 4 per cent. interest. It will be repaid in full not later than November 1923, but Government can repay it, if they wish, any time after October 1920.

2. Rupees 4¼ crores have already been raised in the usual way by the receipt of applications at Calcutta, Madras, Bombay and other large centres, and, so far, the loan is now closed. But in addition a special opportunity is being given to persons who wish to take up the loan in small amounts, whether they are savings bank depositors or not, of subscribing through the nearest post office which transacts savings bank business.

HOW TO SUBSCRIBE.

3. Applications through the post office can be made any time up to the 30th October.

4. Applications must be for even hundreds of rupees and for not less than Rs. 100 and not more, in the case of any one applicant, than Rs. 5,000.

NOTE.—An applicant may apply for the new loan up to Rs. 5,000, notwithstanding that he already holds 3½ per cent. Promissory notes previously purchased through the post office.

5 A person desiring to apply must fill up the form below, which can also be obtained at any post office which transacts savings bank business. He must at the same time pay the full amount for which he applies. For this purpose he can use the money in his savings bank account if he is a savings bank depositor, or he can pay in cash direct. The applicant may go to the post office himself or send a messenger. All amounts paid will be acknowledged.

6. For every Rs. 100 which the applicant pays he will receive Government Promissory notes for the same amount.

CUSTODY OF PROMISSORY NOTES.

7. The notes may either be kept by the applicant in his own custody, or, if he prefers, they may be retained in the custody of the post office authorities on his behalf. He should state which method he prefers in filling up the form of application. If he wishes to keep the notes himself, the post office will advise him when they are ready for delivery, and, on his presenting himself personally, they will be made over to him. If he decides to leave them with the post office, his personal attendance will not again be required, but the post office will send him an intimation in due course that they have been received and are held on his behalf. Should he at a later date desire to keep the notes himself they will then be made over to him.

PAYMENT OF INTEREST.

8. Interest at 4 per cent. a year will be paid half-yearly, *i.e.*, 2 per cent. on the 31st May and 2 per cent. on the 30th November every year. For the broken period from the date of subscription to the 30th November next, interest will be paid in cash at the time the Promissory notes are delivered if the applicant keeps them himself, or will be credited into the savings bank account mentioned in the next paragraph if he leaves the notes in the custody of the post office authorities.

9. If the applicant decides to leave his Promissory notes in the custody of the post office authorities, the latter will draw the interest for him regularly each half year and credit the amount into a savings bank account which will be opened for this purpose in his name. The post office will also inform him from time to time whenever interest is thus received. No charge will be levied for this service, and no income-tax will be deducted in making the half-yearly payments of interest.

If he keeps the Promissory notes himself, income-tax will be deducted from interest in the usual way at the time the half-yearly payments are made.

SALE OF PROMISSORY NOTES.

10. If at any time a savings bank depositor who holds Promissory notes in this new loan, which have been purchased through the post office by the procedure here described, desires to sell them again, or any part of them, the post office will arrange this for him without charging brokerage or other fees. Full particulars as to this can be obtained from the post office at any time.

FORM OF APPLICATION.

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

INSURANCE.

Simla, the 28th August 1915.

No. 14060-90.—In accordance with the provisions of Section 28 of the Indian Life Assurance Companies Act, 1912 (VI of 1912), the Governor General in Council is pleased to publish herewith the accounts, balance sheets, abstracts, statements and other documents deposited with him by Life Assurance Companies under the provisions of sub-section (1) of Section 11 of the Act and relating to periods not later than the 30th June 1914, together with a note by the Actuary to the Government of India, thereon.

INTRODUCTORY NOTE

BY

The Actuary to the Government of India.

The accompanying accounts and valuation particulars of Indian, British, Colonial and Foreign life assurance companies doing business in British India were due for submission to Government not later than 31st December 1914. The accounts now published comply with the prescribed forms more fully than those contained in the first returns made under the Indian Life Assurance Companies Act which were published in the early part of 1914, and it has consequently been possible to publish, as an appendix to this note, summaries of the ordinary accounts of the Indian companies, while the financial position of many of those companies may now be ascertained from the abstracts of their actuarial valuation reports which are contained in this

and in the previous publication. Although the summaries of the accounts are fairly complete they fail to disclose many of the special features of the smaller companies as they are almost entirely hidden when amalgamated with the larger totals of the older and larger companies.

Actuarial valuations.

During the year actuarial valuation reports, each of which disclosed a divisible surplus, were received from the following five companies:—The Bharat of Lahore, the India Equitable of Calcutta, the Indian Life of Karachi, the National Insurance of Calcutta, and the Indian Empire Branch of the Independent Order of Rechabites.

The valuation of the General Assurance Society of Ajmer only shows a surplus when paid-up capital is taken credit for. The solvency of the company is thereby demonstrated, but a surplus thus obtained does not admit of payment of bonus as it is laid down in the Life Assurance Companies Rules that paid-up capital shall not be treated as part of a company's assets for the purpose of showing a divisible surplus at the time of any actuarial investigation into its financial position.

The valuation of the Mangalore Roman Catholic Provident Fund shows the society to be insolvent. As it is a mutual society and has no subscribed capital which could be utilised to make up the deficiency in the funds, it became necessary to reduce the benefits payable under existing policies and to increase the rates of premium for new ones. Of the three methods of reduction of existing contracts suggested by the consulting actuary as a means to restore solvency the society decided to adopt that by which the sum assured payable at death is reduced by one-third.

The valuation as at 30th April 1912 of the Hindusthan Co-operative Insurance Society of Calcutta was not finally completed and submitted to Government until after three years from that date. It presented many difficult questions for solution, but, fortunately, it had been made by one of the senior British actuaries from whom the society received much valuable advice which should enable it to remedy the errors made in past years. For the purposes of valuation the business was divided into three sections. The ordinary life assurance section was found to be solvent, but with no surplus available for distribution. The combined investment life assurance section disclosed a deficit of from about 4 to 7 lakhs depending on the proportion of premium income at which shareholders are willing to conduct this branch of the company's business. The annuities certain and capital redemption section showed a small deficit. Part of the deficit in the combined investment section has now been made good and is shown in the accounts up to 30th April 1914 and the balance falls to be restored as at 30th April 1915. The company must now be careful to keep expenditure at a much lower rate, so that the concern as a whole may be worked at a profit which will justify the assumption of a 7 per cent. dividend on the combined investment business and permit of reduction of the capital expenditure.

Actuarial valuations of the financial position of 14 Indian Companies have now been received. In the following summary of these valuations the particulars have been arranged according to the magnitude of Life Assurance Funds.

‡ Solvency was obtained in this case by reducing the sums assured by one-third.

Liquidation.

The Pioneer Assurance Company, Limited, Bombay, which was established towards the end of 1913, evidently expected to be exempt from compliance with the Life Act as the sum assured under its policies was said to be restricted to Rs. 500. The company, however, rendered itself subject to the provisions of that Act by undertaking that "the heirs of the first claimant would receive Rs. 25,000, those of the second Rs. 15,000, and so on, until the sum of Rs. 10 lakhs has been divided among 10,000 claimants, each claim being in addition to the sum assured." The company was ordered to be wound up by the Civil Court in January 1914.

The Crown Life Insurance Company of Bombay, which was established a year ago, decided in view of the banking crises not to commence the issue of policies and is being voluntarily wound up.

The following nine companies which had been carrying on Life Assurance business since the passing of the Life Act are now under process of voluntary liquidation. Such a step was rendered necessary in the majority of these cases by financial difficulties brought about by insurance business having been transacted on the Dividing Society principle.

The financial position of the Coromandel of Bimlipatam disclosed by the audited accounts up to 31st December 1913 made it desirable that the company should be wound up. A meeting convened for this purpose at Bimlipatam adopted the accounts and agreed to the Directors' proposals to wind up the company. The shareholders at a subsequent meeting held at Vizagapatam suspended the Manager and the Secretary and removed the Directors on the ground that the accounts were false; they adopted a resolution disapproving of the Directors' recommendation to wind up the company, and resolved to transfer the company's registered office from Bimlipatam to Vizagapatam. A lawsuit and a counter suit filed by the rival parties are still pending. It has been decided to await the result of those suits.

The New Bombay Presidency Assurance Society, Limited, was registered on the 1st February 1910 and took over the business of the Bombay Presidency Assurance Society, Limited, which went into voluntary liquidation on the 31st March 1910. No life assurance policies have been issued by the new company.

New Companies.

One ordinary life assurance company, viz., the British Indian Insurance Company, Limited, of Lahore, was established in India, during the year 1914. It has complied with the provisions of the Indian Life Assurance Companies Act. Two other companies, viz., the Gujarat Zoroastrian of Surat and the Mutual Help Association of Simla, which were previously working as Provident Insurance Societies, became subject to the Life Act during 1914. The United Assurance Company, Limited, Calcutta, which also had been doing provident fund business, lodged during 1914 the initial security deposit under the Act with a view to transacting ordinary life assurance business. It did not, however, issue any policy under the latter class and has subsequently been refunded the amount of the security deposit.

In Southern India, there are several funds managed by Missionary Societies which have petitioned Government for exemption from compliance with some of the provisions of the Life Act and whose accounts are not included in these returns. The matter is under consideration.

In the following list the names of the existing Indian Life Assurance Companies have been arranged according to the date of establishment under the Province in which their Head Office is now situated.

†The Head Office of the Northern Circars was transferred from Vizagapatam to Calcutta in 1914.

Mutual Societies.

Of the companies shown as established prior to 1896, thirteen were mutual and only two proprietary. None of these mutual societies have large funds and it is found that in many cases payment of the full deposit prescribed in section 4 of the Life Act presses unduly on their resources. Payment of the full deposit also interferes with the formation of new mutual societies. In such cases Government will favourably consider any application from an Indian mutual society for permission to pay a smaller deposit. Another privilege which Government have recently decided to extend to such societies is with regard to the audit of their accounts. While life assurance companies having a share capital may employ as an auditor only the holder of an unrestricted certificate, or the member of one of the six exempted societies of accountants, mutual life assurance companies may, in addition, employ as an auditor the holder of a restricted certificate or an Associate either of the Institute or of the Faculty of Actuaries.

Life Annuities.

Only three Indian companies grant ordinary annuities, viz, the Bharat, Empire of India and the Oriental, the annuity payments made last year by each of these companies, respectively, being Rs. 505, 1,029 and 21.526.

Business other than Life Assurance.

There has been a considerable reduction during the year in the number of Indian companies which transact other business in addition to life assurance, the number having decreased from twenty-one to the nine noted below:—

1. All Indian United, which transacts Fire Insurance.
2. Bharat
3. Empire
4. National of Calcutta

} „ Fidelity Guarantee Insurance.

5. Rechabites „ Sickness Insurance.
6. Bengal Provident
7. Hindustan of Gujranwala
8. Victoria

} „ Marriage Insurance.

9. Christian Mutual „ Capital Redemption business.

The classes of business other than Life Assurance which were discontinued may be summarised as follows:—

Policies payable on Marriage	have been discontinued by	10	Companies.
„ „ at Birth	„ „ „	2	„
„ „ at Upanayan ceremony	„ „ „	2	„
Capital Redemption policies	„ „ „	1	Company.
Personal Accident „	„ „ „	1	„

Dividing Insurance business.

The following 13 companies have ceased to issue policies on the dividing principle:—

1. Eastern, which issued policies payable at Death.
2. Capital
3. Coromandel
4. Doaba
5. Indian Equitable
6. Northern Circars
7. Popular
8. Star of India
9. Universal

} which issued policies payable at Death and on Marriage.

10. Aryya, which issued policies payable at Death, on Marriage and at Upanayan ceremony.
11. National of Amritsar, which issued policies payable at Death, on Marriage and at Birth.
12. Unique, which issued policies payable at Death, on Marriage, at Birth and at Upanayan ceremony.
13. Imperial Guaranteed, which issued policies payable on Personal Accidents.

Many of the abovementioned companies must regret that they ever transacted such business. Life assurance policies on the dividing principle can now be obtained only from the following four companies:—

1. Bengal Provident.
2. Chittagong.
3. Hindustan of Gujranwala.
4. Victoria.

In every case where any of these 17 companies has guaranteed a minimum benefit in respect of each policy that minimum amount is all that is now being paid. Although this is very much less than many policyholders were originally led to expect, it is more than some of the companies can now afford to pay. Where no minimum benefit is guaranteed the sum payable on a claim occurring is, as was to be expected, steadily decreasing. In the Introductory Note to last year's issue of the Returns, I referred to the mistakes made by many companies transacting life insurance on the dividing principle in supposing that such business never entails more than a liability for the period to which the premiums paid relate and in supposing that it is unnecessary to build up a reserve on actuarial principles to ensure payment of the benefit guaranteed at death or survivance. Such mistakes if continued can only end in the insolvency of the company. Those Indian life offices, which have not yet appointed an actuary on their staff and which can afford to do so, might with advantage to themselves procure the services of some of those Indians who have passed the examination of Associate of the Institute of Actuaries, London. These companies could then have expert advice which would help them to build up a business on sound lines and avoid all crude and unsound systems such as the Combined Investment endowment of the Hindusthan Co-operative of Calcutta and the Dividing Insurance business previously referred to. At present only one of the Indian Companies is known to have a whole-time actuary employed on its staff. The Institute of Actuaries holds examinations in April each year in Calcutta and Bombay.

Surrender Values.

Some of the companies which have not yet undergone an actuarial valuation are noticed to be allowing surrender values at a rate which it is quite likely they cannot very well afford. The question of what would be a safe surrender value to allow is much more difficult to answer than is generally believed and should not be decided without actuarial advice. It depends on the rates of premium charged, the benefits promised and on the company's experience in regard to the rates of mortality, interest and expenditure.

Policy conditions and power to alter them.

In the Introductory Note to last year's Returns, I referred to the desirability of companies stating clearly the procedure to be adopted in making new rules or in altering or repealing existing ones, and prescribing that no such amendment or repeal should detrimentally affect the terms of contracts then existing. Instances have occurred during the year of the need of such rules, as well as of the desirability of such policy containing a full statement of the conditions to which it is subject.

Statistical information.

The new sums assured by Indian companies under ordinary life assurance policies have remained constant during each of the past two years and amounted to about 3 crores and 20 lakhs each year.

Whole Life policies were issued last year for	40 lakhs.	This is	12·5	% of the total.
Limited Payment policies	22 „	„	7·0	„
Endowment Assurance policies	246 „	„	76·8	„
Children's Endowments and other classes of policies	12 „	„	3·7	„
Total	300 lakhs			

The total sums assured, including bonus additions, under ordinary life assurance policies in force at the end of the year under review was nearly 22½ crores of rupees This is about 1¼ crores in excess of the corresponding amount at the end of the previous year. The total amount for which policies are issued each year in India by all companies cannot be stated as no particulars of this nature are submitted by the British companies and the other companies which transact business both in the United Kingdom and in India.

The average rate of annual premium payable under the policies issued by Indian Companies is nearly equal to 5¼ per cent. of the sum assured. The corresponding rate deduced from the returns to the British Board of Trade is about 4 per cent. The higher rates of premium payable for residence in India have less to do with this difference in the average rate of premium than the fact that more than three-quarters of the sums insured by Indian companies is under the endowment assurance system, while in the United Kingdom such policies do not constitute half such a large proportion of the total business.

It will be seen from the summary of new business that some of the smaller companies have been issuing policies for sums which bear a dangerously high ratio to the total amount of their assets; this should be carefully guarded against in future.

The summary of dividend rates shows that notwithstanding an increase in the dividends of some of the older companies the average rate of the Indian companies as a whole has fallen to less than half of what it was two years previously. This is greatly due to the fact that no dividend was paid in the year under review by thirteen companies which formerly had paid dividends, several of those thirteen having been persuaded to forego payment of dividend until after completion of an actuarial valuation of their assets and liabilities.

The total income shown in the life assurance revenue accounts of Indian Companies was 1 crore and 42 lakhs—

Of this	1,17	lakhs	or 82·4	per cent.	of the total was derived from Premiums.
,,	23	,,	or 16·3	,,	,, ,, interest and rents (less tax).
,,	2	,,	or 1·3	,,	,, ,, other items.
	1,42	,,			

This total income was disposed of as follows :—

49	lakhs	or 34·4	per cent.	of the total went in payment of Claims by Death.
13	,,	9·3	,,	,, Claims by Survivance.
2	,,	1·4	,,	,, Surrenders.
1	,,	·7	,,	,, Annuities.
0·4	,,	·3	,,	,, Bonus in cash and reduction of premium.
0·7	,,	·5	,,	,, Dividends to shareholders.
28	,,	19·7	,,	,, Expenses.
2	,,	1·3	,,	,, Depreciation, transfer to Investment Reserve Fund, etc.
46	,,	32·4	,,	,, Increase to Funds.
142	lakhs			

The total expenses in connection with life assurance business amounted to 24 per cent. of the premium income. If the expenditure applicable to new business be assumed to be equal to the new annual premium income it will be found that the balance of the life assurance expenditure comes to about 10 per cent. of the renewal premium income.

The life assurance funds of the Indian companies amounted to over 5¾ crores. During the year these funds earned interest at the rate of 4¼ per cent. on the average, after deduction of income-tax; this is about ¼ per cent. higher than the average rate earned in the United Kingdom by life assurance companies.

The total assets of the Indian companies have increased during the year by over two-thirds of a crore and now amount to nearly 6¾ crores, made up as follows:—

Mortgages on property in India	13	lakhs.
Loans on Companies' policies within their surrender values	37	„
Loans on personal security, etc.	5	„
3½ per cent. Government Promissory Notes at approximate cost price	3,69	„
3 per cent. Government Promissory Notes at approximate cost price	32	„
Indian Municipal, Port Trust and Improvement Trust Debentures	1,09	„
Indian Railway Company shares	1	„
House Property	37	„
Other Indian Investments	11	„
Colonial stock	1	„
Agents' balances, outstanding premiums and outstanding interests	21	„
Accrued interest	6	„
Deposits, Cash, Stamps, etc.	17	„
Stationery, Furniture, etc.	2	„
Sundry Debtors and other miscellaneous assets	2	„
Total ...	6,63	„

Capital outlay for preliminary and organisation expenses, restoration of valuation deficits, etc., is not included in the above statement; it amounted to 15½ lakhs, due mainly to the capital expenditure of the Hindusthan Co-operative Insurance Society. The total amount of the paid-up capital of the Indian Companies exceeded 37 lakhs of rupees.

British, Colonial and Foreign Companies.

In the last portion of this publication will be found the accounts and valuation particulars relating to 20 companies, of which 15 are constituted in Britain, 2 in Canada, 1 in Australia, 1 in the United States of America and 1 in Shanghai, and which are partially exempt from the Indian Act on the ground that they carry on business in the United Kingdom and comply with provisions of the English Assurance Companies Act of 1909.

The classes of business, in addition to ordinary life assurance, transacted by those 20 companies are shown in the following statement:—

The principal effect of the exemptions allowed to these British Colonial and foreign companies is that they are freed from the necessity of making a deposit with the Controller of Currency and may submit their accounts in the form required by the English Assurance Companies Act of 1909. That Act is slightly different from the Indian Act and requires separate revenue accounts for each of certain classes of business other than life assurance, such as, fire, accident, employers' liability, capital redemption, etc. Not many policies of these classes of business are issued in India, and the revenue accounts relating to these classes as published by these non-Indian companies have consequently been omitted from this publication, except in cases in which there are not more than two such accounts in addition to the revenue accounts of the ordinary life assurance and annuity business. Similarly, many of the valuation statements furnished by these companies have been omitted where they do not relate to Indian business. Although the particulars are thus reduced by nearly two-thirds, yet nothing of importance has been omitted which either gives details relating to Indian policies or shows the position of a company as a whole.

Exemptions.

During the year complete exemption from compliance with the Act was granted to the National Mutual, London, and to the Sun Life Assurance Society, London, as they no longer issue policies in India, while the City of Glasgow and the Liverpool Victoria life assurance companies no longer submit returns under the Act as they are now incorporated in the Scottish Union and National and Commercial Union Companies, respectively.

The following companies and pension funds have been granted complete exemption from compliance with the Act, and this publication contains no particulars relating to them—

(*a*) Companies no longer issuing policies in India—

(1) English and Scottish Law Life Assurance Association, Edinburgh.

(2) National Mutual, Life Assurance Society, London.

(3) London and Lancashire Life and General Assurance Association, London.

(4) Scottish Metropolitan Assurance Company, Edinburgh.

(5) Star Assurance Society, London.

(6) Sun Life Assurance Society, London.

(7) Madras Equitable Assurance Society.
This society (No. 7) is governed by a separate Act passed by the Madras Legislature and has not issued any policies since 1910.

(*b*) Pension Funds connected with Indian Government services—

(1) Postal Insurance Fund.

(2) Bengal Civil Fund.

(3) Indian Civil Service Family Pension Fund.

(4) Bengal and Bombay Uncovenanted Service Family Pension Fund.

(5) General Family Pension Fund.

(6) Hindu Family Annuity Fund.

(7) Bengal Christian Family Pension Fund.

(8) Bengal and Madras Service Family Pension Fund.

(9) Indian Civil Service Annuity Fund.

(10) Indian Military Service Family Pension Fund.

(11) Queen's Military Widows' Fund.

(12) Madras Civil Fund.

(13) Madras Military Assistant Surgeons' Fund.

To

THE SHARE-HOLDERS,

THE BENGAL PROVIDENT AND INSURANCE

COMPANY, LIMITED.

DEAR GENTLEMEN,

IN submitting the audited statement of accounts for the year ended 30th June, 1913, we beg to enclose the following report as mentioned in the Balance Sheet:—

1. We have not audited the accounts for the half year ended 31st December 1912 and had to take the figures as correct as certified by other auditors, adopted by the Directors.

2. *Managing Agents' commission, Rs. 30,501-14-6.*—This sum which is calculated at 33⅓ per cent. on collections for the half year ended 30th June 1913 includes expenses of management and the Managing Agents' commission as per agreement entered into by the Company and the Managing Agents.

3. No liabilities of life claim accounts were shown this year.

4. *Depreciation to furniture, Rs. 140-1-9.*—Out of this sum Rs. 60 has been charged to the Company and Rs. 80-1-9 has been charged to Managing Agents' account as per agreement.

5. *Life claim.*—Rupees 5,000 paid on life claim 1st class last year and Rs. 2,000 for life claim 2nd class was recovered and adjusted in claim accounts.

Yours faithfully,

B. MUKHERJEE AND COMPANY.

Hindusthan Co-operative Insurance Society, Limited.

Statement under the Indian Life Assurance Companies Rules, 1913, made by Mr. T. E. Young, the Consulting Actuary employed by the Directors of the Hindusthan Co-operative Insurance Society, Limited, to make the first quinquennial valuation of the Society as at the 30th April 1912.

Section 3.—I am a Fellow of the Institute of Actuaries, London.

Section 4.—The particulars of the policies for valuation were supplied to me on cards, which I myself prepared (with full instructions), and I hold a letter under the Signatures of two of the principal Officers of the Society, stating that the entries on these cards have been checked and re-checked, and that, to the best of their knowledge and belief, they are accurate. Some few discrepancies, as was to be expected in so large a number of entries, were found to exist, and these were referred back for correction : other obvious discrepancies were rectified by me as the work progressed, and these being generally an error in the date of birth or entry were at once rectified by a reference to the tabular premiums entered upon the cards. I have carefully scrutinised the valuation schedules in connexion with the ages at entry, the sums assured and the office premium extracted from cards and, after all discrepancies were rectified as above-mentioned, I was satisfied that the particulars furnished were reasonably correct. Moreover, I found the various particulars upon the cards were consistent so far as I could trace.

Section 5 (a)—All the calculations have been made by my skilled assistants and have been thoroughly checked, and are based upon the principles mentioned in the statement furnished under the Second Heading of the Fourth Schedule of the Act.

(*b*) The principles on which the valuations have been based were devised by me.

(*c*) I have obtained full and adequate information from the Society on all the many questions I have had to submit, and in every case I have been furnished with an attested letter signed by two of the principal Officers of the Society to the effect that the answers given and the special information furnished are correct.

(*d*) The Society accepts all assurances at the nearer-age at entry, and the nearer-age at entry has also been adopted in the valuation : the valuation-ages are the nearer-ages at the date of the valuation, except in a very few cases where the nearer-age at valuation would bring out a "Zero Value," and here the valuation-age has been assumed to be the nearer-age at entry increased by the number of premiums paid.

(*f*) The table of mortality employed was the Om table of the "British Offices' Life Tables," 1893, with an addition of 6 years to each age. This table has been published, and where the valuation has been based upon a 3½ per cent. rate of interest, the monetary functions have been ascertained by interpolating between the 3½ per cent. and 4 per cent. values published.

(*g*) Every Negative Value and every Zero Value have been excluded from the valuation, and the method of valuation has secured that every policy upon the Books has a definite positive liability attached to it.

(*h*) The following are specimens of reserve values under policies for the whole-term of life with premiums payable throughout the duration of life :—

Number of premiums paid.	Effected at age :		
	20	30	40
1 ...	2·5	3·9	6·2
2 ...	17·7	24·5	35·4
3 ...	28·0	38·6	55·5
4 ...	38 4	52·9	75·8
5 ...	49·0	67·5	96·4

The premiums under whole-life policies subject to a limited number of payments, and the sums assured and premiums under endowment assurances were valued in groups, according to the fact whether they were effected before or after the 30th of April in the calendar year of entry, and in further accordance with the calendar year of maturity (or

Hindusthan Co-operative Insurance Society, Limited.

cessation of payment of premiums as the case might be), and it is therefore not possible to give specimens of the reserve values of individual policies.

Further reserves have in all cases been made on account of (i) early payment of claims, (ii) suspended mortality, (iii) for loading after the whole of the premiums have been paid up in the case of whole-life policies subject to a limited number of premiums and endowment assurances effected with premiums payable for a less number of years than the number of years contained in the endowment assurance period, and (iv) as mentioned and explained under heading two of the Fourth Schedule of the Act, a large additional reserve has been made to secure that in no case shall the future net premiums valued exceed 75 per cent. of the office premiums, while in those cases where the reverse obtains the values given by the net premiums have been allowed to stand. A reserve has also been introduced for the cost of the valuation.

Sections 6 and 7.—The "Ordinary" section of the business calls for no further comment than that it is solvent in itself with a surplus, * and with careful future management should yield a sound profit to the policy-holders in the future, although I do not consider that on the present occasion any portion of this surplus should be divided. This Fund therefore stands on a sound financial basis, and in my great concern to preserve it, and my earnest desire not to prejudice its future in the mind of the public I offer the following remarks on the deficiencies in the other two Funds.

The "Provident Endowment and Annuity-Certain" Fund.—It is sufficient to say that this fund is insolvent (but only to a small extent at present) owing to the fact that the balance of the office premiums remaining after the deduction of the 25 per cent. towards the management expenses, falls short of the 5 per cent. net premiums required. There will be a further deficiency disclosed at the next valuation, but the Directors could relieve this by crediting each year the balance required to make the 75 per cent. of the office premiums received equal to the true premiums required and accumulate these extra credits at the guaranteed rate of 5 per cent.

The "Combined Investment Assurance System" Fund.—I now deal with this fund :—On a 5 per cent. valuation the deficiency amounts to Rs. 7,31,279 : 3/2*, and it is of course covered by the Capital yet uncalled which in the Accounts of 1911-12 is stated to be about Rs. 77,00,000. In order that a fair judgment may be formed upon the subject of the deficiency, I call special attention to the following remarks :—

(i) The deficiency is consequent on the insufficiency at present (compared with the usual endowment assurance premiums of the dividends upon the successive Calls of Capital involved in the scheme—the scheme is described under heading one of the Fifth Schedule of the Act—these are naturally very small at first owing to the mode of making the calls, and can only increase as the required Calls are paid-up and as earned augmented dividends can be applied as premiums to increase the fund. There are also to be noted the future dividends to be required beyond the term of 25 years if the policy becomes a claim by death, which it has been impossible to insert in the valuation, as the present value cannot be assessed, but which nevertheless exists as an additional reserve.

(ii) There are two obvious modes of restoring the deficiency :—(*a*) The calling up of sufficient Capital to meet the deficiency. The difficulty of this course lies in the fact that such called up capital would so materially increase the total Capital paid-up that it might be practically impossible to provide the assumed *earned* divided of 7 per cent. in the valuation, for such additional Capital would be producing no profit, by investment, to the Shareholders' Profit Fund, but on the contrary, on being transferred to the Assurance Fund would itself require to be accumulated at the guaranteed rate of 5 per cent. interest. Even the saving on reduced expenses (which I have earnestly insisted upon in my report to the Directors) would probably at all events for a considerable period, fail to aid the profits sufficiently to maintain the necessary 7 per cent. dividend as premium.

(*b*) But another mode is feasible, which I have recommended to the Directors. This fund being now closed none of the special expenses incidental to new business are entailed, and the cost is limited to that demanded for the conduct of a business already acquired and diminishing annually; hence I have suggested that the charge of the Shareholders upon the fund as compensation for sustaining the whole of the expenses should be restricted to 10 per cent., instead of to 25 per cent. I admit that this reduction again

Hindusthan Co-operative Insurance Society, Limited.

hampers the dividend fund in the mode I have mentioned, but this must be counteracted by larger savings on expedditure.

Hence summarising :—

	Rs.
Deficiency in the Provident Fund	4,600
Deficiency in the Combined Investment Fund	7,31,279*
Total Deficiency ...	7,35,879*
There is a balance of realisable assets over the three accumulated funds as they stood at my valuation of	1,17,625
Hence capital to be called up	6,18,254*

If the reasonable course be adopted of reducing the rate of payment to the shareholders from 25 per cent, to 10 per cent. on the Combined Investment System (from the 30th April 1912), then—

The Deficiency is	3,94,895*
Add Provident Fund Deficiency	4,600
Total Deficiency ...	3,99,495*

(*c*) I have also indicated to the Directors in a supplemental Report another alternative, which consists in a direct modification of the sums assured in the Combined System, according in equity, to the ages at entry and the terms of the policies. While furnishing the Directors with calculations in connection with such modification, I have refrained from expressing any personal judgment upon the practical feasibility of action in this direction. This is a matter which rests exclusively upon the discretion and judgment of the Directors themselves, and their legal advisors. Should they consider the course to be practicable, the deficiency, I should say, approximately, would disappear as the result.

(3) It is also to be remarked that during the first 10 years of the duration of the policies, Calls, paid under the scheme, will be credited to Capital Account in aid of the free Capital and should be taken into consideration in connexion with the amount of Capital to be called up.

(4) The dividends declared in the past have been successively 7 per cent., 9 per cent., 10 per cent. and 10 per cent. I cannot predict the future scale of dividend, but as a practical valuation must be made, I have assumed a uniform dividend, as premium, of 7 per cent. per annum, of which 75 per cent. has been utilised as premiums. And I have pointed out in my Report that the fulfilment of this assumption is absolutely dependent upon a serious and immediate diminution of expenses.

(5) The essence of the position is the very heavy rate of expenditure. My Report treats most urgently and emphatically upon this point, and the absolute necessity of instant, severe and continuous reduction of expenditure as the indispensable condition of stability and prosperity generally, and the preservation of the excellent Ordinary Branch.

THE FOURTH SCHEDULE.

Statement respecting the Valuation of the Liabilities under the Life Policies and Annuities of the Hindusthan Co-operative Insurance Society, Limited, to be made and signed by the Actuary.

I.

The valuation is made up to the 30th April 1912.

NOTE.—Owing to the special nature and features of the business I have been compelled, with a view to ascertaining the real effect in each of the departments, to make three separate valuations and thus to present three separate Summaries and Valuation Balance Sheets, which disclose the whole of the processes and results.

The general principles adopted in the valuation, the method followed in the valuation of particular classes of assurances and the method by which the net premiums have been arrived at, were determined by me.

Article Number 117 of the Society's Articles of Association constitues a guide to the valuation, and is as follows:—

"The Premium Reserve Fund" (that is what is commonly known as the Life Assurance Fund) "shall be maintained in order to secure the due fulfilment of the Society's obligations to its policy-holders and shall not be drawn upon for any purpose other than the payment thereout, firstly, of duly substantiated claims under policies and, secondly, of profit additions thereto. Provided that 75 per cent. of the premium income of the Society (the balance thereof remaining after being drawn upon as above improved at 5 per cent. interest) shall either be placed in the Premium Reserve Fund or applied for the benefit of the policy holding interest only."

NOTE.—The above bracket should obviously end after the words:—
. . . . "drawn upon as above"
T. E. Y.

The ORDINARY ASSURANCE Section of the business consists of the usual class of assurance business involving the contingency of life, as is carried on in all ordinary Life Assurance Companies. The PROVIDENT ENDOWMENT and ANNUITY-CERTAIN section of the business consist of what are ordinarily known as "Sinking Fund" policies and of one Annuity Certain. The COMBINED INVESTMENT ASSURANCE system section of the business is fully described under Heading number one of the Fifth Schedule of the Act, as drawn by me.

The principles are here given as they affect the three classes of the business.

THE ORDINARY ASSURANCE BUSINESS.

Contracts in the first year of Assurance.—Here a reserve has been made in *every* case irrespective of the class of the assurance, to provide for the unexpired risk of death during the balance remaining, at the date of valuation, of the period covered by the premium last paid prior to the date of the valuation. In cases where the premiums are payable yearly this reserve consists of one half of the single premium for a term assurance for a period of one year, reckoned upon the appropriate sum assured and valuation age; in half-yearly cases the reserve is one quarter of such single premium; and in quarterly and monthly payments of premium the reserves are one-eighth and one-twenty-fourth respectively of such single premium. The reserves thus set up are consistent with the general basis of the valuation as explained in the next paragraph.

Contracts in the second and subsequent years of Assurance.—In all cases it has been assumed that the first year's premium has been entirely absorbed in the payment of initial expenses, and the payment of current claims by death appertaining to such policies in the first year of assurance, and hence the premium that will be required to provide for the future risk of death will be the premium appertaining to the original age at entry increased by the addition of one year; and in the case of Endowment Assurances, and Whole-life Assurances under a limited number of premiums, besides the addition of the one year to the age at entry there will require to be a deduction of one year from the original number of years during which premiums are stipulated to be paid. It was at once

perceived that these hypothetical premiums would put too great a strain on the future premium resources of the Society as regards short-term Endowment Assurances, and Whole-life Assurances under premiums payable during a short period, and the valuation has been very considerably strengthened by the inclusion of a large additional reserve to secure that in no case shall the hypothetical premium valued exceed 75 per cent. of the office premium, while in all cases where the reverse obtains the hypothetical premiums alone have been brought into the valuation. The method adopted has entirely excluded Negative values; the valuation-schedules have also been carefully scrutinised to discover any Zero-values, and by amending the valuation-ages all Zero-values have been accorded a Positive value. This amendment of the valuation-ages was effected by adding the number of premiums paid to the age at entry. Thus, a positive liability has been assigned to every policy, and the reserve has in no case been less than the surrender value. The liability of the Society was ascertained by deducting from the present value of the sums assured, the present value of the future premiums, ascertained as above, and, besides the additional reserve above-mentioned, further additional reserves have been made to provide for (i) the early payment of claims, (ii) suspended mortality, (iii) absence of loading under whole-life limited-premium policies, and under endowment assurances subject to premiums payable for a less number of years than the number of years comprised in the endowment assurance period in order to meet the expenses when premiums are no longer payable. I am satisfied from certified details furnished by the Society, on schedules drawn by me, and from the very great preponderance of policies effected at half yearly, quarterly and monthly premiums, that the premium income may accurately be considered as distributed uniformly over the year, and hence under the whole-life assurances with premiums payable throughout the whole duration of life the usual addition of 5 to the annuity function has been adopted. Special modifications, as hereafter explained, had to be made in connexion with Endowment Assurances and policies effected with a limited number of premiums. The sums assured and premiums under Whole-life policies with premiums payable throughout life, and the sums assured under Whole-life policies subject to a limited number of premiums were classified according to nearer ages at the date of valuation.

The sums assured and premiums under Endowment Assurances, and the premiums under whole-life policies subject to a limited number of payments were grouped in accordance with the calendar year of maturity (or cessation of premiums as the case might be) and each such group was then sub-divided according as the policies were effected prior or subsequent to the 30th April in the calendar year of assurance-entry. Thus in the case of a policy effected in the calendar year 1909, with a number of premiums limited to 20 payments, the last premium would become payable in the calendar year 1928 (similar remarks equally apply to Endowment Assurances) but the number of future premiums remaining to be made from the 30th April 1912, would be 16 or 17 according as the policy was originally effected prior or subsequent to the 30th April 1909.

The premiums of policies effected prior to the 30th April were valued by the annuity $\frac{1}{6} + a\,\overline{x : n-\frac{1}{6}}|$ and those of policies effected subsequent to the 30th April were valued by the annuity $\frac{2}{3} + a\,\overline{x : n-\frac{2}{3}}|$ both annuity-values assuming a uniform distribution of the premium income, and n the number of future yearly premiums payable.

In each sub-divided group the average valuation-age was found by a Modification of Lidstone's "Z." method Under policies effected prior to the 30th April the valuation-age is:—

M—(number of premiums remaining to be paid $+\cdot8\dot{3}$);

While under policies effected subsequent to 30th April the valuation-age is:—

M—(number of premiums remaining to be paid $+\cdot\dot{3}$).

The appropriate assurance-functions in each group were found from the annuity-functions above-mentioned.

Endowment assurances subject to premiums payable for a less number of years than the number of years comprised in the endowment assurance period were dealt with in a similar manner, first as regards the calendar year of maturity, and then as regards the calendar year in which the premiums would cease to be paid.

The extra rating on policies on under-average lives has in all cases been met by the Society, when accepting the risk, by an addition of years to the age, and these rated-up

ages have been treated as the true ages in the valuation. There are no cases of constant extra premiums assessed on the sum assured.

In the case of policies with premiums payable more than once a year, the following courses have been adopted :—

Whole life policies with premiums payable throughout life :—Here the policies have been valued in exactly the same way as though they had all been cases with yearly premiums, and an addition has then been made to the present value of the premiums so found, of the balance of the net premiums (or office premiums as the case might be) outstanding for the current year of assurance.

In the case of endowment assurances and whole-life policies subject to a limited number of premiums where there may be n, $n + \frac{1}{4}$, $n + \frac{1}{2}$, $n + \frac{3}{4}$, &c., premiums remaining to be paid, the yearly net premiums have been valued by the annuity for n payments and the result thus obtained has been increased by the addition of the actual amount of the unpaid portion of the full net premium (or office premium as the case might be) for the current year of assurance.

As the office premiums are true instalment-premiums (that is, subject to the condition that, in the event of the death of the life assured before the payment of the full number of instalments applicable to the current year of assurance, the unpaid instalments shall be deducted from the sum assured at settlement of the claim) the process adopted, as defined above, is essentially correct.

THE COMBINED INVESTMENT ASSURANCE BUSINESS.

This section of the business was closed to new entrants in June 1911.

A full description of the nature of these contracts is given under Heading number one of the Fifth Schedule of the Act. The sums assured, and the extra premium, where payable, were valued in exactly the same way as the Endowment Assurances under the Ordinary Assurance Business, as described above. The present value of the future dividends receivable (which take the place of the ordinary endowment assurance premiums) was ascertained as follows :—

A nominal share of Rs. 1,000, with Rs. 500 to be finally paid up in connexion with the scheme, was taken as the basis of the calculations; then, at the moment of effecting the policy the present value of a future dividend of 1 per cent. connected with a share of the nominal value of Rs. 1,000, with Rs. 500 to be finally paid up by 10 yearly instalments, payable in advance, of Rs. 50 each, would be :—

$$(v \times \cdot5) + (v^2 \times 1\cdot0) + (v^3 \times 1\cdot5) + (v^4 + 2\cdot0) + (v^5 \times 2\cdot5) + \ldots\ldots\ldots\ldots + (v^9 \times 4\cdot5) + (v^{10} + v^{11} + v^{12} + v^{13} + \ldots\ldots + v^{\infty}) \times 5\cdot0.$$

Where 24 future dividends only are outstanding the above series would commence with $(v \times 1\cdot0) + (v^2 \times 1\cdot5) + \ldots$ and the final term would be $(v^{24} \times 5\cdot0)$ and so on for 23, 22, 21, etc., future dividends outstanding. A table of these present values was prepared and, for policies of the face value of Rs. 1,000 these values were directly entered, while, for other amounts assured, the correct proportional parts of these functions were inserted. The total in each group was then modified, in accordance with the principles above-mentioned, to give effect to the average time that would elapse before the next dividend would on the average fall due.

The valuation takes account of 75 per cent. only of the extra premiums where payable, and 75 per cent. of an assumed dividend of 7 per cent. and the deficiency thus brought out must therefore only be regarded in the light of this assumed dividend. The past dividends declared by the Society have been as follows :—7 per cent, 9 per cent, 10 per cent. 10 per cent, and 10 per cent.

It is also to be remarked that I have not included in the valuation the present value of the dividends beyond the 25 years which are exactable under the scheme.

Extra reserves have been made for early payment of claims in the case of death within the endowment assurance period, and for suspended mortality.

THE PROVIDENT ENDOWMENT AND ANNUITY-CERTAIN BUSINESS.

This section of the business consists exclusively of what are commonly known as "Sinking-Fund" insurances, and of one Annuity-Certain.

The reserves have been formed by accumulating the net premiums at interest from the average dates or payment; in the case or contracts "Paid-up" and under single

Hindusthan Co-operative Insurance Society, Limited.

premiums the present values of the sums insured have been taken as the reserves, while in the case of the Annuity-certain an ordinary annuity-certain, loaded for monthly payments, has been used in the valuation. Having regard to the 25 per cent. of the premiums contributed to the expenses, I have recommended the Directors to cease doing any further business at the present rates of premiums.

3.

The table of mortality used in the valuation was the O^m table of the British Offices' Life Tables 1893, with an addition of 6 years to each age. This table was decided upon after I had made a careful examination into the mortality experience of the Society. A further reserve has been made for suspended mortality—the lives being "Select" on the whole.

4.

The rates of interest assumed in the calculations were as follows :—

In the Ordinary Assurance Business—3½ per cent.

In the Combined Investment Assurance Business, and in the Provident Endowment and Annuity-Certain Business—5 per cent. (estimated from an exact 4 per cent. valuation).

These rates of interest were adopted for the following reasons :—

Ordinary Assurance Business.—The net rate of accumulation guaranteed by Article 117 of the Constitution is 5 per cent. and adopting a reasonable margin arrived at the rate I assumed.

Combined Investment Assurance Business.—The valuation had originally been based by me upon 4 per cent. and exact results at that rate has been obtained. Reflection satisfied me that looking (*i*) to the fact that the Series was finally closed, and (*ii*) that all the contracts (endowment assurances) were definitely terminable within a comparatively short period of years, this course was not just or appropriate. Hence to the exact results of the 4 per cent. valuation, I added an adjustment (after calculation) to produce a 5 per cent. valuation.

Provident Endowment and Annuity-Certain Business.—Here it appeared reasonable to adopt the full 5 per cent. as the whole of the business is a terminating one, and I have further recommended the Directors to close it to new entrants on the existing rates of premiums. The valuation had originally been made by me at 4 per cent., but I added an adjustment (duly calculated) in order to produce a 5 per cent. valuation.

5.

The proportion of annual premiums, reserved as a provision for future expenses and profits in the case of policies effected under the Ordinary Assurance section of the business, is for Ordinary whole-life policies the difference between the office yearly premiums, and the net yearly premiums appertaining to ages at entry one year older than the ages on which such office premiums are based; in cases where preminms are payable for a definite number of years the reserve is the difference between the office premiums appertaining to the true ages at entry and to the true period during which it is contracted that premiums should continue to be paid, and the net premium appertaining to an age one year older and a duration of premium payments one year less.

Besides the usual extra reserve made to meet the expenses when premiums shall cease to be paid under Whole-life Assurance with a limited number of premiums, and Endowment Assurances with premiums payable for a less number of years than the number of years comprised in the endowment assurance period, a very large additional reserve has been made to secure that in all cases the net premiums valued shall in no case exceed 75 per cent. of the office yearly premiums, while, whenever. the reverse has obtained, the net yearly premiums as described above have been allowed to stand.

In the valuation of the extra premiums and the assumed rate of future dividend a margin of 25 per cent. has been left unvalued, to provide for the future expenses of the Combined Investment Assurance Business. In this connexion I refer to my remarks in the last paragraph but two of the Combined Investment System section under heading two of this Schedule. In connexion with the tentative rate of future dividend of 7 per cent. which I have adopted in order to present a practical Valuation Balance Sheet, it must be understood that *I do not pretend to make any prediction whatever of the future rate of dividend*, the 7 per cent. tentatively assumed being a rate within that which had been declared during the last three years of the quinquennium.

As regards the Provident and Annuity-Certain section of the business, I refer to my remarks under that section in my answer under Heading two of this Schedule.

* The above account is made out in exact accordance with the certified copies of the duly audited Revenue Accounts for each year as submitted to me, but it will be observed that in the Valuation Balance Sheets, I have included as an adjustment certain amounts of further Interest Revenue to conform with my interpretation of Article 117 which reads as follows :— "The Premium Reserve Fund shall be maintained in order to secure the due fulfilment of the Society's obligations to its policy-holders and shall not be drawn upon for any purpose other than the payment thereout, firstly of duly substantiated claims under policies and, secondly, of profit additions thereto. Provided that 75 per cent. of the premium Income of the Society (the balance thereof remaining after being drawn upon as above improved at 5 per cent. compound Interest shall either be placed in the Premium Reserve Fund or applied for the benefit of the Policy-holding interest only." A minute of the Board of Directors, dated the 4th February 1914, states :—"The Directorate do not express any opinion as to t he depletion of the Premium Reserve Fund by reason of the Auditor computing interest on only the amounts of the Fund as at the beginning of each year but hereby authorise the Actuary, Mr T. E. Young. to replace in the Ordinary Life Fund any amount of Interest which may thereby or otherwise be found by him to be short of the amount required by the 5 per cent. guarantee given by the Articles as understood by him, the amount thus replaced being balanced against the requisite amount of further Capital Outlay." On a careful perusal of Article 117, I have no hesitation in adopting the interpretation I have above expressed.

† This should rightly be included among the surrenders.

These amounts are the true office yearly premiums; the Society only credits the Life Assurance Fund with the yearly premiums, appropriating the loading for half yearly, quarterly and monthly payments of premiums to the Item "Interest" in the Shareholders' Revenue Account. The premiums are true Instalment Premiums, that is, any balance of the current year's premiums outstanding at the time of death is deducted from the sum Assured and the balance only paid over to the Representatives.

8 and 9.

I do not advise the distribution of any portion of the Surplus in the Ordinary Branch and have recommended that the entire amount should be carried forward unappropriated.

In coming to this decision I am influenced by the following facts and considerations :—

(*i*) That the Society is a young one, and I should like to see its valuation basis (in respect of the allowance for initial expenses) somewhat more strengthened before any distribution is entertained ;

(*ii*) I consider that the effect of the heavy lapse-rate, which the Society has experienced, on the future rate of mortality should be precisely observed, not only before any distribution should take place but also before any Scheme of Distribution is formulated and recommended to the Directors for adoption ; and

(*iii*) The 5 per cent. interest guaranteed on this amount (beyond the 3½ per cent. assumed) so carried forward unappropriated will have an appreciable effect by the time the next valuation takes place and will thus considerably strengthen the position, and help towards the reduction of the valuation to a normal basis.

T. E. YOUNG, F. I. A.,
Actuary.

APPENDIX I TO THE FOURTH SCHEDULE.

Since my Valuations and Returns were prepared, I have received a letter, dated the 26th February 1914, from the Head Office, informing me that certain "*intimated*" Claims have not been included in the Audited Accounts.

So far as I can ascertain the omitted items amount to :—(*i*) in respect of the Ordinary Branch—Rs. 69,969, and (*ii*) in respect of the Combined Investment System Branch—Rs. 75,500.

Thus (even if all the Intimated Claims should be admitted by the Directors) a Surplus still remains in the Ordinary Branch ; while the Deficiency in the Combined Investment System Branch is increased by the portion of intimated claims which may be admitted.

T. E. YOUNG, F. I. A.,
Actuary.

APPENDIX II TO THE FOURTH SCHEDULE.

1.—PENDING INTIMATED CLAIMS.

By reason of a misunderstanding the amounts of the claims intimatted but not admitted were not included in the Audited Balance Sheet furnished to Mr. T. E. Young for the valuation. On the requisition of the Actuary to the Government of India a statement on the point was subsequently prepared and submitted but reached Mr. Young too late to included in the Valuation Balance Sheet ; moreover, owing to the same not being couched in proper technical terms, Mr. Young could not gather the correct figures therefrom. and in his appendix to the Fourth Schedule he stated what he considered to be (but what as a matter of fact were not) the figures supplied from the Head Office of the Society. This led to further correspondence which terminated by Mr. Young advising the Directorate (acting upon the Solicitor's and Auditor's reports) to state the correct figures for the sanction of the Actuary to the Government of India.

The following are the correct audited figures for the Pending Intimated Claims so arrived at :—

Ordinary	...	...	Rs. 60,969
Combined	...	...	„ 49,900

For the purpose of ascertaining the amount to be added to the liability side of the Ordinary and Combined Valuation Balance Sheets, respectively, on account of the above :—

(*i*) a deduction of Rs. 1,000 should be made from figure for Ordinary Claims and an addition of the same amount made to the figure for the Combined Claims, by reason of one Combined Claim for Rs. 1,000 having been erroneously treated as Ordinary in the Audited Balance Sheet furnished for the valuation which error was subsequently detected and corrected in the Audited accounts.

Hindusthan Co-operative Insurance Society, Limited.

(*ii*) Rs. 4,500 should be deducted from the figure for the Ordinary Claims by reason of this amount having already been taken into account under the head of "Intimated claims admitted" in the Balance Sheet for the valuation;

(*iii*) Rs. 1,600 should be deducted from the figure of the combined claim by reason of this amount having already been taken into account under the head of "Intimated claims admitted" in the Balance Sheet for the valuation.

Thus the correct amount to be respectively taken as added to the Liability side of the Valuation Balance Sheets, as given in the body of the Schedule, are as under:—

Ordinary	...	...	Rs.	55,469
Combined	...	...	„	49,300

and the figure of the Ordinary surplus must be read and diminished, and that of the Combined deficiency as increased accordingly.

II.—PAID-UP POLICY RESERVE.

The Actuary to the Government of India is of opinion that an additional Reserve for Paid-up Policies (to which the holders of lapsed Policies may be entitled on application) should have been shown as a liability which would further reduce the above surplus but admits that the point *is not free from an element of reasonable doubt.* The question of this Reserve was not investigated by Mr. T. E. Young as the materials before him at the time of the Valuation did not include the particulars from which the necessity for such further Reserve might be deduced. As there is no question of dividing any surplus before the next valuation, the Actuary to the Government of India in order to avoid further delay, has not required this matter to be investigated at this stage. It will therefore be held over till the next valuation which falls to be made as at the 30th April 1917. In the meantime those who are in any way interested in the valuation results should read the Valuation Balance Sheet and specially the Ordinary Branch surplus, as subject to the possibility of such additional Reserve.

THE COMBINED INVESTMENT SYSTEM.

THIS SCHEME WAS CLOSED IN JUNE 1911.

Class A Policies.

Any person, aged between 18 and 50, provided he be not suffering from any serious disease, was granted an Ordinary Endowment Assurance free from payment of all ordinary premiums provided he took up shares in the Society of a nominal amount equal to the amount of the policy. The purchase price of such shares was spread over the first 10 years of the contract—the assured paying down cash for shares to the extent of 5% of the sum assured at the time of entering into the contract, and further payments for calls of a like amount were to be made at the beginning of each year thereafter, up to and inclusive of the tenth year. Thus at the end of this period the sum paid up would be equal to half the amount of the policy. These payments, as and when made, are credited to the Capital account. The shares thus purchased are termed "Bond" shares.

The assured covenants on behalf of himself and legal heirs that all dividends on the shares thus purchased shall be paid to the Society during a period of 25 years reckoned from the date of the original grant of the contract. The Society then credits 75% of the actual dividends declared upon such paid up portions of shares to the Life Assurance Fund as premiums on the Endowment Assurance policy granted. The balance of 25% of these dividends is credited to the Shareholders' Account in consideration of their guarantee to defray all the costs of conducting and managing the business, and to accumulate the Funds at 5% interest per annum. It will be seen that the Shares on which dividends are credited to the Life Assurance Fund annually increase in amount during the first ten years and thereafter remain constant for the remainder of the 25 years.

If the assured should die before the whole of the ten share calls have been taken up and paid for, then the Life Assurance Fund pays over the full sum assured,—namely, any amount due for share calls not paid at the time of death to the Capital Account, and the balance of the sum assured to the legal heirs of the Assured. 75% of the dividends on amount thus fully paid up continues to be paid to the Life Assurance Fund for the remainder of the 25 years above mentioned.

If the Assured should die at any time during the Endowment Assurance period, the sum assured is paid over (with the specific reservation in the particular case just above-mentioned where it is paid partly to capital and partly to the legal heirs), and the Society has the power to increase the period, over and above the 25 years stipulated, during which the dividends shall continue to be paid to the Life Assurance Fund.

If the Assured survive the Endowment period the full sum assured will be paid over and the lien that the Society held upon the dividends will immediately cease, and future dividends will be paid to the legal heirs.

Class B Policies.

The scheme was also open to under-average lives and to persons aged between 50 and 55, but in these cases shares to the extent of the sum assured (with calls to the like extent of 5% of the sum assured similarly paid for) had to be purchased for 15 years, instead of 10 years.

Class A and B Policies.

The term of the Endowment Assurances was in all cases 25 years, but the assured was allowed to vary the term to 20, 15 or 10 years on payment of "extra" yearly premiums as under—

	Rs. A.		Rs.
20-year term	7 8	per	1,000 assured.
15 " "	16 14	"	" "
10 " "	27 8	"	" "

Class A Policies were required to pay 10 of the above yearly "extra" premiums, and class B Policies 15. Where class B Policies were varied to 10 years only, 10 yearly "extra" premiums alone were required to be paid.

If the assured should die before all these "extra" premiums had been paid, a deduction of Rs. 5 per Bond share per annum would be made in respect of the balance of "extra" premiums remaining to be paid at the time of death. In the case of Class B—10 year Endowment Assurances this deduction is increased to Rs. 6-12 per Bond share per annum.

2 AND 3

The total amount assured, for each year of Life under policies for the whole term of Life and the Premiums receivable annually under policies for the whole term of Life with Premiums payable throughout the duration of the contracts, which were in existence on the 30th April 1912.

The Total Amount of Premiums received from the commencement under Provident Endowment Policies included in the above statements is Rs. 35,613-11-0.

NOTE.—This reply to my enquiry had not reached me when these returns were despatched, and hence the amount has been filled in at the Head Office of the Society.

8 and **9**.

The Total Amount of Immediate Annuities on lives and the amount of Annuities and Premiums receivable annually for all classes of Annuities other than immediate annuities in existence at 30th April 1912.

The Society had no annuity contracts on the books on the 30th April 1912.

Hindusthan Co-operative Insurance Society, Limited.

The average rate of interest yielded by the assets constituting the Life Assurance Funds of the Society calculated by Hardy's Formula during each year since 8th May 1907.

Year.	Ordinary.	Combined.	Provident.
8th May 1907 to 30th April 1908	*Nil*	No Business	*Nil*
1st „ 1908 „ „ „ 1909	2 4 8%	*Nil*	1 13 1%
„ 1909 „ „ „ 1910	2 9 7	0 4 4%	3 8 8
„ 1910 „ „ „ 1911	3 6 10	2 3 10	3 15 9
„ 1911 „ „ „ 1912	3 14 8	5 0 0	4 4 4

The above rates of interest are obtained from attested copies of the duly audited Revenue Accounts, by Hardy's Formula—

$$\frac{2\ I}{A + B - I}$$

By Article 117 of the Society's Articles of Association the Shareholders guarantee the accumulation of 75 % of the premium income remaining after payment of all claims and surrenders at 5 % Interest Net. The Auditors have interpreted this as a guarantee of 5 % on the fund at the beginning of the year, and no interest on the increases to the fund during the year.

I am unable to concur with the Auditors' interpretation and I have, by increasing the three Funds by a total of Rs. 16,736-8-3 distributed as in the valuation Balance Sheets, made the rate of interest yield on the Funds 5 % in each year except the years of commencing business, where I have assumed that the effective income would come in during the last 8 months of the year only—the first four months being practically taken up with canvassing and other preparations.

The Shareholders' guarantee is stated to be free of income-tax.

The Society has no Reversionary investments.

11.

The present practice of the Society is to grant minimum Surrender Values on the following scales :—

Whole Life Assurances 30 % of all the premiums paid, excluding the first year's premium.

Endowment Assurance 40 % of all the premiums paid, excluding the first year's premium.

Provident Endowments—

Number of Premiums paid.	Cash Surrender value.
From 1 to 5	Total Premiums paid less 5 %
„ 6 to 10	Total Premiums paid.
„ 11 to 15	Total Premiums paid *plus* 5 %
„ 16 to 20	Total Premiums paid *plus* 10 %

Examples of Surrender Values at present allowed for Policies of Rs. 1,000 for the wholes term of Life, and for Endowment Assurances payable at the end of 20 years or at previous death.

I beg to report that I have audited the Balance Sheet of the India Equitable Insurance Company, Limited, dated the 30th June 1914, as above set forth with the books and accounts as kept in Calcutta in which are incorporated the certified returns from the Branch and have obtained all the information and explanations I have required. In my opinion the Balance Sheet is drawn up in conformity with the law and exhibits a true and correct view of the state of the Company's affairs according to the best of my information and explanations given to me and as shewn by the books of the Company.

I have also seen the receipt of the Comptroller-General for the India Government Stock lodged with him and verified other Investments and security papers.

I also certify that in my belief the assets set forth in the Balance Sheet are in the aggregate fully of the value stated therein and that no part of any fund there n has been applied directly or indirectly to any purpose other than the class of business to which it is applicable.

India Equitable Insurance Company, Limited.

FOURTH SCHEDULE.

FOURTH SCHEDULE.

Statement respecting the valuation of the Liabilities under life Policies of the India Equitable Assurance Co., Ltd., made by the Consulting Actuary.

1. The date up to which the valuation is made is the 30th June 1913.
2. The valuation has been made upon the following principles :—

(*a*) Policies for the Whole Term of life subject to uniform premiums throughout life were valued in classes according to the ages attained by the lives assured. Whole Life Policies subject to Limited Premiums of Paid up were valued individually according to age attained.

(*b*) Endowment Assurance Policies and Popular Life Policies were valued in classes according to the unexpired term of the Assurance and a mean valuation age was calculated for each group by an application of Makeham's formula for the law of mortality, in such a way that full weight was given to the various present ages of the assured lives in each group and to the magnitude of the respective sums assured.

(*c*) Combined Whole Life and Endowment Policies, and Double Endowments were valued individually.

(*d*) Children's Endowments and Cheap Investment Policies were valued on an interest basis simply and the reserve was arrived at by deducting from the discounted value of the sums assured the present value of the future Office Premiums. As regards the Cheap investment Policies there is a condition that the dividends on the shares, which form part of the benefit, may be deferred at the discretion of the Directors and in view of this condition it has been thought sufficient to take the shares at 75 per cent. of their face value. Probably this course over-states, if anything, the real liability.

(*e*) In cases where the anniversary of the Policies fell within six months of the Valuation date, the premium was valued by the Annuity due and in other cases by the simple annuity. Experience shows that this method makes an automatic and very accurate adjustment for the incidence of the premium income.

(*f*) For policies other than Children's Endowment and Cheap Investment Policies the net premiums were calculated on the basis of the British Offices O^m (5) Table with 3½ per cent. interest and were the true net premiums for the risk without any allowance whatever for initial expenditure.

(*g*) In the case of lives assured at increased rates, whether permanent or temporary, the policies were valued as though only the minimum contract premiums were payable with an additional reserve equal to one half year's extra premium.

The principles were determined by the Directors on the advice of the Consulting Actuary.

3. The table of Mortality used was the British Offices O^m (5) Table, an addition of five years to the age being made in the case of whole Life Policies only as an allowance for Indian mortality.

4. The rate of interest assumed was three and one half per cent. throughout.

5. The loading reserved is the whole of the difference between the office and the net premiums without any allowance for initial expenditure, and represents for policies with immediate profits 27·46 per cent., for Policies with contingent Profits, 19·65 per cent. for Policies without profits, 1·61 per cent. and for Popular Policies, 17·49 per cent., of the annual premium income. In the case of Limited Premium and paid up Policies, an additional reserve has been made to provide for expenses and profits after the premiums have been made up.

Note.—The business is in three sections, namely, (1) that which may be called the Ordinary Business, (2) the Popular Policy Scheme, and (3) the Rupee Policy Marriage Insurance. The Policies in the first two categories have been valued, but no valuation is required of the Rupee Policy Marriage Insurance as that is scarcely more than a Banking Account.

8 and 9. No annuities have been granted by the Company.

10. On account of the recent establishment of the Company, it is scarcely possible to give a full and satisfactory answer to this question, but for the last two years of the valuation period the rate of interest realised on the mean fund was as follows:—

Year ending 30th June.	Average rate of interest per cent. per annum.
	Rs. A.
1912	4 6
1913	4 2

11. After three years and three years' premiums have been paid in the case of policies for the whole of life, whether by uniform annual premiums or by a limited number of annual premiums exceeding twenty, or after two years and two years' premiums paid, when the limited premiums do not exceed twenty, the guaranteed minimum surrender value is 30 per cent., of the premiums paid. In the case of endowment assurances after two years and two years' premiums have been paid, the guaranteed minimum surrender value is 33 per cent. of the premiums paid.

For Children's endowments after two full years' premiums have been paid the surrender value consists of the whole of the premiums paid with 2 per cent. compound interest.

No scale of surrender values other than the above has yet been prepared.

GEORGE KING, F.I.A., F.F.A.

London, 1st September 1914.

India Equitable Insurance Company, Limited.

Statement under the Indian Life Assurance Companies Rules, 1913, made by Mr. George King, the Consulting Actuary, employed by the Directors of the India Equitable Insurance Company, Limited, to make the first valuation of the Company as on 30th June, 1913.

Section 3 of the Rules:—I am a Fellow of the Institute of Actuaries, London, and a Fellow of the Faculty of Actuaries in Scotland.

Section 4 of the Rule:—The Officials of the Company supplied a schedule signed by them as correct, showing all the policies, according to their books, in force on 30th June 1913, and at my request the Managing Director wrote me a letter stating that the schedules were complete. The particulars in the schedules were then verified as far as possible as to rates, etc., from Prospectuses supplied and after correspondence, all discrepancies were cleared up. I am, therefore, satisfied that the particulars on which my valuation is based, are correct.

Section 5 of the Rules.—Attached to this statement are the replies to the questions asked in the 4th and 5th schedules of the Indian Life Assurance Companies Act, 1912, and as regards the 4th schedule, I certify :—

(*a*) that the calculations are correct and were made on the principles explained in the answers to the questions of the Fourth Schedule;

(*b*) that these principles have my approval;

(*c*) that I have obtained all the information and explanations which I have asked for;

(*d*) that the adjustment, used in the Valuation, for unequal incidence of the premium income is set forth in answer to question No. 2 of the Fourth Schedule, and that, as regards premiums payable more often than once a year, seeing that in the Balance sheet the outstanding instalments of premiums represent only those instalments which were actually *due* and unpaid at the Valuation date, an adjustment was made to the value of the future premiums and the reserves for the instalments of the current year's premiums falling due *after* the valuation date;

(*e*) that, as regards ages at entry, it was assumed that the Office age at entry was attained on the 30th June following entry, and for the valuation age there was added to the entry age, so ascertained, the number of policy years actually completed. In the case of policies for the whole of life an addition of 5 years was made to such entry and valuation ages respectively as an allowance for Indian mortality;

(*f*) that the table used in the valuation is that known as the O^m (5) which has been published;

(*g*) that the method of valuation secures that there can be no negative values;

(*h*) that the following are specimens of the Reserve Values :—

(*i*) Whole Life Assurance, with premiums payable throughout life;

BASIS OF VALUATION.

Rate of Interest.

I have adopted 3½ per cent. as the rate at which the Funds may be assumed to accumulate.

Mortality.

Sufficient data are not yet available on which to base precise estimates of the rate of mortality likely to be experienced by the Company. Such statistics as have been published relative to Indian mortality indicate that the rate of mortality among Natives is improving and that, in the case of medically selected lives, the British Offices (O^m) Tables with an addition to the age of some five or six years is a fairly safe basis to adopt in the case of whole life assurances, and that in the case of Endowment Assurances the addition may be dispensed with. I have, therefore adopted that basis.

Loading.

What is known as a Net O^m Valuation, that is one in which the net actuarial premiums (and not the premiums actually payable or some modification of them) are valued and taken credit for, is not, as a rule, suitable in the case of a recently established Company with heavy initial expenditure. This is owing to the fact that in such circumstances a company cannot keep in hand a sufficiently large portion of the contributions. In such a case it is, therefore more appropriate to take credit for the future actual premiums payable less such a deduction as may be thought reasonably sufficient to meet future expenses on the existing business and, if possible, provide for bonus. After careful consideration I am of opinion that a margin of not less than 16 per cent. of the future Office premiums should be left for these purposes, and have consequently set against the present actuarial value of the Sums Assured the present value of 84 per cent. of the actual Office premiums payable under the Assurances. The Pure Endowments which are all with returnable premiums, have been valued by accumulating past premiums, subject to a deduction for expenses, at 3½ per cent, the resulting Reserve along with the future premiums similarly modified being just sufficient, if accumulated at that rate of interest, to meet the claims under these Endowments.

The following is a summary of the Assurances and of the Valuation :—

Class of Policy.	Number of Policies.	Total Sums Assured.	Total premiums payable.	Value of Sum Assured.	Value of 84 per cent of Office premiums.
		Rs. A. P.	Rs.	Rs.	Rs.
Whole Life Assurances : by Whole Life Premiums ...	61	11,07,397 11 0	34,726	4,84,644	4,74,676
Whole Life Assurances : by Limited Payments ...	340	5,16,062 8 0	22,807	2,24,605	1,98,245
Endowment Assurances	3,635	53,97,269 7 8	3,00,149	31,61,132	28,21,512
Children's Endowments	51	73,500 0 0	5,521	17,893	...
	4,707	70,94,229 10 8	3,63,203	38,88,234	34,94,431
Less Re-assurances	...	25,000 0 0	1,675	17,028	12,855
	4,707	70,69,229 10 8	3,61,528	38,71,206	34,81,576

National Insurance Company, Limited.

Valuation as at 29th February 1912.

The Reserve, being the difference between—

	Rs
The Value of the Sums Assured	38,71,206
And the value of future Premiums	34,81,576
is thus	3,89,630
against which the Life Assurance Fund at the date of valuation was	3,91,104
Shewing a surplus of	1,474

In view of the heavy initial expenditure already referred to, a surplus at the end of the first five years sufficiently large to provide a bonus, was scarcely to be anticipated. It should, however, be added that even the nominal surplus brought out cannot be considered as actually realised. The present value of such a large proportion as 84 per cent. of the Office Premiums exceeds the present value of the sums Assured in the case of many of the policies, especially those effected only a year or two ago, and particularly on whole life premium scale at young ages. The result in such cases is what is termed a Negative value, in other words, the Policy is treated as an asset. That asset would be lost to the Company if the policies were dropped and, since there is no certainty that they will be kept up, the excess of the values of the Premiums over the values of the Sums Assured in those cases should, strictly speaking, be excluded altogether from the valuation and, if this were done, the position would not appear so favourable as it does.

RESOLUTION—By the Government of India, Foreign and Political Department.

IN paragraph 9 of the Resolution by the Government of India in the Foreign Department, No. 2185-Est.-A., dated the 1st September 1911, announcing the introduction of a scheme for the reorganisation of the Political Department of the Government of India, it was declared that future entrants into the Political Department, both civilians and military officers, would be graded strictly in accordance with the date from which each officer is entitled to count his service for increment under the time scale. The strict application of this rule to a group of military officers selected simultaneously for the Department has given rise to certain difficulties, while similar difficulties are also liable to occur in the event of two or more officers of the Indian Civil Service of the same year being taken into the Department.

2. With the approval of His Majesty's Secretary of State for India the Government of India are accordingly pleased to decide that seniority in the Political Department will be governed by the following rules:—

(1) The seniority *inter se* of military officers recruited for the Department simultaneously shall be regulated by the dates of their first commissions.

(2) The seniority *inter se* of members of the Indian Civil Service shall be reckoned in the same manner as in the Provinces; that is to say, according to the order in which they stand on the list resulting from the combined marks of the open competitive and final examinations for admission into the service.

(3) The relative seniority of a member of the Indian Civil Service on the one hand and of a military officer on the other shall be determined with reference to the length of their service in the Indian Civil Service and the Political Department, respectively.

The above rules will govern the seniority of all officers admitted into the Political Department subsequently to the 1st September 1911.

INSURANCE.

RESOLUTION.

Simla, the 28th August 1915.

THE following review on the working of the Indian Life Assurance Companies Act, 1912 (VI of 1912), is published for general information :—

The Indian Life Assurance Companies Act came into force on 18th March 1912. The accounts and valuation particulars for two complete years have been received and published each year with an introductory note by the Government Actuary. The figures for the latter year relate in all cases to a period ending before the outbreak of the war.

2. The manner in which the accounts are drawn up exhibits a gratifying degree of improvement, and bears testimony to the capacity of the smaller Companies to profit by the advice and assistance given them in the preparation of their statements and the maintenance of their accounts. In spite of the untoward financial conditions which prevailed throughout much of the period under review, the number of Companies doing business under the Life Assurance Act exhibits little change, and it is obvious that the apprehensions entertained at one time of the possibly injurious effect of the legislation now in force on Indian Life Assurance enterprises have not been justified. When the Act was passed, there were 49 Indian Companies which came under its scope. Of these, 9 have undergone liquidation, while 6 fresh ones have commenced business, leaving a balance of 46. In addition to this number, life assurance business is undertaken by other 22 Companies, of which 15 are constituted in the United Kingdom, 6 in other parts of the British Empire and 1 in the United States of America. Of the 46 Indian Insurance Companies now working, there are, it is true, a few which, sooner or later, will probably have to admit that their financial position does not warrant a continuance of their operations, and will have to go into liquidation. The Government Actuary's statements relate to two years, during the latter of which the amount of life assurance funds held by Indian Companies increased by nearly half a crore and now exceeds 5¾ crores, while the total sums assured have increased in the same period by about one and-a-half crores and now amount to nearly 22¼ crores. Though the larger Companies naturally account for the bulk of this increase, there are many smaller Companies which had materially improved their position up to the close of the period to which their published accounts relate and the general improvement would have been undoubtedly far greater but for the adverse conditions created by the Bank failures in Bombay and the Punjab.

3. The general policy of the Government of India with regard to Indian Life Assurance Companies has been to bring home to them the disadvantages of unsound methods where such have been pursued and to endeavour to induce the Companies concerned to remedy such methods where it seemed that their financial position had not already been shaken to too great an extent to permit of reparation While keeping in view the duty of securing the interests of policy-holders, Government have also borne in mind the importance of abstaining from action which might unnecessarily harass a Company under temporary difficulties due to unskilled though honest management. This policy has been loyally carried out by Mr. Meikle, the Government Actuary, who has maintained helpful and sympathetic relations with Indian Insurance Companies, while paying due attention to the necessity of safeguarding the interests of policy-holders.

4. One of the worst faults which have characterised the less efficiently-managed Companies, has been their failure to obtain skilled actuarial assistance to advise them regarding their financial position. This has led in some cases to their declaring dividends unwarranted by the profits earned.

The need for skilled help is now much more generally recognised. During the past two years, 14 actuarial valuations have been received, and there is a widespread recognition that something more than zeal and intelligence is needed to manage so highly technical a business as that of Life Assurance. The result has been that since the Act came into force several Companies have discontinued the payment of dividends in consequence of the advice either of their actuary or of Government. Another source of danger was the undertaking, in addition to ordinary Life Assurance, of such business as 'dividing' insurances, payable on death, or on the occasion of births and marriages, a line of business which has involved several Companies in serious difficulties. Thirteen Companies which previously undertook dividing insurance have now discontinued it.

5. In view of the less complicated nature of the accounts of Mutual Companies and the comparative smallness of the sums involved in their transactions, permission has been given to such Companies to employ the services of auditors holding restricted certificates. There are a number of Mutual Companies, the larger proportion of whose business consists of small insurances such as would ordinarily fall under the Provident Insurance Societies Act. In such cases, the Government of India have expressed their readiness to consider applications for some temporary relaxation of the provision of the Act regarding compulsory deposits; and in no case has any such Company been compelled to suspend business solely on account of the necessity for the payment of the statutory deposit. The Government of India are gratified to observe the growing sense of responsibility and the desire to attain a satisfactory standard of working that has generally characterised the smaller Indian Life ssurance Companies; and they see good reason to hope that their efforts to put their business on a sounder basis will be rewarded by an increase in its volume and by enhanced prosperity, when the unfavourable conditions arising out of the war have passed away. These, however, will not begin to be apparent until the receipt of the next series of annual statements.

ORDER.—Ordered that a copy of the foregoing Resolution be forwarded to all Local Governments and Administrations for information, and that it be published in the Supplement to the *Gazette of India*.

SIBPUR,

The 20th August 1915.

DACCA DIVISION.

Rules for the Admission of Private Candidates to the University Matriculation Examination, 1916.

1. A student who has not attended any school, recognised or unrecognised, for at least one year previous to the examination will be treated as a private candidate. Teachers of schools are also considered as private candidates.

2. Private candidates desirous of sitting at the ensuing University Matriculation Examination must appear at the test examination of one of the undermentioned schools to be held on the 6th December 1915 and the following days :—

1. Dacca Collegiate School.
2. Mymensingh Zilla School.
3. Faridpur Zilla School.
4. Barisal Zilla School.

3. Every private candidate must submit his application for admission to the test examination on or before the 1st November 1915 to the head master of one of the schools named above where he intends to appear, producing a certificate from a respectable gentleman to the effect (1) that he has not attended any school, recognised or unrecognised, for at least one year previous to the examination, (2) that his conduct and character have been good, (3) that he has diligently and regularly prosecuted his studies and has been subject to proper discipline.

A student who failed to pass the annual examination for promotion to class X at the end of the session 1914 and then left the school should not be allowed to sit at the examination.

4. He should also forward with his application his transfer certificate from the school (if any) in which he last read, or the Registrar's receipt (if he appeared at any previous Entrance Examination) or a certificate from a respectable person with personal knowledge of the facts of the case that he has never been to any school.

5. No one will be admitted to the test examination unless he shall produce satisfactory evidence that he will have completed the age of sixteen years on the 1st day of March 1916. For the purpose of this rule the age as recorded in a transfer certificate from a recognised school or in the Registrar's receipt (in case of those who appeared at any previous examination) will be accepted. Those who have never read in any school must produce either their horoscope or an affidavit sworn by their parents or guardians before a competent Magistrate declaring their age.

6. Every private candidate shall state in his application his name, father's name, date of birth, residence; postal address and the following particulars :—

1. Whether he appeared at the Entrance Examination in any previous year.
2. Language in which (besides English) he is to be examined.
3. Vernacular language for composition.
4. Vernacular language from which translation is to be made into English in the 1st English paper.
5. Which of the following subjects taken up—

(*a*) Additional Mathematics.	(*c*) History.
(*b*) Additional paper in classical language.	(*d*) Geography.
	(*e*) Elementary Mechanics.

7. Every private candidate must pay a fee of Rs. 2 to the head master of the school at which he appears for examination. After payment of the necessary expenses the balance of the fees will be paid to the examiners as remuneration.

8. On the date of examination, he must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, otherwise he will not be admitted to the test examination.

9. The head masters of the schools named above should send to this office for orders a statement in duplicate showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination. The application forms of candidates who are declared eligible should be forwarded to this office for countersignature duly filled in and signed and accompanied by the documentary evidence referred to in paragraphs 3, 4 and 5.

10. Private candidates should arrange to remit their examination fees, together with the countersigned application forms, direct to the Registrar, so as to reach him on or before the 17th January 1916. The fee payable by each candidate for the examination is Rs. 12.

11. The Matriculation Examination for 1916 will be held on the 1st March and the following days.

F. C. TURNER,

Offg. Inspector of Schools, Dacca Division.

Z2120, 2121 and 2132) of the stores for the supply of which tenders are invited, are obtainable on payment at the rate of Re. 1 per set on application in writing, and samples of the articles to be supplied can be inspected at the Depôt godown any day (Sundays and holidays excepted) between the hours of 10 A.M. and 2 P.M.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ Receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds, as earnest money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs. 25 which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest money.

VI.—The approval or rejection of tenders rests with the Quartermaster-General in India who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 A.M. on Monday, the 20th September 1915. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of Gram and Fodder" and addressed to the Superintendent, Remount Depôt, Alipore (Calcutta), and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA; MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Questions and Answers.

By the Hon'ble RAI RADHA CHARAN PAL BAHADUR :—

Pay and allowances of Chief Valuer of the Calcutta Improvement Trust.

*3. (*a*) Will the Government be pleased to state what was the pay originally fixed for the post of the Chief Valuer of the Calcutta Improvement Trust ?

(*b*) When, and on what terms, did the present incumbent join the post ?

(*c*) What increments did he obtain, and on what dates ?

(*d*) What is the salary of the corresponding post in the Bombay Improvement Trust ?

(*e*) What was the original motor allowance attached to the post in the Calcutta Improvement Trust ?

(*f*) When, and how many times, was it increased ?

The Hon'ble MR. DE replied :—

"(*a*) (*b*) & (*c*) In June, 1912, Government sanctioned the creation, by the Calcutta Improvement Trust, of the appointment of a Land Valuer on a salary of Rs. 1,250 a month rising by annual increments of Rs. 50 to Rs. 1,500. Mr. Shrosbree joined this post in January, 1913, the appointment being terminable by six months' notice on either side. He was subordinate to the Chief Engineer, who was responsible for the preparation of schemes. On the abolition of the post of Chief Engineer in April, 1913, the Chief Valuer and the Trust Engineer were made jointly responsible for the preparation of schemes, and the salary of each was fixed at Rs. 1,500 a month rising by annual increments of Rs. 50 to Rs. 1,750. The Chief Valuer has since been made solely responsible for the preparation of schemes, and the Local Government have sanctioned, upon certain conditions, a proposal to raise Mr. Shrosbree's pay to Rs. 2,000 a month rising by annual increments of Rs. 100 to Rs. 2,500.

(*d*) There is no post under the Bombay Improvement Trust corresponding to the present post of Chief Valuer under the Calcutta Improvement Trust.

(*e*) & (*f*) Mr. Shrosbree was first granted a conveyance allowance of Rs. 75 a month. An allowance of Rs. 100 a month for the upkeep of a motor-car was granted from the 25th February, 1913. This has been increased to Rs. 150 a month from the 1st April, 1913."

By the Hon'ble RAI RADHA CHARAN PAL BAHADUR :—

Pay of Chairman of the Calcutta Improvement Trust.

*4. (*a*) Will the Government be pleased to state what is the present graded pay of the Hon'ble Mr. Bompas, I.C.S., in the *cadre* of the Indian Civil Service ?

(*b*) What permanent appointment was he holding before he was appointed Chairman of the Calcutta Improvement Trust; and what pay was he receiving in that appointment ?

(*c*) What was the date of his appointment to the Calcutta Improvement Trust ? On what pay and allowances was he so appointed ?

(*d*) What increment has been so far granted to him since his appointment to the Trust, and what were the reasons for raising the salary ?

(*e*) What are the salary and allowances of the Chairman of the Bombay Improvement Trust ?

The Hon'ble MR. DE replied :—

"(*a*) The Hon'ble Member is referred to pages 10 and 11 of the Civil List for Bengal corrected up to 1st July, 1915.

(*b*) Before his appointment as Chairman of the Calcutta Improvement Trust, Mr. Bompas was a substantive Magistrate and Collector of the first grade (pay Rs. 2,250 a month) and was posted to Howrah.

(*c*) Mr. Bompas was appointed to be Chairman of the Calcutta Improvement Trust with effect from the 2nd January, 1912, on a salary of Rs. 3,000 per mensem *plus* a monthly house rent and conveyance allowance of Rs. 500 for three years.

Questions and Answers.

(*d*) When Mr. Bompas was reappointed after his first term of three years, Government took into account all the circumstances of the case and considered it desirable to exercise its powers under the proviso to section 11 of the Calcutta Improvement Act.

(*e*) It appears from the Bombay Civil List that the Chairman of the Bombay Improvement Trust draws a salary of Rs. 3,000 and a conveyance allowance of Rs. 100 a month."

By the Hon'ble RAI RADHA CHARAN PAL BAHADUR :—

Acquisition cases of the Calcutta Improvement Trust.

* 5. (*a*) Will the Government be pleased to state whether it is a fact that, in acquisition cases before the Land Acquisition Collector of the Calcutta Improvement Trust, the officers of the Trust send to the Collector their own estimates of valuation?

(*b*) Will the Government be pleased to state whether or not an interchange of views takes place between the officers of the Trust and the Collector in respect of acquisition cases regarding valuation of which the claimants concerned have no notice, and whether or not such interchange of views, if any, is in accordance with the provisions of the law?

The Hon'ble MR. BIRLEY replied :—

(*a*) "Yes.

(*b*) The procedure which is followed is described in the Special Land Acquisition Collector's letter No. 321 L.A., dated 6th May, 1914, addressed to the Chairman of the Calcutta Improvement Trust, which letter has been reproduced on pages 97 and 98, Appendix H of the Annual Report on the Operations of the Calcutta Improvement Trust for the year 1914-15. The Governor in Council is advised that the procedure is legal."

By the Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR :—

Alleged outrages on women.

* 6. (*a*) Has the attention of the Government been drawn to the case of the abduction of a respectable Hindu girl by some Muhammadans in the village of Bhowal (Dacca)?

(*b*) Is it the case that several similar outrages have recently been committed in Bengal?

(*c*) If so, will the Government be pleased to state what steps (if any) they have taken, or are taking, to put a stop to the occurrence of these outrages?

The Hon'ble MR. KERR replied :—

"(*a*) A case of abduction was reported at the end of July from a village named Bhadun in the Dacca district. The facts are disputed and the case is still under inquiry. Government are not aware that any similar case has occurred in the village of Bhowal.

(*b*) Cases of abduction have occurred within the last few months in the Jamalpur subdivision of the district of Mymensingh. In answer to a question asked by the Hon'ble Rai Radha Charan Pal Bahadur a memorandum was laid on the table at the meeting of this Council held on the 26th July last, giving particulars of six cases in that subdivision.

(*c*) As was stated in answer to the question of the Hon'ble Rai Radha Charan Pal Bahadur, the local officers are fully alive to the necessity of taking prompt and vigorous action for the suppression of crime of this nature."

By the Hon'ble BABU UPENDRA LAL RAY :—

Erection platforms certain sta the Assam-Bengal Railway.

* 7. (*a*) Will the Government be pleased to state the number of stations on the Assam-Bengal Railway lines and the names of the stations on that Railway which have platforms for passengers?

Questions and Answers.

(*b*) Are the Government aware of the representations made from time to time to the Assam-Bengal Railway authorities for providing Sitakund, Barabkund, Comilla, Chandpur, Noakhali and other important stations with platforms, and of the result of those representations ?

(*c*) Is it a fact that every year during the Shivaratri *mela* and on other religious occasions pilgrims from various parts of India visit Sitakund and Barabkund and many of them also pass through Chandpur station ?

(*d*) Will the Government be pleased to state whether it is in contemplation to construct platforms for passengers at the important stations where they do not exist at present ?

(*e*) If so, when is the work likely to be accomplished ?

The Hon'ble MR. COWLEY replied :—

"(*a*) In Bengal there are 57 stations. Of these, two have raised platforms, viz., Chittagong and Laksham.

(*b*) Until the Hon'ble Member put this question, the Local Government were not aware of any such representations. They have since learned that such representations have been made to the Railway authorities.

(*c*) The answer is in the affirmative.

(*d*) & (*e*) The Railway authorities do not at present propose to construct raised platforms at any other station."

By the Hon'ble BABU UPENDRA LAL RAY :—

The Rajabari monument.

*8. (*a*) Will the Government be pleased to state whether the *math* (monument) at Rajabari, in the district of Dacca, is included in the list of monuments under the Ancient Monuments Preservation Act ?

(*b*) Are the Government aware that this monument has for several generations been serving as an important landmark for the locality ?

(*c*) Will the Government be pleased to state what action has been taken to repair and maintain this monument ?

The Hon'ble MR. DE replied :—

"(*a*) The *math* at Rajabari, in the district of Dacca, is not included in the list of monuments under the Ancient Monuments Preservation Act.

(*b*) The answer is in the affirmative.

(*c*) The *math* has hitherto been repaired by Raja Srinath Roy."

By the Hon'ble BABU UPENDRA LAL RAY :—

Promotion of Sub-Registrars to the Provincial and Subordinate Civil Services.

*9. (*a*) In view of the reply of the Hon'ble Mr. Cumming to the question asked by the Hon'ble Rai Prasanna Kumar Ray Bahadur on the 26th March, 1914, will the Government be pleased to state whether any recommendation has been made by the Inspector-General of Registration on behalf of any Sub-Registrar for promotion to the Provincial or Subordinate Civil Service ?

(*b*) If so, with what result ?

The Hon'ble MR. KERR replied :—

"(*a*) Last year the Inspector-General of Registration recommended two Sub-Registrars for appointment as Sub-Deputy Collectors.

(*b*) The claims of these two officers were considered, but it was not found possible to appoint them."

Questions and Answers.

By the Hon'ble DR. NILRATAN SARKAR :—

Floods in Comilla and Noakhali.

* 10. (*a*) Are the Government aware that reports published in the Press from non-official sources describe the greater part of the Brahmanbaria Subdivision and a considerable part of the Sadar Subdivision, in the district of Comilla, to have been flooded in a very serious manner?

(*b*) Was the estimate of two hundred and fifty square miles, as being the extent of the flooded area in Comilla, made by Government before or after the last floods which occurred in those areas?

(*c*) What is the present state of the floods in Comilla and Noakhali?

(*d*) Is it a fact that a portion of the Chandpur Subdivision has since the date of the Hon'ble Mr. Beatson Bell's statement, been flooded?

The Hon'ble MR. BIRLEY replied :—

(*a*) "Yes.

(*b*) Floods rose in the district of Tippera, particularly in the Brahmanbaria subdivision, on three distinct occasions—in the beginning of June, the beginning of July and the beginning of August. The estimate of 250 square miles was made after the second rise. The area now seriously flooded is about 360 square miles.

(*c*) Apart from comparatively small areas, which are receiving the attention of the local officers, the condition of the whole of Noakhali, and of the Sadar and Chandpur subdivisions of Tippera, is now normal. In Brahmanbaria the condition is more serious. The area of this subdivision is 759 square miles. It is physically similar to the adjoining district of Sylhet in Assam. It is low lying and comprises many large *beels*, locally known as *haors*. The main crops in the subdivision, taken in order of sequence, are as follows :— *Boro* rice, which is transplanted on the edges of the *haors* in February and is reaped in May; *aus* rice, which is sown in April and reaped in July; jute, which is sown in April and reaped in August and September; *barshul* rice, which is sown broadcast in the *haors* in April and reaped in November and December; transplanted *aman* rice, which is transplanted in the higher lands in August and September and reaped in December and January; and *rabi* crops (mustard, pulse, etc.), which are sown soon after the rains have subsided and reaped in the spring. The first rise in the floods (June) occurred after the *boro* rice had been reaped and while the *aus* rice, jute and *barshul* rice were standing. The second rise (July) occurred when the *aus* rice was almost ripe and the jute and *barshul* rice were still standing. The third rise (August) occurred at the time when, in normal years, the reaping of jute begins, the *barshul* rice is about half grown, and the seed beds are being prepared for the transplanted *aman* rice. All the crops of the year, with the exception of the *boro* rice (which had been reaped before the floods came) and the *rabi* crops (the time for which has not yet come), were therefore affected to a greater or less extent. At present the estimate is as follows :—

	Square miles.
Boro rice—	
Good crop reaped	15
Indifferent crop reaped	3
Total ...	18
Jute—	
Wholly destroyed	36
Indifferent or poor crop being reaped	24
Fair crop being reaped	31
Total ...	91

(*d*) Yes. In the middle of August floods rose for about a week in the Matlab thana of Chandpur subdivision. The area affected and the damage done were comparatively small. Floods also rose for a few days in the same subdivision towards the end of August, but no damage has yet been reported."

By the Hon'ble DR. NILRATAN SARKAR :—

Government relief in the distressed areas.

* 11. (*a*) Have the Government ascertained the number of persons who are in actual need of agricultural loans and of gratuitous relief in the distressed areas ?

(*b*) What is the number of persons who have been provided with loans and what is the average amount of loan given to each individual ?

(*c*) What is the number of persons now in receipt of gratuitous relief given by Government, in each district and subdivision ?

(*d*) What is the amount of money actually distributed by local authorities since the 26th of July last for the purpose of—

(*i*) agricultural loans, and

(*ii*) gratuitous relief,

in each subdivision of the two affected districts ?

The Hon'ble MR. BIRLEY replied :—

(*a*) "Apart from Brahmanbaria subdivision, there are comparatively few people still in need of agricultural loans or gratuitous relief. Their cases are all being attended to. In Brahmanbaria subdivision it is estimated at present that 30,000 households will ultimately require agricultural loans and 2,500 households gratuitous relief. The local officers anxiously considered the time at which loans and gratuitous relief could, with most benefit, be distributed by Government. Owing to the agricultural conditions already explained they came to the conclusion that the main distribution should begin in September. Lists of recipients are now complete and large distributions from Government sources will be made from now onwards. Meanwhile urgent cases have been dealt with by private charitable organizations, assisted by Government officers. It will be convenient to state here that up to date the Commissioner of Chittagong has received Rs. 8,00,000 from Government for agricultural loans and Rs. 50,000 for gratuitous relief. Whatever further grants are necessary will be made. Apart from purely Government grants, Rs. 20,000 has been allotted from the Joy Govind Law Trust and Rs. 3,000 from the Ram Lal Mookerji Trust. Both these trusts are administered by the Revenue Secretary of this Government.

(*b*) The households which have already received agricultural loans are as follows :—

District.	Subdivision.	Number of households	Average loan. Rs. As.
Tippera ...	Sadar ...	4,345	7 4
	Chandpur ...	4,108	7 0
	Brahmanbaria ...	1,334	6 1
Noakhali ...	Sadar ...	6,732	7 12
	Feni ...	3,162	6 12

Questions and Answers.

Except in Brahmanbaria, the distress was of short duration. The future loans in Brahmanbaria will be on a larger scale.

(*c*) In the Noakhali district and in the Chandpur subdivision of Tippera no person is now receiving gratuitous relief from Government, though many received it while the distress lasted in those areas. In the Sadar subdivision of Tippera 702 persons are now in receipt of gratuitous relief from Government. In Brahmanbaria subdivision, as already explained, the distribution of Government money in gratuitous relief is just beginning, but Government officers have been assisting in the distribution of rice and money subscribed from private sources.

(*d*) Since 26th July the following sums have been distributed :—

District.	Subdivision.	Agricultural loans.	Gratuitous relief.
			Rs.
Tippera ...	Sadar ...	4,250	1,660
	Chandpur ...	5,155	...*

Distribution of *aman* seedlings in the areas where crops have been destroyed by flood.

* 12. Have the Government taken any measures for the distribution of *aman* seedlings in those areas where crops have been destroyed by flood ?

The Hon'ble MR. BIRLEY replied :—

"It has been ascertained by inquiries in the villages that *aman* seedlings are available locally in sufficient quantities. In the *barshul* area there is of course no question of seedlings. In the area normally under transplanted *aman* the difficulty does not lie in the availability of seedlings but in the doubt whether the floods will subside from the fields in time. Only a portion of the seed beds were flooded. Some cultivators have seedlings in their own homesteads, while those who have not will be able to purchase them from Kasba and Hill Tippera. The cultivators prefer this arrangement, and one of the main objects of the loans which are now being distributed is the purchase of seedlings."

Alleged deaths from suicide and starvation in the district of Comilla.

* 13. (*a*) Is it a fact that some cases of suicide, owing to distress, have taken place within the district of Comilla ?

(*b*) Have any deaths, which can be traced directly or indirectly to starvation, occurred in the month of August in this district ?

The Hon'ble MR. BIRLEY replied :—

(*a*) "Yes, three cases of suicide, due directly or indirectly to distress, unfortunately occurred in the district of Tippera. Two of the victims were married women and one was a boy of 12.

(*b*) No, so far as Government can ascertain."

By the Hon'ble DR. NILRATAN SARKAR :—

Relief for the poorer *bhadralok* classes in Eastern Bengal.

* 14. (*a*) Are the Government aware that the poorer *bhadralok* classes in Eastern Bengal are mainly dependent on agricultural rents, and that, owing to the low price of jute last year, they received no rents from their tenants ?

(*b*) Are the Government aware that the ordinary measures of relief organised by Government do not usually reach these classes ?

(*c*) What special steps have been taken by Government to afford relief to them ?

Questions and Answers.

The Hon'ble MR. BIRLEY replied : –

(*a*) "Taking the Hindu *bhadralok* classes as Brahmans, Baidyas and Kayasthas, the Hon'ble Member will see from the Census Tables that in the Chittagong Division about 14 per cent. are dependent on agricultural rents and 86 per cent. on other sources. Collections of rent were generally short in 1914-15, but it is not a fact that no rents were collected.

(*b*) Government are aware that many members of the *bhadralok* classes are averse from applying for gratuitous relief from Government, though they have less hesitation in receiving agricultural loans.

(*c*) As regards members of the *bhadralok* classes, who have land and who require agricultural loans, the local officers have been instructed to give them loans as readily as they would do in the case of cultivators of other classes. They have also been instructed to make special inquiries to ascertain the cases of landless members of the *bhadralok* classes who are in real distress and who are prepared to receive gratuitous relief from Government."

By the Hon'ble DR. NILRATAN SARKAR :—

Grant of relief by the Raja of Hill Tippera and other zamindars.

* 15. Will the Government be pleased te state whether relief has been given to their tenants by the Raja of Hill Tippera, the Sarail Estate in Brahmanbaria, now under the Court of Wards, and other zamindars, both resident and non-resident, in the districts of Tippera and Noakhali ?

The Hon'ble Mr. BIRLEY replied :—

"The Raja of Hill Tippera, the Sarail Wards' Estate, and some other zamindars of Tippera and Noakhali have given relief to their tenants."

By the Hon'ble DR. NILRATAN SARKAR :—

Total amounts of money given in agricultural loans and gratuitous relief on the occasion of the floods in Burdwan and Midnapur in 1913.

* 16. Will the Government be pleased to state the total amounts of money given in agricultural loans and gratuitous relief on the occasion of the floods in Burdwan and Midnapur in 1913 ?

The Hon'ble MR. BIRLEY replied :—

"On the occasion of the floods in 1913, Rs. 45,518 was spent by Government on gratuitous relief and Rs. 13,500 was distributed as agricultural loans in the district of Burdwan, while in the district of Midnapore Rs. 20,165 was spent by Government on gratuitous relief and Rs. 2,13,662 was distributed as agricultural loans."

Appointment to posts of Deputy Collectors

III. (*a*) Is it a fact that persons whose educational qualifications are inferior to those of some of the Sub-Deputy Collectors already in service have been appointed to posts of Deputy Collectors?

(*b*) Will the Government be pleased to state why the claims of these Sub-Deputy Collectors have been overlooked?

The following reply by the Hon'ble MR. KERR was laid on the table :—

"(*a*) It is a fact that some Sub-Deputy Collectors have higher academical qualifications than some Deputy Collectors.

(*b*) The claims of these Sub-Deputy Collectors have not been overlooked. Under rule 4 of the rules for the recruitment of the Provincial Civil Service, ordinarily 35 *per cent.* of the number of appointments made in any one year are filled by the promotion of officers who are already in Government service. The number of Sub-Deputy Collectors who can be promoted to be Deputy Collectors every year is thus limited. In dealing with the promotion of officers already in Government service, more consideration is given to good work than to academical qualifications."

Supply of filtered water to the town of Asansol.

IV. Will the Government be pleased to state whether the scheme for the supply of filtered water to the town of Asansol has now been completed and, if so, when the work is likely to be commenced?

The following reply by the Hon'ble MR. DE was laid on the table :—

"Two alternative detailed schemes have been submitted to Government and are under consideration. Work cannot be commenced until it has been decided which scheme will be adopted. It is hoped that a beginning will be made during the current financial year."

Upkeep of roads within the jurisdiction of the Asansol Local Board.

V. (*a*) Will the Government be pleased to state—

(*i*) what was the annual cost of establishment maintained for the upkeep of the roads within the jurisdiction of the Asansol Local Board, calculated for a period of two years, before the Board was empowered to administer the income which it received from the road cess, and

(*ii*) the yearly establishment costs for the upkeep of the said roads for a similar period after the Board was authorised to spend its revenue independently?

(*b*) Will the Government also be pleased to lay on the table a statement showing the names of the roads lying within the jurisdiction of the said Board and the expenditure incurred on each of them for the periods of two years before and after the Board was empowered to administer its own income?

† Although the road-cess collected in the Asansol subdivision was handed over to the Asansol Local Board with effect from the 1st April, 1913, the Assistant Engineer and his staff now working under the Asansol Local Board were appointed in November, 1912, in order that the engineering work of the subdivision might be properly organised before the extra funds were handed over. This accounts for the increased charges in 1912-13.

Alleged distress in the district of Bakarganj.

VI. (*a*) Are the Government aware that there is widespread distress amongst the mass of the population in the district of Bakarganj, especially in the Subdivision of Patuakhali and south of the Pirojpur Subdivision ?

(*b*) Will the Government be pleased to state what measures they are taking to alleviate this distress ?

(*c*) Will the Government be pleased to state the amounts of loans, if any, sanctioned and advanced to the raiyats ?

The following reply by the Hon'ble MR. BIRLEY was laid on the table :—

(*a*) "Government are not aware that there is widespread distress amongst the mass of the population in the district of Bakarganj.

There was a partial failure of the winter rice crop in Bakarganj district in the year 1914-15, and this resulted in some distress during the first half of the year 1915, the most affected areas being the Sundarbans in Patuakhali and Pirojpur Subdivisions, and portions of thanas Mirzaganj and Bakarganj. A good crop of autumn rice is being harvested and the distress, which was at no time very severe, is now nearly over.

(*b*) While distress was prevalent, Government were informed of the situation and the following measures were taken to alleviate the distress :—

(1) Government sanctioned the suspension of Rs. 1,70,000 of rent in the areas under direct Government management;

(2) agricultural loans were distributed;

(3) the Bakarganj District Board took up special work in the affected area with a view to providing employment; and

(4) concessions in the shape of free passes for wood-cutting were granted to distressed raiyats in the Sundarbans Colonization area, and Rangoon rice was distributed as advances.

(*c*) Rupees 43,000 was sanctioned by Government for agricultural loans and Rs. 39,000 was distributed."

By the Hon'ble CHAUDHURI MUHAMMAD ISMAIL KHAN :—

Filling-up of the vacancies in the posts of Deputy Sanitary Commissioners in the Burdwan and Presidency Divisions.

VII. (*a*) Is it a fact that, of the four Deputy Sanitary Commissionerships in Bengal, two posts, namely, those of the Burdwan and Presidency Divisions, have remained vacant since the departure of the permanent incumbents of those posts for the front ?

(*b*) Are the Government considering the question of allotting the duties of the vacant posts to the two Deputy Sanitary Commissioners of the Dacca and Rajshahi Divisions ?

The following reply by the Hon'ble MR. DE was laid on the table :—

"(*a*) The reply to the first part of the question is in the affirmative.

(*b*) Government are considering the question of appointing temporary officers as Deputy Sanitary Commissioners of the Presidency and Burdwan Divisions. It is not considered possible to allot the duties of these posts to the Deputy Sanitary Commissioners of Dacca and Rajshahi Divisions."

By the Hon'ble CHAUDHURI MUHAMMAD ISMAIL KHAN :—

Splitting up of the jurisdiction of the Muhammadan Marriage Registrar of Dacca.

VIII. (*a*) Will the Government be pleased to state whether they have received any note from the Hon'ble Mr. A. K. Gaznavi regarding the advisability of dividing the present jurisdiction of the Muhammadan Marriage Registrar of Dacca into three separate and independent charges ?

(*b*) If so, what action (if any) have Government taken in the matter ?

Questions and Answers.

The following answer by the Hon'ble MR. BIRLEY was laid on the table :—

"Government have received no note from the Hon'ble Mr. A. K. Gaznavi regarding the advisability of dividing the present jurisdiction of the Muhammadan Marriage Registrar of Dacca into three separate and independent charges. At a meeting of the Permanent Committee for the supervision of Muhammadan Marriage Registrars and Kazis in Bengal, held in Calcutta on the 8th April, 1914, a proposal to divide the present jurisdiction of the Marriage Registrar of Dacca and to open an additional office at Keraniganj with jurisdiction over thana Keraniganj was approved. The District Registrar did not support the proposal and the question was again considered at a meeting of the Permanent Committee held at Dacca on the 18th August, 1915, and it was resolved that no steps should be taken for dividing the jurisdiction of the present Marriage Registrar."

By the Hon'ble BABU SURENDRA NATH RAY :—

Expenditure of the Public Works Cess by District Boards on sanitary improvement.

IX. (*a*) Are the Government aware that, from want of definite instructions, the District Boards find it difficult to spend the amount derived from the Public Works Cess in improving the supply of good drinking water in villages, and for other sanitary improvements ?

(*b*) Are the Government considering the desirability of issuing instructions to all District Boards as to how the amount derived from Public Works Cess should be spent ?

The following reply by the Hon'ble MR. DE was laid on the table :—

(*a*) "The answer is in the negative.

(*b*) District Boards have been informed that Government consider it a matter of importance that they should set apart a substantial sum from their increased resources for the sanitation of villages and small towns, for the improvement of water-supply and for anti-malarial measures. A copy of the Circular (No. 388-92 M., dated the 7th February, 1914) is laid on the table."

No. 388-92 M., dated Calcutta, the 7th February, 1914.

From—THE HON'BLE MR. H. F. SAMMAN, I.C.S., Secretary to the Government of Bengal, General Department,

To—The Commissioners of the Dacca, Rajshahi, Chittagong, Presidency and Burdwan Divisions.

I AM directed to refer to Government Order No. 980 T.—M., dated the 3rd November, 1913, addressed to the Accountant-General, Bengal, copy of which was forwarded to you with Memorandum No. 981—85 M., dated the 3rd November 1913. It was stated therein that Government had decided to surrender the Public Works cess to District Boards unconditionally for the present year. In coming to this decision the Governor in Council was influenced by the consideration that District Boards are in an exceptional position to gauge local requirements, and to determine accordingly to what specific purpose this addition to their income can most profitably be devoted. While leaving the District Boards a free hand in the expenditure of this income for the current year, His Excellency in Council desires to impress upon them the importance of setting apart a substantial sum for the sanitation of villages and small towns, for the improvement of water-supply and for anti-malarial measures.

2. Instructions have already issued regarding the measures to be taken for providing a pure water-supply in the interior. The question to which I am to invite special attention at the present time is the prevention of malaria. The value of quinine as a remedy for this disease has been abundantly proved, but the efficacy of the drug is largely dependent on the adequacy of the quantities in which it is administered. The attention of Government has been directed to the fact that the average quantity of quinine administered to each patient in District Board dispensaries falls far short of the minimum necessary for effective treatment. The Inspector-General of Civil Hospitals has now issued instructions to all Civil Surgeons to see that in future adequate quantities of quinine are given in all cases of malaria. Compliance with these instructions will involve considerable additional expenditure. This is a legitimate charge upon District Boards and should be met without difficulty out of their increased resources. The wide prevalence of malaria in this Presidency and its baneful effects on the people have long been recognised, and the importance of taking adequate measures for the prevention and cure of this disease cannot be overestimated. The Governor in Council trusts that District

Boards will realize the pressing necessity of bringing within the reach of the people a mode of treatment pronounced to be effective after continued research by competent persons.

3. I am to request that you will communicate the wishes of Government in this matter to all District Boards within your division. A copy of the Circular No. 31, dated 20th August 1913, issued by the Inspector-General of Civil Hospitals to all Civil Surgeons, is appended.

Circular No. 31, dated Calcutta, the 20th August, 1913.

From—LIEUTENANT-COLONEL W. R. EDWARDS, C.M.G., M.D., I.M.S., Offg. Inspector-General of Civil Hospitals, Bengal,

To—All Civil Surgeons.

THE Malaria Committee have brought to the notice of Government that, according to the result of careful investigations made by the two Malaria Research Officers employed in this province, the amount of quinine given to patients who apply for treatment at Government dispensaries is entirely inadequate to cure even mild cases of malarial fever. This statement is supported by figures for various districts.

2. The Committee also state that the failure of the quinine given to relieve patients of their fever symptoms is one of the main reasons why quinine is looked upon with such disfavour by the people generally, and this is borne out by the fact that patent medicines, which contain large doses of quinine and are sold at a much higher price, find a ready market. This attitude of the public in regard to the efficacy of quinine is a great drawback to attempts to improve the general health of certain tracts of the country, and in the opinion of Government steps should be taken to remove it at once.

3. Although there are many problems which have yet to be decided on the subject of the treatment of malaria with quinine, there can be no doubt whatever that no good results are likely to be obtained by the administration of inadequate doses of the drug. Even mild cases require about 80 grains and more malignant cases considerably larger quantities before recovery can be expected. While Government have no wish to interfere with the treatment of patients by medical officers, they desire it to be distinctly understood that all patients suffering from simple uncomplicated malaria should receive an adequate amount of quinine sufficient to cure them of the malady. In their case the amount of quinine to be given should ordinarily be never less than 80 grains or one "treatment" of quinine. The "treatments" which consist of 20 tabloids each of 4 grains in test tubes will be supplied to dispensaries. These tubes should under no consideration be opened, and at least a whole test tube should be given to each patient who requires treatment by quinine. In cases of children 80 grains of quinine are unnecessary, but even in these cases a full "treatment" should be given with suitable instructions and the parents may be allowed to retain what is not required of the "treatment" for future use. I am to add that these instructions do not in any way interfere with the discretion of the medical officers to make use of a diaphoretic or a saline purgative as well as quinine. Separate Register should be kept for malarial cases.

Teaching of the vernacular in European Schools for girls.

X. (*a*) In view of paragraph 18 of the Resolution on Indian Educational Policy issued by the Governor General of India in Council on the 21st February, 1913, will the Government be pleased to state whether they are considering the desirability of making it possible for the girls of the domiciled community to serve in Indian vernacular girls' schools in Bengal, provided they are conversant with the vernaculars of the country?

(*b*) Will the Government also be pleased to state—

(*i*) which European schools for girls in Bengal provide instruction in a vernacular; and

(*ii*) how many girls are studying the vernaculars in such schools?

Questions and Answers; The Bengal Decentralization Bill.

Mr. Beatson Bell.

(*c*) Are the Government considering the desirability of taking such steps as may be necessary to raise the standard of the teaching of the vernaculars in European schools for girls in this Presidency?

The following reply by the Hon'ble MR. DE was laid on the table :—

(*a*) "Government have not considered the desirability of making it possible for the girls of the domiciled community to serve in Indian vernacular girls' schools in Bengal. The supply of teachers for European schools is inadequate.

(*b*) A statement giving the desired information is laid on the table.

(*c*) The answer is in the negative."

THE BENGAL DECENTRALIZATION BILL, 1915.

THE Hon'ble Mr. Beatson Bell presented the report of the Select Committee on the Bengal Decentralization Bill, 1915, and moved that the said report be taken into consideration.

He said :—

"My Lord,

I present the report of the Select Committee on the Bengal Decentralization Bill, 1915. The House will be glad to see that our report is entirely unanimous. When I introduced this Bill at Dacca there were indications that the clauses relating to the Bengal Municipal Act would be somewhat contentious. In Select Committee we followed the wise adage that when you meet a difficulty you should look it straight in the face, and then pass on. In other words, we decided that, as the Bengal Municipal Act is shortly to come up for general revision, it would be better to postpone the

consideration of these amendments until that general revision is undertaken. We took the same line regarding certain amendments of the Partition Act, that standing dish of 'Commissioners' Conferences'.

As I foreshadowed at Dacca, we have inserted some amendments of the Cess Act, which were not in the original Bill. These are of a non-contentious nature.

"Lastly, I should explain, in accordance with a promise given in Select Committee, that I have re-examined the item which relates to the confirmation, under section 10 of Bengal Regulation VII of 1822, of settlements of land revenue. I find that the case stands as I thought. It has always been the practice that settlements of land revenue should be confirmed by a higher or lower authority according to the amount of land revenue concerned. The existing rule is embodied in paragraph 707 of the Settlement Manual. The object of the present amendment is to enable Government to replace a non-statutory by a statutory rule. No new question of principle is involved. I again congratulate the House on the fact that our report is unanimous."

The motion was put and agreed to.

The Hon'ble Mr. Beatson Bell moved that the Bill be passed.

He said :—

"As no amendments have been moved, I beg to move that the Bill as amended by the Select Committee be passed."

The motion was put and agreed to.

LIST OF BUSINESS—ITEM No. 5.

THE BENGAL SMOKE-NUISANCES (AMENDMENT) BILL, 1915.

THE Hon'ble Mr. Beatson Bell moved for leave to introduce a Bill to amend the Bengal Smoke-nuisances Act, 1905.

He said :—

"My Lord,

I move for leave to introduce a Bill to amend the Bengal Smoke-nuisances Act, 1905.

To those who are condemned to live in towns there is perhaps no greater misfortune than the absence of the pure air of the country. The ruler who does something to purify the air of a great city is a real benefactor of his subjects. The city of Calcutta, the second city of the Empire, is under many obligations to Lord Curzon; but one of the greatest of these obligations lies in the fact that Lord Curzon took real steps to purify our air. It is to him that we owe the establishment of the Bengal Smoke-nuisances Commission, constituted under the Act of 1905. That Commission has been working for 10 years and has a record of good work of which any commission might be proud. But these ten years have shown us that the Act is defective in several particulars. The present Bill is a practical attempt to remove these defects. The Bill is accompanied by a full statement of the 'Objects and Reasons' of all our amendments. I need not go over them in detail, but I will briefly draw attention to a few of the main points.

In the first place, the word 'furnace' is so defined in the present Act that hotels, clubs and similar institutions are free from the attentions of the Commission. This is obviously a serious defect. We therefore propose, following the precedent of Bombay, to bring these institutions under the Act while still exempting fireplaces used in private houses for *bonâ-fide* domestic purposes.

The Bengal Smoke-nuisances (Amendment) Bill.

Mr. Beatson Bell.

In the next place, we propose to empower the Commission to approve the plans of any 'furnace, flue or chimney' before it is erected or altered. It is no real kindness to allow a man or a company to erect a furnace of defective construction and then fine him because the furnace is a public nuisance. It is better for all concerned that the defect should be pointed out at the earliest possible stage. Prevention is better than cure, and very much better than the Police Court.

Another point in which the Act has been found to be defective relates to brick kilns and lime kilns. The Commission has already power to regulate their erection, but it has no power to regulate the use of kilns erected before the Act came into force. This defect we propose to remedy by the insertion of the word 'use' in section 6.

We also ask for increased powers in the matter of coke-making in open places, and we propose to declare (which seems to be quite reasonable) that the Inspectors who work under the Act are 'public servants' vested with the privileges and liable to the duties which attach to such servants.

I have left to the end the one clause which may be, but which I trust will not be, controversial—namely, the clause which deals with the present 'close time' for ocean-going steamers. Everyone who walks along the Strand Road must have been struck by the volume of smoke which is often pouring from the funnels of steamers about to leave the port. As the law now stands, ocean going steamers are altogether exempted from the operation of the Act for a period (to be fixed by Government) prior to their leaving the port. This period has actually been fixed at two hours. It has been found by careful observations that although the process of stoking preparatory to departure lasts about 24 hours it is during the two hours of statutory 'close time' that the pollution of the atmosphere chiefly occurs. We have ascertained that in no port in Great Britain do steamers enjoy any statutory 'close time'. For the entire period of their preparatory stoking they are liable to the ordinary law. As a result, the stokers practise careful and scientific stoking during the whole period. It is doubtless due to this fact that the liners which ply between Calcutta and Great Britain are seldom among the offenders in Calcutta. The stokers of these steamers have learned to be careful while in Great Britain, and in spite of the fact that they have a 'close time' in Calcutta they seldom take advantage of the fact. For this, they deserve and should receive the thanks of the citizens of Calcutta. Other ocean-going steamers have, I regret to say, been less considerate. For several years past the matter has attracted the anxious attention of the Smoke Commission. It was proposed in 1912 to amend the law by withdrawing the 'close time.' As a result the stokers became more careful and the percentage of bad offenders—those emitting what is technically known as 'scale 6 smoke'—dropped to 5 per cent. We were in hopes that legislation would not be necessary, but the fear of an amendment in the law apparently passed away and since then things have gone from bad to worse. The table of bad offenders is as follows :—

June, 1912	...	...	...	5·0	per cent.
September, 1913	...	...	...	5·1	"
March, 1914	...	...	...	10·3	"
September, 1914	...	...	...	26·64	"
March, 1915	...	...	...	20·1	"
September, 1915	...	...	...	22·27	"

If we take the average emission in minutes per hour of the three densest scales of smoke we fined similar results :—

June, 1912	...	...	...	·68	minutes	per hour.
September, 1913	...	...	...	1·47	"	"
March, 1914	...	...	...	1·52	"	"
September, 1914	...	...	...	2·85	"	"
March, 1915	...	...	...	2·62	"	"
September, 1915	...	...	...	3·18	"	"

The Bengal Smoke-nuisances (Amendment) Bill; Resolutions.

Mr. Beatson Bell; the President.

I shall not weary the House with further statistics, which are necessarily of a technical and smoky character. The figures which I have already quoted will show that we have not acted in a hurry. After anxious consideration we have come to the conclusion that the 'close time' should be withdrawn and that steamers should be governed by the ordinary law during the two hours in question. That is to say, they will be governed by rules framed under the Act just as factories are governed all the day, and just as steamers are now governed at all times with the exception of these two hours. We can assure the steamer companies that the rules which we propose to frame will not be harsh or unreasonable and they will be framed after consultation with the companies concerned. We are aware that in the course of the preliminary correspondence the Bengal Chamber of Commerce has opposed this amendment and has urged the retention of the 'close time.' This attitude of the Chamber is somewhat remarkable. They have two representatives on the Smoke Commission. These representatives have joined with the other members of the Commission in urging Government to abolish the 'close time', and yet the Chamber has taken the opposite view. Be this as it may, we know that the purity of the air of Calcutta is as dear to the members of the Chamber as to any other citizens of Calcutta and we appeal to them in all confidence to assist us in doing whatever is right and reasonable. I do not yet ask that this Bill should be sent to a Select Committee. It is desirable that all public bodies who are interested, including of course the Chamber of Commerce, should see the Bill in its final form and should consider it very carefully. The Bill will therefore be circulated for opinion and at a future meeting of the Council I shall ask that it be referred to a Select Committee."

The motion was put and agreed to.

RESOLUTIONS

(*under the Rules for the discussion of matters of general public interest*).

The Hon'ble Maulvi A. K. FAZL-UL-HAQ was to have moved the following resolutions :—

1. "This Council recommends to the Governor in Council that steps be taken to provide special travelling allowance rates for district sub-registrars and district joint sub-registrars in the districts of Bakarganj, Faridpur, Noakhali and Chittagong."
2. "This Council recommends to the Governor in Council that steps be taken to provide floating dispensaries for the Eastern Bengal districts of the Presidency."
3. "This Council recommends to the Governor in Council that all existing circulars, relating to the extension of the appointments of Muhammadans in certain branches of the public service, be made applicable to all departments in the public service; and that all heads of departments be directed to submit quarterly reports on the working of such circulars, and that copies of such reports be circulated to all recognised Anjumans and Muhammadan public bodies."

HIS EXCELLENCY, THE PRESIDENT, said :—

"Under Rule 10 of Bengal Legislative (Resolution) Rules, 1912, and at the request of the Hon'ble mover, I postpone the moving of items Nos. 6, 7 and 8 in the List of Business to a later meeting of the Council."

The discussion of the Resolutions was accordingly postponed.

The President.

THE PRESIDENT'S ADDRESS.

HIS EXCELLENCY, THE PRESIDENT, said :—

"Our labours are now ended and in a few moments it will be my duty to close this session by adjourning the Council.

It has been the custom for the President to say a few words before declaring that the Council stand adjourned at the end of the September session. I do not propose to depart from the custom, but my words will be very few.

We have—since our last meeting—lost by death one of our members—the Hon'ble Raja Dinendra Narayan Roy—who died on the 26th August, exactly a year after the day—August 26th, 1914, when he was elected to represent the Corporation of Calcutta in the Council. I feel sure I am doing what you would like me to do when I say we mourn his loss.

A year ago I referred particularly to the war and I shall do so again now. We understand better now than we did then; what war means for us, and for the Empire, and we probably look at things in a truer proportion. Our general feeling is, I fancy, that while a year ago we hoped that we had every ground for confidence—we even believed we had—it was a belief that was based rather on faith than on knowledge; but now we know from experience that we have a right to be confident.

We realise now that the strength of the British Empire, whether by land, or by sea—or in the air—has not failed us. We may, some of us, have looked a year ago for some striking display of naval force. Some of us may even be disappointed that from lack of opportunity there has not been such a display—but I think very few of us realised then how rapidly and completely the British Navy would control the whole of the seas and secure that the commerce of this Empire should nowhere be destroyed. No part of the Empire has gained more by this than Calcutta. The trade of Calcutta has been maintained as few could have expected. As for our land forces—no one can deny that they have far exceeded anything we looked for 12 months ago: we here in India did not then know that India would play the part she has done—a part of which we are so proud.

There have been scares, there have been alarmist rumours during the last 12 months. These have done some harm—we may not be quite free of them yet—but some of us are surer than we were then, that these rumours are groundless and do most harm to those who believe them. You have all, I hope, done your best to prevent the spread of such rumours, and for that you deserve thanks. When I turn to things of which we have more personal knowledge, I shall only refer to one—the distress at present in some parts of the Presidency due to the floods. I hope you are all convinced that Government realise the situation and realise their duty.

My colleague, the Hon'ble Mr. Beatson Bell, said to-day that in the treatment of smoke-nuisance no one could claim that the Government of Bengal have moved with undue haste. I fear some of you who are quick thinkers are not satisfied that Government in some other matters act as rapidly as you would like. But I hope you feel that Government will act, and act according to their knowledge as soon as they are convinced of the need for action. There has been need here, and I would like to take this opportunity of thanking those who, in their private capacity, have co-operated with Government in bringing much needed relief to those who are suffering. I thank both those who have given help in the form of service and those who have given it in the form of money: and I would take this opportunity of letting it be known that His Excellency the Viceroy has kindly promised Rs. 1,000 to be used in the relief of this distress. For that I am sure not only will the sufferers themselves be grateful to His Excellency, but all those who sympathise with them and who wish well to Bengal."

ADJOURNMENT.

The Council was then adjourned *sine die.*

GANGES TRAINING WORKS.

No. 3719*I*.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

Dated Calcutta, the 13th September 1915.

IN Bengal Government No. 4377*I*., dated the 16th September 1912, published at pages 1275-76 of the Supplement to the *Calcutta Gazette* of the 18th idem, a brief report was published showing the action taken by this Government to keep the main channel of the Ganges open for large river steamers between Dighaghat and Goalundo up to the year 1911-12. The subsequent action taken in this respect is published for general information.

F. A. A. COWLEY,

Secy. to the Govt. of Bengal.

In the year 1912-13, Government again decided to continue the conservancy operations, and a steamer was chartered from the India General Navigation and Railway Company, Limited, for six months, for the use of the Public Works Departmental Officers in charge of the Conservancy Works. The number of shoals trained was 16 and the length of bandals erected 43,154 running feet. The result of the season's work was that a minimum depth of water varying from 5 to 8 feet was maintained over all the shoals trained with the exception of the Bazitpur shoal where the depth was reduced to 4 feet 6 inches for one week only. The cost to Government during the season was Rs. 26,968 inclusive of all charges. This amount would have been considerably increased but for the fact that the materials for training works were carried free of cost by the Steamer Companies, interested in the work.

2. These training works were continued during the working seasons of 1913-14 and 1914-15. During the season of 1913-14 a steamer was chartered from the India General Navigation and Railway Company for the use of the Public Works Department Officers. The number of shoals trained was 20 and the length of bandals erected 44,190 feet. The least depth of water maintained was 5 feet throughout the season over two shoals and from 5 feet 6 inches to 7 feet 6 inches over all others. The cost to Government for this season's operations was Rs. 33,577 and the bandal materials were as before carried free of cost by the Steamer Companies. During the working season of 1914-15, 21 shoals were trained and 65,805 running feet of bandals erected. A minimum depth of 6 feet was maintained over all shoals trained; in two cases the shoals did not yield to bandalling but new and good channels opened of their own accord. A steamer was also hired from the Steamer Companies for the use of the officers engaged in supervising the training works. The cost to Government for this season's work was Rs. 33,347 and bandal materials were as usual carried free of cost by the Steamer Companies.

3. The table below shows the number of shoals trained, the length of bandals erected and the cost incurred during each of the three seasons, under review :—

	Number of shoals—			Length of bandals—			Total cost.
	In Bengal.	In Bihar and Orissa.	Total.	In Bengal.	In Bihar and Orissa.	Total.	
							Rs.
1912-13 ...	1	15	16	900	42,254	43,154	26,968
1913-14 ...	5	15	20	15,000	29,190	44,190	33,577
1915-16 ...	4	17	21	14,000	51,805	65,805	33,347

4. In future the conservancy of that portion of the Ganges which lies in Bengal proper, *i.e.*, from Rajmahal to Damukdia, will be carried out under the orders of the Government of Bengal and the conservancy of the river between Digha and Rajmahal by the Government of Bihar and Orissa.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR AUGUST 1915.

I. *Character of the season.*—The rainfall during the month was in defect of the normal in all the districts of the Burdwan Division and also in the Murshidabad, Jessore, Pabna and Malda districts. It was in excess in the rest of the province. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—The transplantation of winter paddy and the harvesting of *aus* paddy and jute were in progress throughout the province. The transplanting operation was, however, somewhat retarded in many western districts by the insufficiency of rainfall and also in some eastern districts by unusually heavy rainfall and flood.

III. *State of the standing crops.*—The state of standing crops was generally fairly good except in parts of the Eastern Bengal districts, where their condition was less favourable owing to excessive rainfall and floods.

IV. *Prospects and probable outturn.*—The prospects of the *aus* paddy crop were reported to be poor in the Bankura district; they were, however, fair to good elsewhere. The prospects of the jute crop were generally more satisfactory in the Western Bengal than in the Eastern Bengal districts.

V. *Damage to standing crops.*—The standing crops in the eastern districts suffered greatly on account of the floods throughout the month. Some damage by insects was reported from parts of the 24-Parganas, Nadia, Jessore, Khulna and Birbhum districts during the first two weeks. Owing to the scanty rainfall the *aman* paddy seedlings were reported to be withering in parts of the Burdwan Division.

VI. *Condition of agricultural stock.*—The condition of agricultural stock was fair. Cattle-disease was found to be prevalent in parts of the 24-Parganas, Nadia, Murshidabad, Khulna, Midnapore, Hooghly, Darjeeling, Cooch Behar, Mymensingh, Chittagong and the Chittagong Hill Tracts.

VII. *Failure of pasturage and fodder.*—Fodder was scanty in parts of the Pabna, Dacca, Mymensingh and Tippera districts.

VIII. *Prices of food-grains.*—During the second fortnight of the month under review the price of common rice rose in fourteen districts, fell in three, and remained stationary in the rest. It varied from 5 srs. 14 ch. per rupee at Tippera to 8 srs. a rupee at Jessore, Bakarganj and Chittagong.

IX. *Condition of agricultural people.*—The condition of agricultural population throughout the province was fair excepting in Bankura, Noakhali and Tippera, where some distress existed during the month. Gratuitous relief and agricultural loans were given on a large scale, and the District Board road works were also opened to give employment to the labouring classes.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 13th September 1915.

Summary.—During the week under review light-to-moderate rain fell throughout the Province. More rain is urgently needed in the western districts for the growth of the winter rice crop. The transplanting of winter rice is nearing completion; weeding is going on. Harvesting of autumn crops is in progress. The prospects of standing crops in East Bengal, except in the flooded tracts, are generally reported to be satisfactory. Fodder is scanty in parts of Pabna, Dacca, Mymensingh and Tippera. Cattle-disease is reported from ten districts. Scarcity exists in Bankura and Tippera. The number of persons employed daily under the District Board road works in Bankura amounted to 5,633. The average price of common rice for the province has risen by about 1·6 per cent., as compared with that of the previous week.

GOVERNMENT OF INDIA TERMINABLE LOAN.

NOTICE AS TO THE CONDITIONS ON WHICH THE PUBLIC MAY SUBSCRIBE THROUGH THE POST OFFICE.

THE Government are raising this year's loan in a new form carrying 4 per cent. interest. It will be repaid in full not later than November 1923, but Government can repay it, if they wish, any time after October 1920.

2. Rupees 4½ crores have already been raised in the usual way by the receipt of applications at Calcutta, Madras, Bombay and other large centres, and, so far, the loan is now closed. But in addition a special opportunity is being given to persons who wish to take up the loan in small amounts, whether they are savings bank depositors or not, of subscribing through the nearest post office which transacts savings bank business.

HOW TO SUBSCRIBE.

3. Applications through the post office can be made any time up to the 30th October.

4. Applications must be for even hundreds of rupees and for not less than Rs. 100 and not more, in the case of any one applicant, than Rs. 5,000.

NOTE.—An applicant may apply for the new loan up to Rs. 5,000, notwithstanding that he already holds 3½ per cent. Promissory notes previously purchased through the post office.

5 A person desiring to apply must fill up the form below, which can also be obtained at any post office which transacts savings bank business. He must at the same time pay the full amount for which he applies. For this purpose he can use the money in his savings bank account if he is a savings bank depositor, or he can pay in cash direct. The applicant may go to the post office himself or send a messenger. All amounts paid will be acknowledged.

6. For every Rs. 100 which the applicant pays he will receive Government Promissory notes for the same amount.

CUSTODY OF PROMISSORY NOTES.

7. The notes may either be kept by the applicant in his own custody, or, if he prefers, they may be retained in the custody of the post office authorities on his behalf. He should state which method he prefers in filling up the form of application. If he wishes to keep the notes himself, the post office will advise him when they are ready for delivery, and, on his presenting himself personally, they will be made over to him. If he decides to leave them with the post office, his personal attendance will not again be required, but the post office will send him an intimation in due course that they have been received and are held on his behalf. Should he at a later date desire to keep the notes himself they will then be made over to him.

PAYMENT OF INTEREST.

8. Interest at 4 per cent. a year will be paid half-yearly, *i.e.*, 2 per cent. on the 31st May and 2 per cent. on the 30th November every year. For the broken period from the date of subscription to the 30th November next, interest will be paid in cash at the time the Promissory notes are delivered if the applicant keeps them himself, or will be credited into the savings bank account mentioned in the next paragraph if he leaves the notes in the custody of the post office authorities.

9. If the applicant decides to leave his Promissory notes in the custody of the post office authorities, the latter will draw the interest for him regularly each half year and credit the amount into a savings bank account which will be opened for this purpose in his name. The post office will also inform him from time to time whenever interest is thus received. No charge will be levied for this service, and no income-tax will be deducted in making the half-yearly payments of interest.

If he keeps the Promissory notes himself, income-tax will be deducted from interest in the usual way at the time the half-yearly payments are made.

SALE OF PROMISSORY NOTES.

10. If at any time a savings bank depositor who holds Promissory notes in this new loan, which have been purchased through the post office by the procedure here described, desires to sell them again, or any part of them, the post office will arrange this for him without charging brokerage or other fees. Full particulars as to this can be obtained from the post office at any time.

FORM OF APPLICATION.

I _____

HIGH COURT NOTICES.

THE following amendments made by the High Court of Judicature at Fort William in Bengal in "The Rules of the High Court, Calcutta, Appellate Side," 1914, are published for general information.

By order of the High Court,

H. M. VEITCH,

Registrar.

HIGH COURT:

CRIMINAL,

The 13th September 1915.

Cancel Rules V and VI at page 100, and *substitute* therefor the following :—

V. In every case in which notice has been issued on the Appellant that an Appeal will be heard, the Registrar shall, on receipt of the Record from the Lower Court, cause a copy to be made in manuscript of the record of the proceedings of the Court whose sentence or order is under appeal, for the use of the Division Court at the hearing.

Exceptions.—Unless otherwise ordered, no copies need be made of the records :—

(1) in cases where no pleaders appear ;

(2) in cases in which pleaders appear :—

(*a*) where the appeal is admitted on a question of sentence only ;

(*b*) where the appeal is from the order of a Presidency Magistrate.

[*Note.*—The "record of the proceedings of the Court whose sentence or order is under appeal" means the 'A' file of the Lower Court (including maps, if any) and the exhibit file if there is one. The documents included in the 'A' file are those specified in Rule 3, pages 72-75, Chapter III, Volume I, of the High Court's General Rules and Circular Orders, Criminal. The petition of appeal is also briefed.]

VI.—In every case in which the correctness, legality or propriety of the finding, sentence, or final order of a Criminal Court is under consideration for the purposes of revision, a brief shall be prepared for the use of the Division Court at the hearing. No copy of the record of the evidence, however, shall be made, unless the Division Court shall specially direct this to be done.

Exceptions.—Unless otherwise ordered, no copies need be made of the records :—

(1) in cases where no pleaders appear ;

(2) in cases in which pleaders appear :—

(*a*) where a Rule is granted or a reference is made on a question of sentence or jurisdiction only ;

(*b*) where a Rule or Reference is confined to matters appearing in a judgment ;

(*c*) in cases sent by, or brought up from, the Presidency Magistrates.

[*Note.*—Except as provided above, the brief should include the documents comprising the 'A' file of the Lower Court or Courts (if the order for revision has been dealt with by more than one Court) and specified in Rules 6 and 9, pages 76-79, Chapter III, Volume I, of the High Court's General Rules and Circular Orders, Criminal. The petition and affidavit filed in the High Court, the Court's order issuing the Rule, and the Magistrate's explanation should also form part of the brief.]

THE undermentioned Mukhtar having withdrawn the security deposited by him under the rules of the Court has ceased to be a Mukhtar of the High Court on its Appellate Side. His certificate has been cancelled and his name removed from the Roll :—

PLEADERS' SURVEY CLASSES, 1916.

1. Classes for the training of pleaders in surveying will be opened in January and February 1916 in connection with the Civil Engineering College, Sibpur, the Bihar School of Engineering, Bankipur, the Dacca School of Engineering, and the Survey School at Cuttack, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the heads of the institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires, to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 30th November. His application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centres, and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed :—

(*a*) Practical work—

Chain surveying, Prismatic compass surveying, Plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.
Construction of scales.
Mensuration of areas.
Plotting.
Variation of compass.
Preparation of field-books from maps.
Elementary principle of levelling.

(Modified in Government Notification No. 320J.D., dated 16th July 1914.)

1. The next examination will be held in February 1916 and will be conducted at the following centres (provided that not less than five names be registered at each centre) :—Sibpur and Dacca in Bengal, and Bankipur and Cuttack in Bihar and Orissa.

2. Each examination is completed in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the Examiner in it.

3. Candidates practising in the Courts of the Presidency and Burdwan Divisions will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhoot, Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Rajshahi, Dacca and Chittagong Divisions at Dacca.

4. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

5. No candidate will be admitted to the examination unless he has been enrolled as a pleader and

(*i*) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack or Dacca in 1912, 1913, 1914 or 1915, and has not previously appeared at the examination more than twice, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer Examination, or

(*iv*) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(*v*) has been specially exempted from the operation of this rule by the Board controlling the examination.

6. A candidate wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose Court he is enrolled, and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 11th January. The form may be had from the Principal, Civil Engineering College.

7. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, *which fee will in no case be returned.*

8. The exact date of the examination and the proposed programme will be published in the *Calcutta, Bihar and Orissa*, and *Assam Gazettes.*

B. HEATON,

Principal, Civil Engineering College, Sibpur, and Secretary to the Pleaders' Survey Examination Board.

SIBPUR,

The 18th September 1915.

DACCA DIVISION.

Rules for the Admission of Private Candidates to the University Matriculation Examination, 1916.

1. A student who has not attended any school, recognised or unrecognised, for at least one year previous to the examination will be treated as a private candidate. Teachers of schools are also considered as private candidates.

2. Private candidates desirous of sitting at the ensuing University Matriculation Examination must appear at the test examination of one of the undermentioned schools to be held on the 6th December 1915 and the following days:—

1. Dacca Collegiate School.
2. Mymensingh Zilla School.
3. Faridpur Zilla School.
4. Barisal Zilla School.

3. Every private candidate must submit his application for admission to the test examination on or before the 1st November 1915 to the head master of one of the schools named above where he intends to appear, producing a certificate from a respectable gentleman to the effect (1) that he has not attended any school, recognised or unrecognised, for at least one year previous to the examination, (2) that his conduct and character have been good. (3) that he has diligently and regularly prosecuted his studies and has been subject to proper discipline.

A student who failed to pass the annual examination for promotion to class X at the end of the session 1914 and then left the school should not be allowed to sit at the examination.

4. He should also forward with his application his transfer certificate from the school (if any) in which he last read, or the Registrar's receipt (if he appeared at any previous Entrance Examination) or a certificate from a respectable person with personal knowledge of the facts of the case that he has never been to any school.

5. No one will be admitted to the test examination unless he shall produce satisfactory evidence that he will have completed the age of sixteen years on the 1st day of March 1916. For the purpose of this rule the age as recorded in a transfer certificate from a recognised school or in the Registrar's receipt (in case of those who appeared at any previous examination) will be accepted. Those who have never read in any school must produce either their horoscope or an affidavit sworn by their parents or guardians before a competent Magistrate declaring their age.

6. Every private candidate shall state in his application his name, father's name, date of birth, residence, postal address and the following particulars:—

1. Whether he appeared at the Entrance Examination in any previous year.
2. Language in which (besides English) he is to be examined.
3. Vernacular language for composition.
4. Vernacular language from which translation is to be made into English in the 1st English paper.
5. Which of the following subjects taken up—

*(*a*) Additional Mathematics.	(*c*) History.
(*b*) Additional paper in classical language.	(*d*) Geography.
	(*e*) Elementary Mechanics.

7. Every private candidate must pay a fee of Rs. 2 to the head master of the school at which he appears for examination. After payment of the necessary expenses the balance of the fees will be paid to the examiners as remuneration.

8. On the date of examination, he must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, otherwise he will not be admitted to the test examination.

9. The head masters of the schools named above should send to this office for orders a statement in duplicate showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination. The application forms of candidates who are declared eligible should be forwarded to this office for countersignature duly filled in and signed and accompanied by the documentary evidence referred to in paragraphs 3, 4 and 5.

10. Private candidates should arrange to remit their examination fees, together with the countersigned application forms, direct to the Registrar, so as to reach him on or before the 17th January 1916. The fee payable by each candidate for the examination is Rs. 12.

11. The Matriculation Examination for 1916 will be held on the 1st March and the following days.

F. C. TURNER,

Offg. Inspector of Schools, Dacca Division.

DACCA, *the 9th September 1915.*

Dr. CHANDER'S SCHOLARSHIP IN MATERIA MEDICA AND THERAPEUTICS.

THE above scholarship of the value of Rs. 361-8 will be awarded to the best successful candidate who will be selected at an examination to be held this year in November 1915:—

(1) The examination is open to all senior students of the Medical College, Calcutta.

(2) Any ex-senior student of the Medical College, who may, at the time of the examination, be studying at any Medical College in India or Europe.

(3) Any graduate or licentiate in medicine of whatever standing and however employed, who may have obtained either in Europe or in India a medical diploma or degree entitling him to practise medicine, provided that such graduate or licentiate at some time received a portion of his professional education in the Medical College, Calcutta.

Certificates to the effect that the candidate fulfils the above requirements, together with one of good moral character signed by a person of respectability, should be submitted to the Principal, Medical College, Calcutta, on or before the 10th October 1915.

Candidates are required to write a thesis on "An enquiry into the pharmacological properties and therapeutical uses of Astera-Cantha Longifolia" and submit the same to the Professor of Materia Medica and Therapeutics, Medical College, Calcutta, by the 30th November 1915.

Personal attendance at the examination is not necessary.

Preference will be given to the candidate whose thesis bears evidence of original investigation of any worth in connection with the above plant.

The scholarship will be tenable for one year; but it may be tenable for two years in case of exceptional merit, on the recommendation of the examiner.

J. T. CALVERT, M.B., M.R.C.P., LT.-COL, I.M.S.,

J. N. GUPTA, Collector.

Rangpur, the 27th July 1915.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Singhjani-Fulchary Railway, in the district of Mymensingh, will be put up to sale at the Subdivisional Court at Jamalpur at 10 o'clock on the 11th October 1915, corresponding with the 24th Aswin 1322 B.S.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the land close than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the authorities confirming the sale.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th September 1915:—

No. 10 OF 1915.

A bill further to amend the Indian Trusts Act, 1882.

II of 1882. WHEREAS it is expedient further to amend the Indian Trusts Act, 1882; It is hereby enacted as follows:—

Short title. 1. This Act may be called the Indian Trusts (Amendment) Act, 1915.

Amendment of section 20 of Act II of 1882. 2. In section 20 of the Indian Trusts Act, 1882 (hereinafter called the said Act), the following amendments shall be made, namely:—

(*i*) To clause (*b*), the following proviso shall be added, namely:—

"Provided that, after , no money shall be invested in any such annuity being a terminable annuity unless a sinking funds has been established in connection with such annuity; but nothing in this proviso shall apply to investments made before the date aforesaid."

(*ii*) After clause (*b*), the following new clause shall be inserted, namely:—

"(*bb*) in India three and a half per cent. stock, India three per cent. stock, India two and a half per cent. stock or any other capital stock which may at any time hereafter be issued by the Secretary of State for India in Council under the authority of an Act of Parliament and charged on the revenues of India;" [*Cf.* 56 & 57 Victoria, c. 53, s. 1 (*b*).]

(*iii*) In clause (*c*) after the word "Council," the words "or by the Government of India" shall be added.

Insertion of new section 20A. in Act II of 1882. 3. After section 20 of the said Act, the following section shall be inserted, namely:—

Power to purchase redeemable stock at a premium. "20 A. (*1*) A trustee may invest in any of the securities mentioned or referred to in section 20, notwithstanding that the same may be redeemable, and that the price exceeds the redemption value: [*Cf.* 56 & 57 Vict., c. 53, s. 2.]

Provided that a trustee may not purchase at a price exceeding its redemption value any security mentioned or referred to in clauses (*c*) and (*d*) of section 20 which is liable to be redeemed within fifteen years of the date of purchase at par or at some other fixed rate, or purchase any such security as is mentioned or referred to in the said clauses which is liable to be redeemed at par or at some other fixed rate at a price exceeding fifteen per centum above par or such other fixed rate.

(*2*) A trustee may retain until redemption any redeemable stock, fund or security which may have been purchased in accordance with this section."

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to extend the powers of trustees in the matter of the investment of trust funds somewhat on the lines of sections 1 and 2 of the Trustee Act, 1893 (56 & 57 Vict., c. 53). Section 20, clause (*b*), of the Indian Trusts Act 1882, (II of 1882), unlike the English Act, does not allow the investment of trust funds in India sterling stock, a defect which it is proposed to remedy. The same clause permits investment not only in annuities of the class in connection with which sinking funds have been established, but also in terminable annuities without sinking funds, such as the A annuities created on the purchase of certain Indian Railways. Annuities of the latter class are not regarded as suitable for the investment of trust funds, and it is proposed to exclude them from the scope of the clause, but not to prejudice the position of trustees who may have bought them already. The necessary provision is made in sub-clauses (*i*) and (*ii*) of clause 2 of the Bill.

2. Clause (*c*) of section 20 of the Act of 1882 contemplates the investment of trust funds in the securities of Railway or other Companies the interest on which is guaranteed by the Secretary of State for India in Council. In some cases, *e. g.*, of branch line Railway Companies, the guarantee is sometimes expressed as given by the Government of India. It is desirable to make it clear that investment is equally permissible in the latter case. Clause 2, sub-clause (*iii*), of the Bill accordingly provides for this.

3. Section 2 of the Trustee Act, 1893 (56 & 57 Vict., c. 53), empowers trustees, subject to certain restrictions, to purchase redeemable stock at a premium. Clause 3 of the Bill supplies the want of a similar provision in the Indian Trusts Act, 1882 (II of 1882), which has been experienced in some quarters.

THE SCHEDULE.

Conditions of Service.

A Bill to provide for the regulation of the Frontier Constabulary *in the North-West Frontier Provinc* .

WHEREAS it is expedient to provide for the regulation of the *Frontier Constabulary* in the North-West Frontier Province ; It is hereby enacted as follows :—

Short title, extent, application and commencement.

1. (*1*) *This* Act may be called the North-West *Frontier Constabulary* Act, 1915.

(*2*) It extends to the whole of the North-West Frontier Province, and applies also to every member of the *Constabulary*, wherever he may be serving ; and

(*3*) It shall come into force on such day as the Local Government may, by notification in the official Gazette, appoint in this behalf.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context—

(*a*) *Member of the Constabulary* means a person *other than a person appointed by the Local Government* who, at the commencement of this Act, is serving in the *Frontier Constabulary*, or who, after the commencement of this Act, has been appointed to the *Frontier Constabulary* under this Act and has signed a recruiting-roll on which the conditions of service contained in the Schedule are set forth :

Provided that every person who has for the space of six months been in the receipt of pay as a member of the Frontier Constabulary and been borne on the rolls of the Frontier Constabulary shall be deemed to be a member of the Constabulary, notwithstanding that he has not signed the said recruiting roll.

[*Cf.* Indian Army Act, 1911, (VIII of 1911), section 10].

(*b*) "Commandant" means a person appointed by the Local Government to be a Commandant of the *Frontier Constabulary* :

(*c*) "Active service" means service gainst hostile tribes, raiders or other *hostile* persons *or persons co-operating with or assisting such tribes, raiders or hostile persons* :

(*d*) The expressions "assault," "criminal force", "fraudulently", "reason to believe" and "voluntarily causing hurt" have the meanings assigned to them respectively, in the Indian Penal Code. XLV of 1860.

Power to maintain *Frontier Constabulary.*

3. The Local Government may *continue to* maintain a force, to be called the *Frontier Constabulary*, for the better protection and administration of the external

frontier of British India within the limits of or adjoining the North-West Frontier Province or any part thereof.

Constitution of *Constabulary*.

4. The *Frontier Constabulary* shall be constituted in such manner, and the members of *the Constabulary*, shall receive such pay, pension, and other remuneration, as shall, from time to time, with the previous sanction of the Governor General in Council, be ordered by the Local Government.

Appointment and powers of superior officers.

5. (*1*) The Local Government may appoint any person to be Commandant, and may appoint other *persons to be District Constabulary Officers or Assistant Constabulary Officers* of the *Frontier Constabulary*, or of any part thereof, constituted in any one or more districts.

(*2*) The Commandant and every other officer so appointed shall possess, and may exercise, such power and authority over the subordinate officers and members of the *Constabulary* at any time, under his command as is provided by or under this Act.

Appointment of subordinate officers and men.

6. The appointment of *all* officers and men of the *Frontier Constabulary*, *other than those mentioned in sub-section* (*1*) *of section 5*, shall rest with the Commandant and the *District Constabulary Officer* who shall respectively exercise such powers, in such manner as may be prescribed by rules made under this Act.

Superintendence, control and administration of *Constabulary*.

7. (*1*) The superintendence of, and control over, the *Frontier Constabulary* shall vest in the Local Government; and the *Frontier Constabulary* shall be administered by the Commandant and the *District Constabulary Officer* in accordance with the provisions of this Act and of any rules made thereunder.

[*Cf.* Indian Police Act, 1861 (V of 1861), section 4, paragraph 2 and Bombay District Police Act, 1890 (Bom. IV of 1890), section 13 (*1*) and (*2*).

(*2*) *The District Constabulary Officer and the Constabulary of a district shall be under the general control and direction of the Deputy Commissioner of the district.*

(*3*) *In exercising authority under sub-section* (*2*), *the Deputy Commissioner shall be governed by such rules and orders as the Local Government may make in this behalf.*

More heinous offences.

8. (*1*) Every *member of the Constabulary* who *commits any of the following offences, that is to say* :—

[*Cf.* Indian Army Act, 1911 (VIII of 1911), section 27].

(*a*) begins, excites, causes *or conspires to cause* or joins in any mutiny; or being present at any mutiny, does not use his utmost endeavours to suppress it, or knowing, or having reason to believe in, the existence of any mutiny, or of any intention to mutiny, *or of any conspiracy against the State* does not, without delay, give information thereof to his commanding or other superior officer; or,

(*b*) uses, or attempts to use, criminal force to or commits an assault on, his superior officer whether on or off duty *knowing* or *having reason to believe him to be such*; or,

(*c*) shamefully abandons or delivers up any garrison, fortress, post or guard which is committed to his charge, or which it is his duty to defend; or,

(*d*) directly or indirectly holds correspondence with, or assists or relieves, any person in arms against the State, or omits to discover immediately to his commanding or other superior officer any such correspondence coming to his knowledge; or, who, while on active service,—

(*e*) disobeys the lawful command of his superior officer; or,

(*f*) deserts the service; or,

(*g*) being a sentry, sleeps upon his post, or quits it without being regularly relieved or without leave; or,

(*h*) without authority, leaves his commanding officer, or his post or party, to go in search of plunder; or,

(*i*) quits his guard, picquet, party or patrol without being regularly relieved or without leave; or,

(*j*) uses criminal force to, or commits an assault on, any person bringing provisions or other necessaries to camp or quarters, or forces a safeguard or, without authority, breaks into any house or any other place for plunder, or plunders, destroys, or damages any property of any kind; or,

(*k*) intentionally causes or spreads a false alarm in action or in camp, garrison, or quarters; or,

(*l*) displays cowardice in the execution of his duty;

shall be punishable with transportation for life or for a term of not less than seven years, or with imprisonment for a term which may extend to fourteen years, or with fine which may extend to three months' pay, or with fine to that extent in addition to such sentence of transportation or imprisonment, as the case may be, as may be passed upon him under this section.

(*2*) If any *member of the Constabulary*, while on active service with a force beyond the limits of British India, is charged with committing any offence described in clause (*c*), clause (*d*), or clause (*f*), of sub-section (*1*), or the offence of culpable homicide amounting to murder, he may be summarily tried for such offence by the Political Officer accompanying the force, sitting with two other officers appointed by the Political Officer for this purpose.

(3) Every officer appointed under sub-section (2) shall be either—

[*Cf.* Indian Army Act, 1911 (VIII of 1911), section 1(2)].

(*a*) a British officer *that is to say, a person holding a commission in His Majesty's land forces*, or,

(*b*) a civil officer of gazetted rank, or,

(*c*) a *person* appointed under section 5:

Provided that, if circumstances permit, not less than one such officer shall be a *Constabulary* Officer appointed under section 5.

(4) If one or both of the officers sitting with the Political Officer concur with him in finding the accused guilty, and the Political Officer so directs, the accused shall be forthwith shot to death.

Less heinous offences.

Every *member of the Constabulary*, who *commits any of the following offences, that is to say,*—

(*a*) is in a state of intoxication when on or *after having been warned* for any duty, or on parade or on the line of march; or,

(*b*) strikes or attempts to force any sentry; or,

[*Cf.* Indian Army Act, 1911 (VIII of 1911) section 34].

(*c*) being in command of a guard, picquet or patrol, refuses to receive any prisoner *or person* duly committed to his charge, or, without proper authority, releases any prisoner *or person placed under his charge*, or negligently suffers any *such* prisoner *or person* to escape; or,

(*d*) being under arrest or in confinement, leaves his arrest or confinement, before he is set at liberty by proper authority; or,

(*e*) is grossly insubordinate or insolent to his superior officer in the execution of his office; or,

(*f*) refuses to superintend or assist in the making of any field-work or other work of any description ordered to be made either in quarters or in the field; or,

(*g*) strikes or otherwise ill-uses any *member of the Constabulary* subordinate to him in rank or position; or,

(*h*) being in command at any post or on the march, and receiving a complaint that any one under his command has beaten or otherwise maltreated or oppressed any person, or has committed any riot or trespass, fails, on proof of the truth of the complaint, to have due reparation made as far as possible to the injured person *or* to report the case to the proper authority; or,

(*i*) designedly or through neglect injures or loses, or fraudulently disposes of, his arms, clothes, tools, equipments, ammunition, accoutrements or *Frontier Constabulary* necessaries, or any such articles entrusted to him or belonging to any other person; or,

(*j*) malingers or feigns or produces disease or infirmity in himself or intentionally delays his cure, or aggravates his disease or infirmity; or,

(*k*) with intent to render himself or any other person unfit for service, voluntarily causes hurt to himself or any other person; or,

(*l*) does not, when called upon by his superior officer so to do or upon ceasing to be a *member of the Constabulary*, forthwith deliver up, or duly account for, all or any arms, ammunition, stores, accoutrements, appointments or other property issued or supplied to him or in his custody or possession, as such *member of the Constabulary*; or,

(*m*) *knowingly furnishes a false return or report of the number or state of any men under his command or charge, or of any money, arms, ammunition, clothing, equipments, stores or other property in his charge, whether belonging to such men or to Government, or to any member of, or any person attached to, the Constabulary, or who, through design or culpable neglect, omits or refuses to make or send any return or report of the matters aforesaid*; or, [*Cf.* Indian Army Act, 1911 (VIII of 1911), section 36 (*d*)].

(*n*) *absents himself without leave, or without sufficient cause overstays leave granted to him*; or, [*Cf.* Indian Army Act, 1911 (VIII of 1911), section 30 (*c*)].

(*o*) *is guilty of any act or omission which though not specified in the Act, is prejudicial to good order and discipline*; or,

who, while not on active service,—

(*p*) disobeys the lawful command of his superior officer; or,

(*q*) deserts the service; or,

(*r*) being a sentry, sleeps upon his post, or quits it without being regularly relieved or without leave; or,

(*s*) *quits his guard, picquet, party, or patrol without being regularly relieved or without leave*; or, [*Cf.* Indian Army Act, 1911 (VIII of 1911), section 30 (*h*)].

(*t*) plunders, destroys or damages any property of any kind; or,

(*u*) *displays cowardice in the execution of his duty*;

shall be punishable with imprisonment for a term which may extend to one year, or with fine which may extend to three months' pay or with both.

Minor punishments.

10. (1) The Commandant or the *District Constabulary Officer* may, subject to any rules made under this Act, award in lieu of, or in addition to, suspension or dismissal, any of the following punishments

to any *member of the Constabulary* who is, in the opinion of the Commandant or *the District Constabulary Officer*, as the case may be, guilty of disobedience, neglect of duty, or remissness in the discharge of any duty, or of rendering himself unfit to discharge his duty, or of other misconduct in his capacity as such *member of the Constabulary*, that is to say,—

(*a*) reduction in rank and emoluments;

(*b*) fine to any amount not exceeding one month's pay and allowances;

(*c*) confinement to quarters for a term not exceeding one month;

(*d*) confinement in the quarter-guard for not more than *twenty-eight* days with or without punishment-drill or extra guard, fatigue or other duty; and

(*e*) removal from any office of distinction or special emolument in the *Constabulary*.

(2) The Commandant or the *District Constabulary Officer*, or an officer, not being below the rank of Subadar, commanding a separate detachment or an outpost, or in temporary command at the headquarters of a district during the absence of the Commandant and the *District Constabulary Officer*, may, without a formal trial, award to any *member of the Constabulary* who is subject to his authority any of the following punishments for the commission of any petty offence against discipline which is not otherwise provided for in this Act, or which is not of a sufficiently serious nature to call for a prosecution before a Criminal Court, that is to say,—

(*a*) confinement for not more than seven days in the quarter-guard or such other place as may be considered suitable, with forfeiture of all pay and allowances during its continuance; and

(*b*) punishment-drill, or extra guard, fatigue or other duty, for not more than thirty days, with or without confinement to quarters.

(3) Any one of the punishments described in sub-section (1) or sub-section (2) may be awarded separately, or in combination with any one or more of the said punishments, respectively.

Place of imprisonment and liability to dismissal on imprisonment.

11. (1) Every person sentenced under this Act to imprisonment *may be dismissed from the Frontier Constabulary, and shall be further liable to forfeiture of pay and allowances due, as well as of medals and decorations received, and the public money due to him.*

(2) *Every such person* shall, if he is *so* dismissed, be imprisoned in the nearest prison or such other prison as the Local Government may, by general or special order, direct; but, if he is not also dismissed from the *Frontier Constabulary*, he may, if the Court or the *Commandant* so directs, be confined in the quarter-guard or such other place as the Court or the *Commandant* may consider suitable.

Deductions from pay and allowances.

12. *The following penal deductions may be made from the pay and allowances of a member of the Constabulary, that is to say,—* [*Cf.* Indian Army Act, 1911 (VIII of 1911), section 50].

(*a*) *all pay and allowances for every day of absence either on desertion or without leave, and for every day of imprisonment awarded by a Criminal Court or of confinement awarded by an Officer exercising authority under section 10;*

(*b*) *all pay and allowances for every day whilst he is in custody on a charge for an offence of which he is afterwards convicted;*

(*c*) *all pay and allowances for every day on which he is in hospital on account of sickness certified by the proper Medical Officer attending on him at the hospital to have been caused by an offence under this Act committed by him;*

(*d*) *all pay and allowances ordered to be forfeited under section 10;*

(*e*) *any sum required to make good such compensation for any expenses caused by him, or for any loss of, or damage or destruction done by him to, any arms, ammunition, equipment, clothing, instruments, Frontier Constabulary necessaries or decoration, or to any buildings or property, as may be awarded by the Commandant or the District Constabulary Officer.*

Collective fines.

13. *Whenever any weapon or part of a weapon or ammunition forming part of the equipment of a company or other similar unit is lost or stolen, the Commandant may, after making such inquiry as he thinks fit, impose a collective fine upon the subordinate officers and men of such unit, or upon so many of them as, in his judgment, should be held responsible for such loss or theft.* [*Cf.* Indian Army Act, 1911 (VIII of 1911), section 21].

Resignation and withdrawal from the Constabulary.

14. No *member of the Constabulary* shall be at liberty to—

(*a*) resign his appointment during the term of his engagement except before the expiration of the first three months of his service; or

(*b*) withdraw himself from all or any of the duties of his appointment,

without the permission in writing (to be previously obtained) of the Commandant or *the District Constabulary Officer* or other officer authorised by the *Commandant* to grant such permission.

General duties of members of the Constabulary.

15. (1) It shall be the duty of every *member of the Constabulary* promptly to obey and to execute all orders and warrants

lawfully issued to him by any competent authority, to detect and bring offenders to justice, and to apprehend all persons whom he is legally authorised to apprehend, and for whose apprehension sufficient grounds exist.

(2) Every *member of the Constabulary* shall be liable to serve without and beyond, as well as within, the limits of British India.

Powers and duties conferable and imposable on *members of the Constabulary.*

16. The Local Government may, by general or special order, confer or impose upon any *member of the Constabulary* any of the powers or duties conferred or imposed on a Police-officer of any class or grade by any enactment for the time being in force.

Protection for acts of *members of the Constabulary.*

17. In any suit or proceeding against any *member of the Constabulary* for any act done by him in pursuance of a warrant or order of a competent authority, it shall be lawful for him to plead that such act was done by him under the authority of such warrant or order.

(2) Such plea may be proved by the production of the warrant or order directing the act, and, if it is so proved, such *member of the Constabulary* shall thereupon be discharged from liability in respect of the act so done by him notwithstanding any defect in the jurisdiction of the authority which issued such warrant or order.

(3) All suits and proceedings (whether civil or criminal) against any person which may lawfully be brought for anything done or intended to be done under the powers conferred by, or in pursuance of, any provision of this Act or the rules thereunder, shall be commenced within three months after the act complained of was committed and not otherwise; and notice in writing of such suit or proceeding and of the cause thereof shall be given to the defendant or his superior officer one month at least before the commencement of the suit or proceeding.

V of 1898.

Authority to confer exclusive powers of Sessions Court on Deputy Commissioner.

18. Notwithstanding anything contained in the Code of Criminal Procedure, 1898, the Local Government may declare that the Court of any Deputy Commissioner, and no other Court, shall be deemed to be the Court of Session for the disposal of cases, or any class of cases, arising under this Act.

V of 1898.

Criminal powers conferred within British India to be exercisable beyond British India.

19. Any person invested with any powers under the Code of Criminal Procedure, 1898, for the disposal of any case under this Act within the limits of British India shall, in relation to any case arising under this Act beyond such limits, have the same power and be subject to the same conditions as to appeal or otherwise as if such case had arisen within such limits.

Application of Act to other bodies enrolled for service on frontier.

20. The Local Government, *subject to the control* of the Governor General in Council, may, by notification in the official Gazette, apply, with such modifications (if any) as it may think fit, any of the provisions of this Act and the rules thereunder to the *Border Militia* or to any persons for the time being enrolled for similar service on the external frontier of British India.

Power to make rules.

21. The Local Government may, by notification in the official Gazette, make rules—

(*a*) regulating the functions and powers of the *Deputy Commissioner*, Commandant, *the District Constabulary Officer and the Assistant Constabulary Officer*, respectively, under this Act;

(*b*) regulating, *subject to the provisions of section 4*, the classes and grades of, and the remuneration to be paid to the officers and men of, and the conditions of service in, the *Frontier Constabulary*;

(*c*) fixing the period of service for *members of the Constabulary* in any district or local area;

(*d*) regulating the award of minor punishments to *Constabulary* Officers under the powers conferred by section 10, and providing for appeals from, or the revision of, orders under that section, *or the remission of fines imposed under that section, and the remission of deductions made under section 12*;

(*e*) *regulating the several or collective liability of members of the Constabulary in the case of the loss or theft of weapons and ammunition*; and,

(*f*) generally, for the purpose of carrying into effect the provisions of this Act.

IV of 1904.

Repeal.

22. *The North-West Border Military Police Act, 1904, is hereby repealed.*

THE SCHEDULE.

Conditions of Service.

[*See section 2, clause* (*a*).]

AFTER you have served for (*such periods as the Local Government may have prescribed in this behalf*) in the *Frontier Constabulary* maintained under the *North-West Frontier Constabulary Act, 1915*, you may at any time, when not on active service, apply for your discharge, through the officer to whom you may be subordinate, to the Commandant, or to the *District Constabulary Officer* of the district in which you may be serving, and you will be granted your discharge after three months from the date of your application, unless your discharge would

cause the vacancies in the *Frontier Constabulary* to exceed one-tenth of the sanctioned strength, in which case you shall be bound to remain until this objection is waived by competent authority or removed. But when on active service you shall have no claim to a discharge, and you shall be bound to remain to do your duty until the necessity for retaining you in the *Frontier Constabulary* ceases, when you may make your application in the manner hereinbefore prescribed:

Provided that, if you wish to withdraw from the *Frontier Constabulary*, you may resign at any time before the expiration of the first three months of your service, but not afterwards until the completion of the period prescribed as aforesaid:—

Provided, also, that the Commandant or the *District Constabulary Officer* may, if he thinks fit, allow you to resign at any time on your giving three months' notice of your wish to do so.

Signature of *the* member of the Constabulary *in acknowledgment of the above having been read to him.* } *A. B.*

Signed in my presence after I had ascertained that A. B. understood the purport of what he signed. } *C.D.*

Commandant *or District Constabulary Officer.*

STATEMENT OF OBJECTS AND REASONS.

IN 1904, an Act [the North-West Border Military Police Act, 1904 (IV of 1904)], was passed to provide for the regulation of the Border Military Police Force in the North-West Frontier Province. Under sanction conveyed by His Majesty's Secretary of State for India on the 3rd December, 1914, this Border Military Police Force has been abolished or absorbed, and its place has been taken by the Frontier Constabulary.

2. The main object of the present Bill is to re-enact and apply the provisions of the North-West Border Military Police Act, 1904 (IV of 1904), to the new force. Since the Act in question was passed, the Indian Army Act of 1911 (VIII of 1911), has been enacted by the legislature, and as experience has shown that certain of its provisions should be applied to the Frontier Constabulary, opportunity has been taken to insert them in the Bill. The constitution of the new force has also necessitated minor amendments due to administrative needs. The changes made by the Bill in the provisions of the former Act are indicated by italics in the Bill as introduced in Council.

RESOLUTION ON THE SANITARY AND VACCINATION REPORTS, BENGAL.

GENERAL DEPARTMENT.

SANITATION.

CALCUTTA, THE 20TH SEPTEMBER 1915.

RESOLUTION—No. 809San.

READ—

The Reports of the Sanitary Commissioner, the Sanitary Board and the Sanitary Engineer, Bengal, for the year 1914.

Read also—

The annual statistical returns and short notes on Vaccination in Bengal for the year 1914-15.

Climatic conditions.—The year under review was decidedly more unhealthy than the preceding year. The total rainfall of the year was below

the normal throughout the province except in Darjeeling. The monsoon rains set in gradually about the usual time and good rains fell in July and August, but the rainfall for September was in defect, while during October the monsoon was very weak. To this early cessation of the rains may probably be attributed the large increase of mortality from fever. The deficient rainfall also affected the agricultural outturn and thus precluded the possibility of any fall in the price of food-grains. This in its turn was bound to react on the vitality of the poorer classes.

2. *Birth-rate.*—The number of births increased slightly and the birth-rate rose from 33·75 to 33·86 per thousand of population as ascertained at the last census. If, however, the birth-rate for 1914 be calculated on the actual population as estimated by adding the excess of births over deaths since 1911 to the census population, it becomes 33·22. It would, therefore, appear that the birth-rate was more or less stationary during the last two years.

The registration of births in Eastern Bengal continues to be defective, the percentage of omissions discovered ranging from 6·22 to 12·71 in four districts.

3. *Death-rate.*—The number of deaths increased by 99,421, while the death-rate rose from 29·38 to 31·57, calculated on the basis of the census figures. When calculated on the estimated actual population, the death-rate for 1914 becomes 30·97. The increase in mortality, which was chiefly under the head "Fever," reduced the excess of births over deaths by nearly 50 per cent. This check in the natural growth of population has been ascribed to the short outturn of food-grains in recent years, and it is feared that the low prices obtained by cultivators last year for jute will tend to diminish the growth of population still further. Infantile mortality was high in several districts, and the total death-rate increased from 20·95 to 22·14 per cent. of the births. Although Calcutta returned a higher infantile death-rate it no longer headed the list, the first three places being occupied by Birbhum, Nadia and Pabna.

The percentage of omissions to register deaths ranged from 5·71 to 13·79 in five districts. It is probable that many of the deaths recorded under "Fever" or "Other causes" should be recorded as due to respiratory diseases.

4. *Fever.*—There was a considerable rise in the mortality from fever. The number of deaths due to this cause increased from 965,546 to 1,061,041, the death-rates per mille for 1914, 1913 and the quinquennial period 1909-13 being 23·40, 21·30 and 20·54 respectively. Seventy-four per cent. of the total mortality as against 72 per cent. in the previous year was registered under this head. The lowest rates were as usual returned by the urban areas where the death-rate continues to decline.

Anti-malarial measures were carried out in a few towns, and quinine was freely distributed in a number of districts by Sub-Assistant Surgeons from the middle of August. Unfortunately 18 of the 24 Sub-Assistant Surgeons employed on the work were early withdrawn for military duty and 12 new men were appointed only after considerable delay. The measures were, however, extended till the end of February, one month beyond the usual period. It is gratifying to observe that the efforts of the Malaria Committee to popularise quinine appear to be meeting with success, and there was a considerable demand for quinine in the "treatment" form in which it is now sold. The sale of quinine in this form has nearly doubled since August 1913. Quinine was distributed free to school children in the Hooghly district through the agency of the Eduction Department, and some District Boards spent considerable sums in the purchase of quinine for free distribution. The necessity for administering adequate doses of quinine to patients attending dispensaries was brought to the notice of District Boards and Municipalities, and assistance was given to a few of the poorer municipalities to enable them to purchase the requisite amount of quinine. Besides considering methods for increasing the use of quinine, the Malaria Committee enquired into the malarious nature of Manikganj, and discussed the value of sub-soil drainage as an anti-malarial measure and the danger arising from borrow-pits in proximity to dwelling-houses. The Committee decided that no benefit would accrue from jungle-cutting experiments

for which the Indian Research Fund had made a grant of Rs. 50,000. It, therefore, put forward a proposal that this grant should be utilised in carrying out two experimental schemes of sub-soil drainage drawn up by Dr. Bentley. This proposal did not, however, meet with the approval of the Government of India and the grant for experimental jungle-cutting was accordingly withdrawn. The Governor in Council is disappointed to find that the Malaria Committee held only three meetings during 1914, but he is glad to learn that the efforts of the Committee to popularise quinine are meeting with success. The first step towards the elimination of malaria is the extension of the use of quinine both as a prophylactic and as a curative medicine. Much good will no doubt result from measures for the improvement of drainage and cultivation, but these by themselves will not prevent the spread of malaria.

5. *Other diseases.*—The number of deaths from cholera increased from 78,898 to 89,224, the corresponding death-rates being 1·74 and 1·96 per mille. The average death-rate from cholera for the five years 1909-1913 was 1·98. The incidence of the disease was highest in the Murshidabad Circle, while the districts of Nadia and Malda also suffered severely. Owing to the small number of wells in the province disinfection of water-supply was possible only in a few localities. In Birbhum and Dacca the disinfection of wells was reported to have had a beneficial effect.

The mortality from plague continued to decrease, the number of deaths being 554 as against 984 in the previous year. Of these, 442 occurred in Calcutta. As no cases of plague were reported during November and December, Calcutta was declared to be free from plague in the latter part of December.

The death-rate from dysentery and diarrhœa decreased slightly, that from respiratory diseases continued to increase, while the number of deaths under the head "Injury" showed little variation.

6. *Sanitary Board.*—The Sanitary Board held nine meetings during the year. Eleven sketch projects estimated to cost Rs. 53,21,672 and fourteen detailed schemes estimated to cost Rs. 12,65,625 were forwarded to Government for approval and sanction. The Board also considered a scheme for the supply of water to the municipalities and cantonments on the eastern bank of the Hooghly. A recommendation that Government should delegate financial authority to the Board was not accepted. His Excellency in Council desires to acknowledge the useful services to the Board rendered by the non-official members who were added at the end of 1913.

7. *Sanitary Improvements.*—The total cost of sanitary works executed during 1913-14 by Government, Municipalities, District Boards and private individuals amounted to Rs. 17,28,946 against Rs. 13,14,368 during the previous year. The amounts available for non-recurring and recurring expenditure from the sanitary grants made by the Government of India were Rs. 13,85,970 and Rs. 9,50,000 respectively. The total amount distributed was Rs. 7,43,367, of which Rs. 7,32,320 was for non-recurring expenditure. Municipal expenditure on sanitation during 1913-14 increased under all important heads, the total increase amounting to Rs. 5,56,687. This increase was principally due to capital expenditure on water-supply and drainage, while there was also a considerable rise in the amount spent on conservancy. 40·15 per cent. of the total receipts was spent on sanitary works against 32·21 in the previous year. The surface drainage scheme for Howrah made considerable progress, and portions of the Garulia, Serampore and Budge-Budge drainage schemes were completed. Water-supply projects were completed in Hooghly-Chinsura, Serampore Jessore and Khulna, and a large sum was spent in the extension of the Howrah water-works. Many other schemes were in progress or in contemplation. Steps were taken to improve village sanitation in several districts by clearing out impure tanks, by cutting down jungle and by improving drainage. The Midnapore District Board spent Rs. 36,956 on these measures, which appear to have been appreciated by the villagers.

8. The Governor in Council desires to draw attention to the value of private effort in the improvement of the sanitary conditions of rural areas. An enormous amount of good can be done by private individuals working in small

areas and directing public and private expenditure in an orderly and sensible fashion. His Excellency in Council has read with great pleasure an account in the public press of the reforms that have been effected in certain villages in the district of Hooghly by Babu Sarada Charan Mitra, a retired Judge of the High Court. He trusts that other public-spirited gentlemen will follow the example thus set. It will obviously be of great benefit to Bengal if such work were to become popular among gentlemen of Bengal.

9. *Vaccination and Small-pox.*—During the year 1914-15. 1,605,711 vaccinations were performed, the number of persons vaccinated being 1,600,362. The number of primary vaccinations decreased from 1,575,510 to 1,139,384, while the number of revaccinations increased from 281,784 to 466,327. The decrease in primary vaccinations was most marked in the eastern districts, and is due to the fact that reliable returns have not been submitted in previous years. The enquiries regarding the falsification of vaccination returns which have been carried out in Bakarganj by the Deputy Sanitary Commissioner of the Dacca Circle have had a salutary effect on the staff of the neighbouring districts, with the result that the returns are nearer the truth than formerly. The increase in the number of revaccinations was due to the prevalence of small-pox in Calcutta and elsewhere. The ratio of the surviving infant population vaccinated fell as low as 29·9 per cent.; in Bakarganj and Faridpur the ratios were only 5·7 and 8·5 per cent. respectively. The attention of the local officers has been drawn to the unsatisfactory state of vaccination in East Bengal, and towards the close of the year sanction was accorded to the appointment for a period of three years of two special Inspectors of Vaccination to this part of the province.

The death-rate from small-pox rose from 0·19 to 0·21 per mille, but it is satisfactory to note that the decline in the infant mortality from this disease was well maintained. The number of deaths in the Dacca Division decreased from 5,272 to 1,303, but the mortality in the Chittagong Division continued to be high. Small-pox was prevalent in Calcutta during the first seven months and the last month of the year, and its spread into the neighbouring districts raised the death-rate in the Burdwan and Presidency Divisions.

10. *Staff.*—Major W. W. Clemesha, I.M.S., who was in charge of the office of the Sanitary Commissioner, Bengal, at the beginning of the year, proceeded on two years' leave on the 23rd April, but was recalled to duty on the outbreak of war and rejoined on the 8th September. During his absence, Major Fry, I.M.S., Special Deputy Sanitary Commissioner for Malaria Research, Bengal, acted as Sanitary Commissioner. Mr. G. B. Williams, Sanitary Engineer, was absent on leave from 1st August till the end of the year, during which period Mr. A. G. Maflin, Assistant Sanitary Engineer, officiated.

Two of the Deputy Sanitary Commissioners and Major Fry were recalled to military duty towards the close of the year, while a third Deputy Sanitary Commissioner was placed in charge of the duties of the Civil Surgeon of Jalpaiguri in addition to his own. The work of the Department has thus been considerably curtailed.

The Sanitary Engineer's establishment was reorganised and formed into two divisions—water-supply and drainage—each under the charge of an Assistant Sanitary Engineer.

The appointment of Sanitary officers by municipalities has not yet been made compulsory by the extension of the Bengal Municipal (Sanitary Officers) Act, but several municipalities have already taken steps for the appointment of these officers. Rules for the guidance of Sanitary Inspectors are now under the consideration of Government.

The thanks of the Governor in Council are due to Major Clemesha, Sanitary Commissioner, Mr. G. B. Williams, Sanitary Engineer, and to the Sanitary Board for efficient administration of the Sanitary Department during the past year. The work of Major Fry and Dr. Bentley, Deputy Sanitary Commissioners, is also particularly commended.

By order of the Governor in Council,

K. C. DE,
Offg. Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 20th September 1915.

Summary.—During the week under report seasonable rain fell generally throughout the Province. The effects of the rainfall have been beneficial to winter rice and other standing crops; but more rain is very urgently wanted in most of the western districts. Paddy is reported to be withering in parts of the Burdwan district where considerable tracts still remain untransplanted for want of adequate rainfall. Cutting and steeping of jute are in brisk progress. The operations are nearing completion in the Eastern Bengal districts. Harvesting of other autumn crops and weeding of the winter rice crop are proceeding. Fodder is reported to be scanty in certain lowlying parts of Pabna, Dacca, Mymensingh and Faridpur. Cattle-disease is reported from eight districts only. A certain amount of distress still exists in Bankura and Tippera. The number of persons employed daily on the District Board road works in Bankura fell to 3,537 from 5,633 in the previous week. The average price of common rice for the Province shows a very slight tendency to rise.

GOVERNMENT OF INDIA TERMINABLE LOAN.

NOTICE AS TO THE CONDITIONS ON WHICH THE PUBLIC MAY SUBSCRIBE THROUGH THE POST OFFICE.

THE Government are raising this year's loan in a new form carrying 4 per cent. interest. It will be repaid in full not later than November 1923, but Government can repay it, if they wish, any time after October 1920.

2. Rupees 4½ crores have already been raised in the usual way by the receipt of applications at Calcutta, Madras, Bombay and other large centres, and, so far, the loan is now closed. But in addition a special opportunity is being given to persons who wish to take up the loan in small amounts, whether they are savings bank depositors or not, of subscribing through the nearest post office which transacts savings bank business.

HOW TO SUBSCRIBE.

3. Applications through the post office can be made any time up to the 30th October.

4. Applications must be for even hundreds of rupees and for not less than Rs. 100 and not more, in the case of any one applicant, than Rs. 5,000.

NOTE.—An applicant may apply for the new loan up to Rs. 5,000, notwithstanding that he already holds 3½ per cent. Promissory notes previously purchased through the post office.

5 A person desiring to apply must fill up the form below, which can also be obtained at any post office which transacts savings bank business. He must at the same time pay the full amount for which he applies. For this purpose he can use the money in his savings bank account if he is a savings bank depositor, or he can pay in cash direct. The applicant may go to the post office himself or send a messenger. All amounts paid will be acknowledged.

6. For every Rs. 100 which the applicant pays he will receive Government Promissory notes for the same amount.

CUSTODY OF PROMISSORY NOTES.

7. The notes may either be kept by the applicant in his own custody, or, if he prefers, they may be retained in the custody of the post office authorities on his behalf. He should state which method he prefers in filling up the form of application. If he wishes to keep the notes himself, the post office will advise him when they are ready for delivery, and, on his presenting himself personally, they will be made over to him. If he decides to leave them with the post office, his personal attendance will not again be required, but the post office will send him an intimation in due course that they have been received and are held on his behalf. Should he at a later date desire to keep the notes himself they will then be made over to him.

PAYMENT OF INTEREST.

8. Interest at 4 per cent. a year will be paid half-yearly, *i.e.*, 2 per cent. on the 31st May and 2 per cent. on the 30th November every year. For the broken period from the date of subscription to the 30th November next, interest will be paid in cash at the time the Promissory notes are delivered if the applicant keeps them himself, or will be credited into the savings bank account mentioned in the next paragraph if he leaves the notes in the custody of the post office authorities.

9. If the applicant decides to leave his Promissory notes in the custody of the post office authorities, the latter will draw the interest for him regularly each half year and credit the amount into a savings bank account which will be opened for this purpose in his name. The post office will also inform him from time to time whenever interest is thus received. No charge will be levied for this service, and no income-tax will be deducted in making the half-yearly payments of interest.

If he keeps the Promissory notes himself, income-tax will be deducted from interest in the usual way at the time the half-yearly payments are made.

SALE OF PROMISSORY NOTES.

10. If at any time a savings bank depositor who holds Promissory notes in this new loan, which have been purchased through the post office by the procedure here described, desires to sell them again, or any part of them, the post office will arrange this for him without charging brokerage or other fees. Full particulars as to this can be obtained from the post office at any time.

FORM OF APPLICATION.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

Howrah.

No. 2247M.—The 16th September 1915.—In exercise of the power conferred by section 69B(*ii*) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to make, in supersession of the rules published with Notification No. 1473M., dated the 23rd May 1914, the following rules for the guidance of the Commissioners of the Howrah Municipality, in matters connected with the carrying out of the purposes of section 69 (I) (*ii*) of that Act, so far as they relate to the supply of water:—

Rules for the Management of Water-works under the Supervision of the Government of Bengal.

1. The management of the water-supply system of the Howrah Municipality shall vest in the Municipal Commissioners (hereinafter called "the Commissioners"), and the Commissioners shall perform the duties prescribed in the following rules.

2. The Commissioners shall be responsible for the proper application of the water-supply funds. It shall be their duty to take requisite steps to rectify defects in case they find that water-rates are irregularly collected in any instance, or are insufficient for carrying out the purposes of Part VII of the Bengal Municipal Act, 1884.

3. The Commissioners shall frame the annual budget of income and expenditure on account of the water-works, and shall submit it to the Sanitary Engineer for any remarks he may consider necessary. The Sanitary Engineer shall return the budget with his remarks to the Chairman of the Municipality.

4. The Chairman of the Municipality shall, at the end of each quarter, prepare a statement of the accounts of the water-supply funds, which he shall submit to the Commissioners at their next meeting.

5. The Commissioners at a meeting shall, every quarter, inquire into all matters connected with the water-supply of the Municipality, and examine and pass the accounts submitted under rule 4, and shall record that the accounts have been passed in the book of the minutes of the proceedings of the meeting.

6. In all engineering matters connected with the water-works the Commissioners shall be guided by the advice of the Sanitary Engineer. The Commissioners shall afford the Sanitary Engineer all information he may from time to time require, and shall consider and attend to all communications received from him.

7. The Sanitary Engineer shall exercise complete professional control over the Municipal Engineer with reference to the pumping station.

8. The Sanitary Engineer shall visit, or shall depute a representative to visit, the water-works not less than once a year, and shall submit a report thereon to the Sanitary Board. The Commissioners shall arrange for the proper inspection of the boilers and pumping machinery not less than twice a year by a qualified machinery inspector or firm of machinery inspectors, who must be approved by the Sanitary Engineer. The reports of the inspectors must be submitted in Sanitary Engineer's Form No. 6 (Appendix A) to the Sanitary Engineer, and by him to the Sanitary Board.

9. Until all points raised in the reports of the Sanitary Engineer and the machinery inspector have been disposed of, the Commissioners shall submit to the District Magistrate for transmission to the Sanitary Engineer a monthly progress report showing how far effect has been given to the recommendations made in the reports.

10. (*1*) The Commissioners shall cause to be kept at the pumping station—

(*a*) a stock account (Form No. 4A) (Appendix A) showing the daily transactions in coal and engine-room stores;

(*b*) an engine-room log (Form No. 3A) (Appendix A);

(*c*) a filter-bed log in Sanitary Engineer's Form No. 5 (Appendix A) or a filter log in Sanitary Engineer's Form No. 5A (Appendix A); and

(*d*) sum other forms as the Sanitary Engineer may from time to time prescribe.

(*2*) The said forms shall be written up daily by the Superintendent, and shall be available at all times for inspecting officers and visitors appointed under rule 13.

11. The Commissioners shall submit to the Sanitary Engineer not later than the tenth of each month :—

(*a*) indicator diagrams from each engine in Sanitary Engineer's Form No. 1 (Appendix A) for one day in the preceding month, which must be accompanied by a copy of the engine-room log, Form No. 3A (Appendix A), for the day on which they are taken;

(*b*) an abstract of work done by the pumping machinery during the preceding month in Sanitary Engineer's Form No. 2 (Appendix A);

(*c*) a copy of the filter-bed log or filter log, Sanitary Engineer's Forms Nos. 5 and 5A (Appendix A), for the same day of the preceding month as that to which the indicator diagrams referred to in clause (*a*) apply; and

(*d*) such other information as the Sanitary Engineer may from time to time require.

12. It shall be the duty of the Municipal Engineer to see that the rules for working settling tanks and slow sand and mechanical filters in water-works (Appendix B) are properly attended to by the Superintendent of the pumping station.

13. A visitors' book shall be kept at the pumping station in which shall be recorded the visitors' remarks.

14. An extract of the proceedings relating to the water-supply system at each meeting of the Commissioners shall be forwarded, within a week of the date of the meeting, to the Sanitary Engineer, who may, if he thinks fit, and shall, if the Commissioners so desire, submit it with his remarks to the Sanitary Board.

15. The chemical and bacteriological analysis of water from the water-works shall be carried out once a quarter in the laboratory of the Sanitary Commissioner, and the remains of the analysis shall be communicated to the Municipality and laid before the Commissioners at a meeting.

16. The Sanitary Commissioner after his inspection shall forward a copy of his remarks concerning the water-works to the Sanitary Engineer.

17. (*1*) Subject to the general control of the Commissioners, the duties prescribed for the Commissioners in these rules may, if the Commissioners so decide, be performed by a Committee, to be called. "The Water-Works Committee," consisting of the Chairman, Vice-Chairman and eight other Municipal Commissioners elected by the Municipal Commissioners at a meeting.

(*2*) The Committee shall act as the agents of the Commissioners in all matters relating to the administration of the water-supply of the Municipality, and shall for this purpose exercise all the powers vested in the Commissioners by the Bengal Municipal Act, 1884:

Provided as follows:—

(*i*) the Committee must not act in opposition to, or in contravention of, any order passed by the Commissioners at a meeting, and must not exercise any power which is directed by the law to be exercised by the Commissioners at a meeting;

(*ii*) all orders or processes of a compulsory nature shall be issued under the authority and signature of the Chairman of the Municipality, or of the Vice-Chairman under authority delegated to him in this behalf by the Chairman under section 45 of the Bengal Municipal Act, 1884;

(*iii*) in respect of the duties imposed by rules 2, 3 and 9, the Committee shall perform the functions of rectification of defects and transmission of documents through the Commissioners.

18. At every meeting of the Committee three members shall form a *quorum*.

APPENDIX A.

[*See Rule 8.*]

Report on an examination of the Boilers, Engines and Pumps of the Water-works made by
on the

BOILERS.

1. Description of boilers giving maker's name and date of erection. Give grate area and calculated horse-power.	
2. When and by whom last examined:— (*a*) If examined by an Inspector of Steam-boilers under Bengal Act III of 1879, give name of Inspector and number and date of last certificate. (*b*) Note working pressures previous to last examination; and, if any reduction in pressure was made by the Inspector, state how much and why such reduction was made.	

BOILERS—*continued.*

Note.—If the boilers are working under certificates granted by an Inspector under Act III (B.C.) of 1879, questions 3, 4, 5 and 6 need not be answered.

3. Have you examined the boilers internally and externally; if so, with what result? Give thickness of scale, if any, and state whether you had it removed.	
4. Did you test the boilers by hydraulic pressure; if so, up to what pressure? Did you ascertain that the steam-gauge was correct, and that the steam relief-valve was in working order, and not over-weighted before applying the hydraulic test?	
5. What working pressures do you now recommend?	
6. Have you examined all the boiler-fittings, such as safety-valves, feed-water pipe, blow-off cocks, steam- and water-gauges, etc.? State if they are all in good working order, and if not, what is required to make them so? *Note.—The safety-valves should not be weighted to more than 10lbs. (preferably 5lbs. above the working pressure).*	
7. Are the boilers blown out regularly, and safety-valves lifted to ensure their not sticking; and is a record kept of the dates on which this has been done since the last inspection?	
8. Is the floor of the boiler-house kept dry and in good order? (*a*) Where are the ashes slaked? (*b*) When was soot last removed from the flues? (*c*) Are the flues free from moisture during the rainy season?	

BOILERS—*concluded.*

9. State which of the following are available for filling the boiler, and which is generally used :— (*a*) Feed-pump on engine. (*b*) Donkey-pump. (*c*) Injector. (*d*) Cold-water pressure from the mains.	
10. State average fuel consumption since last report, giving the percentage of ashes and kind of fuel used. If coal be used, give name of colliery from whence obtained.	
11. General remarks. *Note.—Any repairs that have been done in the boiler-house, since last inspection, should be recorded here.*	

ENGINES.

12. Description of engines, noting also maker's name, date of erection, diameters of cylinders, and length of stroke.	
13. When and by whom last examined ?	
14. Did you examine the interiors of the cylinders, and if so, with what result ?	
15. Did you examine the steam-valves, and if so, with what result ?	

ENGINES—*concluded.*

16. Did you take any indicator diagrams? If so, attach to this report a set worked out, with full particulars noted :— (*a*) State whether you consider the valves are properly set for the most economical working of the engine. (*b*) State whether you consider the indicator diagrams are satisfactory or not, and whether any difference in them is apparent. If so, what, in your opinion, has caused the difference?	
17. Are all stuffing boxes and glands kept properly packed, and steam-pipes free from leaks?	
18. What vacuum is generally maintained?	
19. Is the air-pump in good order? Give temperature of its discharges. *Note.—The temperature should not exceed 115°.*	
20. Are the lubricants in use of good and suitable quality, and is a sufficiently large supply of all stores kept in hand?	
21. General remarks. *Note.—All repairs, however slight, that have been carried out since last report, should be mentioned here.*	

PUMPS.

22. Description of pumps, noting also diameters of buckets or plungers, length of stroke, number and size of valves.	
23. Did you examine all buckets and plungers, and if so, with what result?	
24. What do you consider is the percentage of "slip"? (*a*) What do you find the mechanical efficiency of the engines?

[*See Rule 12.*]

RULES FOR WORKING SETTLING TANKS AND SLOW SAND AND MECHANICAL FILTERS IN THE HOWRAH WATER-WORKS.

SETTLING TANKS.

1. It is important that water drawn from rivers, channels or streams should have as long a settlement as possible before being passed on to slow sand filters, in order that the action of sunlight, the precipitation of suspended matter and the natural tendency to elimination of pathogenic bacteria may have their maximum purifying effect.

2. Settling tanks are worked either on (*a*) the continuous flow, or (*b*) the intermittent system. In the first system the tanks are kept full, and the water is continually admitted at one end and drawn off from near the surface at the other. In order that this system may be properly used with slow sand filters, the unfiltered water-pumps must be worked continuously throughout the 24 hours, or the settling tanks must be fed from a storage reservoir. When designed on the intermittent system, each tank in turn is filled and then kept full until the tanks filled before it are drawn down; the settled water is then decanted through a floating arm or similar apparatus until the tank is lowered to the lowest draw-off level, when it is again filled.

The whole available storage capacity of settling tanks should always be used as far as possible. On the other hand, care must be taken, in tanks unprovided with fixed overflows, not to fill them to a greater depth than they are designed for.

3. When a deposit of from 18 inches to 2 feet of silt has formed at the bottom, the tank should be emptied and cleaned out. This work must always be done in the dry weather and preferably between February and April.

4. In the rains and when there is an excessive amount of suspended matter in the raw water, clarification will generally have to be assisted by the use of a coagulant. The precipitant most commonly used in Bengal water-works is aluminoferric. This depends for its effective action upon the alkalinity of the water. If more of the chemical is used than can be decomposed by the carbonates present, it will remain dissolved in the water and will be wasted.

Generally speaking, not more than 2 grains per gallon of aluminoferric should be used. Before deciding on the quantity to be added, a sample of the water to be treated should be sent to the Sanitary Commissioner for analysis and advice on this point.

5. The aluminoferric must be added at the inlet end of the settling tanks, and experiments should be made to ascertain the time taken by a given quantity to dissolve. One grain per gallon is 1 lb. per 7,000 gallons treated. Thus, if 300,000 gallons per day are treated with 2 grains per gallon, the daily quantity used will be 86 lbs.

SLOW SAND FILTERS.

6. The rate of delivery on to a sand filter is regulated by (*a*) the available head between the settling tanks and the inlet valve, and (*b*) the amount the inlet valve is open.

The rate of flow through the filter depends upon (*c*) the resistance of the sand in the filter, and (*d*) the filtration head or difference in level between the surface of water on the filter-bed and the water in the outlet well.

The discharge from the outlet well to the clear-water reservoir depends on (*e*) the amount the outlet valve is open, or in the case of a telescopic outlet, the extent to which the bell mouth is lowered.

It is obvious that these factors are mutually interdependent, for more water cannot flow out of a filter than is delivered on to it, nor than can make its way through the sand.

Factors (*a*) and (*c*) continually tend to vary, so (*b*) and (*e*) must also be altered from time to time in order to maintain a constant flow through

the filter. In some filters the inlet is controlled by a ball valve which keeps the level of the water on the filter always the same. In this case, the flow through the filter is regulated by (*e*). In all filters the surface of the water on the sand should be always kept as nearly the same level as possible and the filtration head regulated by the outlet valve or telescopic weir. The depth of water on the sand should be somewhere between 2 feet and 3 feet 6 inches. Gauges measuring to the same datum should be fixed on the wall of the filter and in the outlet well so that the difference in level can be easily measured.

7. Filtration should be carried on continuously day and night as nearly as possible at the same rate, usually somewhere between 3 or 4 inches vertical an hour. The rate of flow must on no account exceed the latter figure.

Where there is no direct method of measuring the flow of water through a filter, such as an outlet gauge notch or a meter, it may be ascertained by closing the inlet valve and leaving the outlet valve open. The fall of the surface of the water in inches at the end of an hour will give the rate of flow per hour.

8. In a new filter or one recently scraped, the filtration head required will be very small, but it will rapidly increase. In the usual way, a filter should be scraped before the filtration head reaches 12 inches. It must never be allowed to exceed 15 inches.

9. A filter should be scraped by carefully removing the slimy ooze which has formed on the top, together with about ½ inch of sand. The sand removed may subsequently be used again if properly washed in a sand-washer. The depth of fine sand must never be reduced to less than 18 inches, and when this thickness is reached, the filter must be replenished. Before replenishing about 2 or 3 inches of sand should be removed, and the remainder dug over and loosened; clean-washed sand is then to be added until the original thickness is obtained.

10. If the water filtered has been of a very bad quality or the filter has been mismanaged, or been long in use the whole filter may require to be renewed. In this case, the whole of the filtering material, coarse sand and gravel, as well as the under-drains, must be removed and washed before replacing.

11. After a filter-bed has been scraped, replenished, or renewed, it should, if possible, be charged from below by admitting filtered water very slowly until the surface is about 3 inches above the sand; the filling can then be completed from above. If there is no arrangement for filling from below, the filling must be very carefully and slowly done from above.

After filling, water should be passed through the filter at the rate of about one inch vertical per hour and run to waste for 24 hours after scraping and four days after replenishing or renewing.

12. Daily records must be kept in the filter-bed log-book [Sanitary Engineer's Form 5 (Appendix A)] of the quantity of water filtered and the filtration head, recorded at intervals of three hours throughout the day.

MECHANICAL FILTERS.

13. For each installation of mechanical filters, rules for working must be obtained from the makers of the plant, but the following points must be attended to in all cases :—

(*i*) The efficiency of the plant depends upon the proper proportioning and correct addition of the coagulant. The actual amount of coagulant required is determined by local conditions. It will vary during different seasons of the year and can be best ascertained by experiment in actual working.

(*ii*) The precipitant generally used is sulphate of alumina, and this should be purchased under a proper specification of chemical composition. The precipitant is made up into a strong solution in large vats and added to the raw water by an adjustable apparatus. The water so treated is then allowed to settle for some hours before filtration.

In cases where sedimentation continues for a considerable time after the coagulant has been applied, it may be necessary to add a small additional quantity of the chemical to the water immediately before passing it to the filters.

(*iii*) The rate of filtration should be kept as nearly as possible constant and must not exceed the rate for which the filters had been designed. Generally, filters are provided with automatic controllers, and these must on no account be tampered with or made to pass more water than intended.

(*iv*) The maximum filtration head permissible varies with different types of plant; it is usually not more than 10 feet. When the maximum head is reached, as shown by the indicator, the filter must be washed.

(*v*) Washing must always be done with filtered water. In the case of a battery of two or more pressure filters, they may be arranged so that one can be washed with filtered water from another.

Washing must be continued until the waste water becomes quite clear. After washing, the filtered water must be run to waste for 20 minutes before connecting to the town.

(*vi*) Daily records must be kept in the filter log-book [Sanitary Engineer's Form 5A (Appendix A)] of the quantity of water filtered, the amount of sulphate of alumina used, the hours during which filtration has been carried on, the filtration head (recorded at intervals of three hours), the length of time taken to wash each filter, and the hour at which it was washed.

No. 2324M.—The 27th September 1915.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council makes, in supersession of the rules published with notification No. 1655T.M., dated the 17th September 1900, the following rules subject to which the Commissioners of the Berhampore Municipality in the district of Murshidabad may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises within the Municipality for domestic purposes only.

Murshidabad.

RULES FOR THE SUPPLY OF FILTERED WATER TO PREMISES IN THE BERHAMPORE MUNICIPALITY.

1. So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding when such annual value is not less than Rs. 100, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions.

2. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied free of cost at the Municipal office.

3. A fee of Rs. 52 including Rs. 2 as inspection fee must be paid to the Commissioners by such owner or occupier for each holding connection before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

4. Each holding must have a separate connection and extensions from the communication-pipe of one holding to another shall not be permitted.

5. The owner or occupier of the holding in respect of which the connection is required, must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

6 (*i*) The work required may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the work is required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*ii*) The work must be done under the supervision of an officer appointed by the Commissioners in this behalf, and no connection must be made with

the Municipal water-main except at such time as may be appointed and in such position as may be selected by an authorised Municipal Officer.

7. A holding connection shall comprise the following parts or fittings:—

(*a*) A brass or gun-metal ferrule inserted in the main supply pipe;
(*b*) A galvanised iron communication-pipe from the ferrule to the meter;
(*c*) A stop-cock and its surface-box;
(*d*) A meter;
(*e*) Service pipes from the stop-cocks to the taps; and
(*f*) Taps.

8. (*i*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners and approved by them in meeting.

(*ii*) All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed.

(*iii*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The size of the ferrule referred to in clause (*a*) of rule 7 shall be decided by the Commissioners, but its diameter shall not differ from that of the communication-pipe referred to in clause (*b*) of that rule by more than ¼ inch.

10. (*i*) The diameter of the communication-pipe shall be determined with regard to the average pressure in the main supply-pipe at the point nearest the holding for which a connection is required, and to the quantity of water to be supplied.

(*ii*) The diameter of the communication-pipe shall be such that it will be capable of delivering the estimated daily supply in six hours.

(*iii*) The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until this test has been applied by the Commissioners.

11. (*i*) On every communication-pipe a brass or gun-metel stop-cock having the same water-way as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(*ii*) The stop-cock shall be built in a brick chamber provided with a cast iron surface cover-box so designed that it can be locked.

(*iii*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (*i*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*ii*) The meter must be fixed in a brick chamber covered over with a cast iron surface box of approved pattern.

(*iii*) Subject to the provisions of rule 13, no meter must be touched or interfered with in any way except with the permission of the Chairman.

13. The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

14. (*1*) Every owner or occupier of any holding in respect of which a connection has been made under these rules, shall be entitled to a supply of—

(*a*) 3,200 gallons of water per quarter for each rupee, and
(*b*) a further proportionate number of gallons per quarter for every additional fraction of a rupee,

paid by him quarterly as water-rate in respect of such holding.

(*2*) For all water in excess of the amount allowed under sub-rule (1) such owner or occupier shall be charged quarterly as follows:—

	Per 1,000 gallons. As.
(*a*) For any excess quantity of water not exceeding 4,000 gallons	8
(*b*) For any excess quantity of water exceeding 4,000 gallons	12

15. If the owner or occupier of any holding which is supplied with water under these rules shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of one month after he has been served with a notice of demand for the same, the Commissioners may, at any time after the expiration of that period, and without further notice, disconnect any pipe forming part of the connection made in respect of such holding and may recover the cost of disconnecting such pipe from such owner or occupier:

Provided that the disconnection of such pipe shall not relieve any person from any liabilities which he may have incurred under these rules.

16. (*i*) Every tap shall be of the same size as the pipe to which it is attached, and shall be of brass and of the pattern known as screw-down or push-cock. Every tap shall be at least three feet above the road level.

(*ii*) The number of taps in a holding shall be fixed in accordance with the annual valuation of such holding as follows:—

Annual valuation of holding.	Number of taps.
From Rs. 100 to Rs. 199	2
„ „ 200 „ „ 499	3
„ „ 500 „ „ 1,500	4

and for every Rs. 500 or part thereof in excess of Rs. 1,500, one additional tap.

Hooghly.

PLEADERS' SURVEY CLASSES, 1916.

1. Classes for the training of pleaders in surveying will be opened in January and February 1916 in connection with the Civil Engineering College, Sibpur, the Bihar School of Engineering, Bankipur, the Dacca School of Engineering, and the Survey School at Cuttack, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the heads of the institutions, who will also decide the exact locality in which the classes will be held and the date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hours of each day.

5. Any candidate who desires, to undergo the course of training must apply to the Principal, Civil Engineering College, Sibpur, not later than 30th November. His application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Sibpur, Bankipur, Cuttack or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs. 100 has been paid into the treasury to the credit of the Engineering College.

6. The Secretary will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the heads of the institutions of the names and addresses of the candidates registered at their centres, and they will inform the candidates as to the locality and the date of opening.

7. The following is the syllabus of instruction. No definite text-books are prescribed :—

(*a*) Practical work—

Chain surveying, Prismatic compass surveying, Plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments.
Construction of scales.
Mensuration of areas.
Plotting.
Variation of compass.
Preparation of field-books from maps.
Elementary principle of levelling.
Plotting of level sections.

Candidates who obtain the required percentage of attendance at this course of instruction are qualified to appear at the Practical Examination held in 1917, 1918 and 1919.

Principal, Civil Engineering College, Sibpur, and Secretary to the Pleaders' Survey Examination Board.

SIBPUR,
The 18th September 1915.

NOTIFICATION.

ANNUAL EXAMINATION OF PLEADERS IN SURVEYING.

(*See* Government Notification No. 3157-J., dated 25th November 1909.)

(Modified in Government Notification No 320J.D., dated 16th July 1914.)

1. The next examination will be held in February 1916 and will be conducted at the following centres (provided that not less than five names be registered at each centre) :—Sibpur and Dacca in Bengal, and Bankipur and Cuttack in Bihar and Orissa.

2. Each examination is completed in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the Examiner in it.

3. Candidates practising in the Courts of the Presidency and Burdwan Divisions will be required to present themselves at Sibpur, in Orissa at Cuttack, in Patna, Tirhoot, Bhagalpur and Chota Nagpur Divisions at Bankipur, and in Rajshahi, Dacca and Chittagong Divisions at Dacca.

4. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

5. No candidate will be admitted to the examination unless he has been enrolled as a pleader and

(*i*) has obtained credit for attendance at the special course of instruction at Sibpur, Bankipur, Cuttack or Dacca in 1912, 1913, 1914 or 1915, and has not previously appeared at the examination more than twice, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer Examination, or

(*iv*) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(*v*) has been specially exempted from the operation of this rule by the Board controlling the examination.

6. A candidate wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose Court he is enrolled, and forward the same so as to reach the Secretary of the Examination Board at the Civil Engineering College, Sibpur, not later than the 11th January. The form may be had from the Principal, Civil Engineering College.

7. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, *which fee will in no case be returned.*

8. The exact date of the examination and the proposed programme will be published in the *Calcutta, Bihar and Orissa*, and *Assam Gazettes.*

SIBPUR,

The 18th September 1915.

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE MATRICULATION EXAMINATION OF 1916.

THE following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination The term "private students" includes *bonâ fide* school-masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it:—

	Name of School.		Date of Test Examination.
1.	Comilla Zilla School	...	6th, 7th, 8th and 9th December 1915.
2.	Noakhali Zilla School	...	Ditto.
3.	Chittagong Collegiate School	...	Ditto.
4.	Rangamati High English School		Ditto.

Each private student will pay a fee of Rs. 3 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the Head Master of the institution at which he appears.

4. Application for permission to appear must be sent in time to reach this office not later than the 5th November 1915. The information to be given and the documents to be appended in original are the following :—

(*a*) The name of the school in which the candidate last studied ;
(*b*) the Transfer Certificate in original granted to the candidate by the Head Master of the school in which he last read ; or
(*c*) in the case of a candidate who previously appeared at the Matriculation Examination the Registrar's receipt in original for the fee paid.
(*d*) Age of the candidate. No candidate who has not completed the age of 16 years on the first day of the Matriculation Examination will be allowed to appear at it.

N B—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1914 and then left the school can, under no circumstances, be allowed to appear at the examination

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the Head Master of the institution in which he intends to appear, at least 15 days before the date of that examination. The Head Master will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The Head Masters of the institutions named above should direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation Examination and to sign them in their presence. They will then grant the necessary certificates and forward the application to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held on the 1st March 1916 and the following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th January 1916.

OFFICE MEMORANDUM BY THE INSPECTOR OF SCHOOLS, BURDWAN DIVISION.

University Matriculation Examination, 1916.

PRIVATE STUDENTS.

1. Private students are those who have not attended any recognized or unrecognized High English schools for at least one year previous to the examination. The term "private students" includes school-masters.

2. Private students must appear at the Test Examination to be held on Monday, the 6th December 1915, and the following days at the Hooghly Collegiate School.

Each private student will have to pay a fee of Rs. 6 which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 9th November 1915, after which date a fine of Rs. 2 will have to be paid for each week's delay. *Under no circumstances will the admission fee be refunded.* No private student will be admitted to the Test Examination unless he is accompanied, for the purpose of identification, by some person known in the office of the Inspector of Schools, Burdwan Division.

3. Applications must be submitted through the head-master of the school in which the applicant last read. The head-master, in forwarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The application of no candidate is to be forwarded who did not leave school from the first class, or who had not been declared fit for promotion to that class. The information to be given and the documents to be appended (in original) are the following:—

(*a*) The name of the school in which the candidate last studied.

(*b*) The transfer certificate (in original) granted to the candidate by the head-master of the school in which he last read; or

(*c*) In the case of a candidate who previously appeared at the Entrance Examination, the Registrar's receipt (in original) for the fee paid.

(*d*) The age of the candidate is not required in cases (*b*) and (*c*). No candidate who has not completed the age of sixteen years on the first day of the Matriculation Examination is eligible.

(*e*) In the case of school-masters, a certificate of good conduct from the secretary or proprietor of the school in which the candidate is serving.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination held in March 1915. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.

(*g*) The names of subjects in which the candidate wishes to be examined.

4. *The fee for the Matriculation Examination has NOT to be sent to this office.* It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

5. The address of each private student should be supplied to this office.

6. The Matriculation Examination in 1916 will be held on the 1st March 1916 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 17th January 1916.

INTERMEDIATE AND B. A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bona fide* masters of English schools, who have served as such for the full period of three academical years preceding the examination, will be admitted to the abovementioned examinations.

2. Candidates for the Intermediate and B. A. Examinations must produce certificates of character and length of service from the secretaries of their respective schools. Candidates for the B. A. Examination must forward with their applications their F. A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Those candidates who were admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B. A. Examinations are informed that their applications for admission to these examinations will not be considered unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required, under section 9, chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as University students. No person will be deemed a 'University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 12th January 1916, together with other papers, as mentioned in rules 2 and 3, after which no application will be received.

5. The Intermediate Examination of 1916 will be held on the 13th March 1916 and following days. The B.A. Examination of 1916 will be held on the 20th March 1916 and following days. The applications and fees for admission to the Intermediate Examination must reach the office of the Registrar on or before the 28th January 1916, and those for the B.A. Examination on or before the 5th February 1916.

Notice.

THE public are hereby cautioned not to deal in any way with the title deeds of premises Nos. 44 and 45, Ekbalpore Road, Kidderpore, which have lately been purchased by my client Mrs. Mary Winifred Earle *nee* Mckeon from Babu Sailendra Nath Mitter of 165-1, Manicktolla Street, Calcutta, one of the heirs of the late Babu Dwarka Nath Mitter of No. 33, Muktaram Babu's Street, Calcutta.

The vendor declares that the deeds could not be found when partition of the late Babu Dwarka Nath Mitter's estate took place. The other heirs of Dwarka Nath Mitter, deceased, viz., the sons of the late Rai Bahadur Amrito Nath Mitter of 33, Muktaram Babu's Steet, Calcutta, having declared to have no knowledge of the same, and so they could not be made over to my client at the time of the sale.

Anybody dealing with the said title deeds will do so at his own risk.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits: and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

REPORT ON THE WORKING OF THE LICENSED JUTE WAREHOUSE AND FIRE-BRIGADE ACT, 1914-15.

NOTIFICATION.

No. 2223M.—The 15th September 1915.—The following is published for general information.

K. C. DE,

Offg. Secy. to the Govt. of Bengal.

No. $\frac{\text{FB49-15}}{376A}$, dated Calcutta, the 2nd August 1915.

From—R. CLARKE, ESQ., Offg. Commissioner of Police, Calcutta,
To—The Secretary to the Government of Bengal, Municipal Dept.

I HAVE the honour to submit herewith the report of the Chief Officer of the Calcutta Fire Brigade for the financial year ending 31st March 1915, which gives full details of the working of the Fire Brigade.

The Brigade has worked extremely well during the year, and it is most satisfactory to note that the average amount of damage per fire is the lowest on record.

The question of reorganization is still before Government, and it is hoped that the various improvements recommended in the report of the Special Committee, which was submitted in May 1913, will shortly be carried out.

No. $\frac{\text{FB49-15}}{314A}$, dated Calcutta, the 1st May 1915.

From—B. A. WESTBROOK, ESQ., Chief Officer, Fire Brigade, Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department. (Through R. CLARKE, ESQ., Offg. Commissioner of Police, Calcutta.)

I HAVE the honour to present the following report on the working of the Fire Brigade for the year ended the 31st day of March 1915.

2. **Financial Statement.**—The statement of the receipts and expenditure and payments made by the Municipalities within the jurisdiction of the Fire Brigade Act (I of 1893) is shewn in Appendix I.

3. **Calls.**—The total number of calls to which the Brigade has responded during the year under review is 256, being the same number as the previous year, in connection with which it is satisfactory to note that the number of fires classed as serious has substantially decreased.

Seven fires occurred in premises licensed under the Licensed Warehouses and Fire Brigade Act (I of 1893) as compared with 10 in 1913-14.

Premises requiring licenses under this Act are enumerated in Appendix XIV.

Included in the total number of calls are 9 false alarms (20 in 1913-14), 2 of which were malicious (8 in 1913-14), shewing a net increase of 11 in the number of fires.

Summaries are given in the appendices shewing the districts in which fires occurred, causes of fires and buildings affected, hourly, daily and monthly calls, by what means the fires were extinguished, etc.

4. **Fire loss.**—The estimated value of property destroyed by fire is Rs. 6,68,904 as compared with—

Rs.			Rs.		
10,06,294	in	1913-14	15,66,780	in	1909-10
5,80,796	,,	1912-13	20,71,151	,,	1908-09
15,78,507	,,	1911-12	12,15,521	,,	1907-08
13,52,621	,,	1910-11			

The average loss per fire is Rs. 2,613, which is the lowest average loss recorded.

5. **Fire Reports.**—Short reports of all fires of Rs. 1,000 damage and upwards are given in Appendix II.

6. **Appliances.**—Appendix XI shows the distribution of the principal appliances in use by the Brigade, and Appendix XII gives the number of calls each machine has responded to.

On March 27th, a new 85 ft. petrol Motor Turntable Ladder was received and placed in commission. This machine is a great acquisition to the Brigade, and will be particularly useful in dealing with fires occurring in the tall buildings of Calcutta, which are now so rapidly increasing. It is also invaluable for use as a Water-tower.

Orders have been placed for three Motor Fire Engines, but, owing to the delay caused by the war, delivery has not yet been effected.

The remainder of the smaller appliances have been kept up to the required standard, and the usual boiler surveys made by Government Inspectors, and certificates granted.

It is understood that an order has been placed by the Port Commissioners for an efficient fire-float. This machine is badly needed, and it is hoped that it will soon arrive in Calcutta. The existing fire-float "Hooghly" has done good work, but owing to insufficient power and pumping capacities, its capabilities are restricted. As mentioned in the Fire Brigade report of 1913-14 the fire-float is not directly under the control of the Fire Brigade, therefore efficient working and co-operation cannot always be obtained; but during the past year valuable assistance has been rendered by the Port Commissioners with both the fire-float and the steam fire-engine stationed at the docks.

7. **Fire Stations.**—Although it was hoped that the erection of the new Fire Brigade headquarters and necessary out-stations would have been in progress by the end of the year, nothing so far has been done. The present temporary headquarters, whilst being a great improvement on the previous headquarters at Lall Bazar, are congested and much difficulty is experienced in properly training firemen.

Out-stations are urgently required in the north and central portions of the City which comprises very serious fire risks. Owing to the congestion of traffic and the very narrow thoroughfares delay must occur before the arrival of the Brigade at the scene of a fire. Fortunately, the Brigade has been successful in preventing any really serious fire during the year under review in this particular district, but the danger of a conflagration is always present, rendering further precautions imperative.

Pending the sanction of Government to the Fire Brigade reorganization scheme no important alterations have been carried out at the existing stations.

8. **Staff.**—The total strength of the staff, viz., 216 as shewn in Appendix XIII, remains the same as the previous year.

I am pleased to be able to report that the general behaviour and discipline has been good. Owing to many members of the Fire Brigade volunteering and being accepted for active service, a considerable number of changes in the personnel have occurred.

It has been found that Firemen are particularly useful in the Military Motor Transport Service, and consequently a large number of men have been permitted to join.

As recorded in the last year's report difficulty is still experienced in recruiting a sufficiently good class of Indians on the pay as at present offered for the arduous and trying duties of Firemen. It is hoped that when the Fire Brigade reorganization scheme is sanctioned a scale of pay commensurate with the work required will be offered for both Europeans and Indians.

Eight men have been granted certificates to drive and take charge of motor fire engines, and six men have passed examinations in proficiency in the management and care of steam fire-engines.

It is with regret I have to record the death of Chief Engineer W. Phillips, who died of small-pox, which, it is believed, he contracted at a fire at No. 12, Sikdarpara Street, on 10th December 1914.

The late Chief Engineer was an efficient officer and had a meritorious service of nine years in the Fire Brigade, prior to which he served in the Calcutta Police.

Station-officer Morgan has been temporarily promoted to the rank of Chief Engineer.

9. **Horses.**—Eighteen horses were in service at the commencement of the year as compared with 29 during the previous year. Owing to age two of these horses have been cast leaving a total of 16.

10. **Fatalities and accidents.**—Details of fires and calls incurring loss of life or accidents are given in Appendix III. During the year 9

fatalities occurred as compared with 2 in the previous year and an average of ·6 for the past six years. The increase is mainly due to 3 cases of suicide by burning, and 2 persons being buried in the collapse of a building.

Many accidental injuries have been attended to by members of the Fire Brigade, the whole of the European staff having qualified in ambulance work.

On all appliances first-aid materials are carried and have been very useful.

I am pleased to be able to report that during the year under review no serious accidents have occurred to members of the Fire Brigade.

11. **Water-supply.**—The water used for fire-extinguishing purposes is principally obtained from the unfiltered water-mains, but fire-engines have to be used at almost every fire to augment the pressure and thus obtain sufficiently powerful streams for fire-fighting. Improvements are being effected slowly, and during the past year three waterworks turncocks have been attached to the Brigade staff to repair hydrants that may be found defective and generally assist in obtaining a sufficient quantity of water.

I have again to report that a serious state of affairs exists in some districts, notably Howrah, Chitpore, Garden Reach and Maniktala, where there are no unfiltered mains, and the only means of obtaining water for fire extinguishing is from ponds, many of which are now being filled up on sanitary grounds.

12. **Telephone and Electrical Communications.**—It is hoped that shortly extra fire-alarms will be installed chiefly in the districts comprising the most serious fire risks.

As will be seen in the reports of "Fires of upwards of Rs. 1,000" in Appendix II, several instances of delay in giving the alarm to the Fire Brigade have occurred, which I trust may be obviated when a sufficiency of fire-alarms are in use.

Calcutta comprises some exceptionally dangerous districts, and delay in communicating with the Fire Brigade may easily result in a severe conflagration.

The installation of direct fire-alarms and telephones from buildings particularly liable to fire proceeds satisfactorily, 5 alarms having been fitted in the Sir Stuart Hogg Market, and 9 alarms in the Kidderpore Docks, besides several individual telephones or alarms.

In order to accommodate the increase of telephones and fire-alarms in the Fire Brigade headquarters the Duty Room has transferred to more suitable quarters.

My thanks are due to the Bengal Telephone Company for their keen interest and efficiency in all matters appertaining to Fire Brigade work.

13. **Inspection Department.**—Great progress still continues to be made in inspecting extraordinary fire-risks, such inspections having been regularly and systematically carried out, and, where necessary, schemes prepared for the prevention and extinction of fire in dangerous buildings.

Owing to the large increase of work it is hoped that the Inspection Department will be augmented, so that the beneficial effect of this important branch will be more widely felt.

Approximately 4,195 inspections (excluding theatres and places of public amusement) have been made during the year.

Three hundred and eighty-nine applications for licenses (*see* Appendix XIV) and complaints referring to licenses have been investigated and reported upon.

Two hundred and forty-nine prosecutions have been instituted under sections 14 and 19 of the Licensed Warehouse and Fire Brigade Act (I of 1893) and have resulted in 115 persons being fined, 101 warned and discharged, 30 cases withdrawn and 3 remaining pending at the end of the year.

The total number of licenses recommended during the year under the Licensed Warehouse and Fire Brigade Act (I of 1893) was 1,748, including 323 fresh licenses. One hundred and five licenses were cancelled for

non-payment of tax, and two applications for licenses for the storage of jute were refused as the buildings were not considered suitable.

Under Government Notification No. 65 T. M., dated 23rd April 1915, for the purpose of licensing 2 cwts. of celluloid, is designated a "small quantity" within the meaning of section 45, Act I of 1893.

The inferior construction of many of the existing premises renders it imperative that more frequent inspections should be made, as this class of building is not only liable to fire itself, but constitutes a risk which may involve the whole district, many of the occupants entirely ignoring their personal responsibility.

Many of the mills and presses, as a result of the reports of the Inspection Department, are now installing fire-fighting appliances, such as hydrant services, chemical machines, water and sand buckets, and it is interesting to note that the buckets installed during the past year number many thousands.

Sprinkler systems have been found to be particularly useful in jute warehouses and other premises containing goods which permit fire to spread rapidly. It is the endeavour of the Inspection Department to increase the number of sprinkler systems. Automatic fire-alarm systems are also frequently recommended, as owing to the inferior class of watchmen employed in many of the mills and warehouses on many occasions there has been much delay in summoning the Fire Brigade, in fact in several cases sufficient time has elapsed for the roof and walls to collapse.

The desirability of direct telephonic communication with the Fire Brigade is strongly urged, also the erection of party walls, fire doors and partitions for limiting fire to as small a space as possible, protection of exposed iron work, liff wells, windows, skylights, etc.

Much attention has been paid to safeguarding the public and the prevention of fire and panic in theatres and places of public amusement, exhaustive schemes having been prepared which are now being carried out. Unfortunately owing to the limited authority given under the present bye-laws regulating such premises it is with difficulty that progress can be made, but it is hoped that new bye-laws suitable to modern conditions will shortly be in force.

All new premises for public amusement are erected under the supervision of the Fire Brigade Department.

14. **Firework licenses, etc.**—One license was granted under section 36, Act I of 1893, to let off fireworks, and 2 licenses were cancelled.

15. **General.**—The Calcutta Fire Brigade protects the municipalities of Calcutta, Cossipore-Chitpore, Howrah, Maniktala and Garden Reach and may attend fires outside the jurisdiction of these municipalities (but not exceeding a radius of 6 miles from the Central Fire Station), provided appliances can be spared, and on payment of a prescribed fee. Appendix XV gives the Government order relating to this, and the form which has to be signed prior to the Fire Brigade leaving the jurisdiction of the above municipalities.

The actual area protected by the Calcutta Fire Brigade is just over 113 square miles, and the population included in same is about 1½ millions.

Owing to the war the annual sports and exhibition were not held.

Special duties have on many occasions been performed, notably supplying fresh water to transports, etc.

APPENDIX I.

Statement showing Receipts and Expenditure of the Fire Brigade for 1914-15.

The year opened with a balance of Rs. 37,875-0-4, the receipts amounted to Rs. 2,44,783-3-4, and the total expenditure to Rs. 1,94,469-9-7, leaving a balance of Rs. 88,188-10-1 at the close of the year. The apparent saving is due mainly to the fact that the sum of Rs. 28,000 provided in the budget for the year 1913-14 on account of purchase of one Motor Turntable Ladder, and the sum of Rs. 45,000 provided in the budget for 1914-15 for the purchase of two combined appliances, including Fire Escapes, First Aid Cylinders and pumps, remained unexpended at the close of the year, in consequence of the delay in the manufacture and shipment of the two machines from England by reason of the War. The provision has been repeated in the budget for 1915-16 for expenditure during that year.

Receipts.

Fees under the Petroleum Act show an increase of Rs. 543 over the estimate. No judicial fines were realised under the Act. The fees for letting off fireworks show an increase of Rs. 50.

Expenditure.

Under head "Establishment" there was a decrease of Rs. 2,919-2-9 due mainly to leave vacancies and vacancies on the rank of *khalassies*.

The total expenditure under head "Contingencies" amounted to Rs. 99,387-13-6 against a budget grant of Rs. 1,48,454, showing a decrease of Rs. 49,066-2-6. The saving was due to the fact that the sum of Rs. 45,000 provided in the budget for the purchase of two combined appliances including Fire Escapes, First Aid Cylinders and pumps remained unexpended at the close of the year in consequence of the delay in manufacture of the machines in England owing to the War.

Under head "Other charges" there was an increase of Rs. 1,443-14-10 owing to increased expenditure under head "Water pressure".

APPENDIX XV.

Regarding attendance of Calcutta Fire Brigade at fires without the jurisdiction of the Licensed Warehouse and Fire Brigade Act, 1 of 1893.

(*See* Government letter No. 120-M. of 22nd January 1912 and Government Notification No. 1850 T.M. of 21st August 1906.)

The Calcutta Fire Brigade must not under any circumstances attend fires beyond a radius of 6 miles from the Calcutta Police Office until further orders.

Attendance of the Calcutta Fire Brigade at fires occurring within a radius of 6 miles of above, and not within Calcutta, Cossipore-Chitpore, Howrah, Garden Reach, or Maniktala Municipality.

The Fire Brigade may, at the discretion of the Chief Officer on receipt of an authoritative requisition, attend any fire beyond the limits of the aforesaid municipalities, and within a radius of 6 miles, provided the individual who required the services of the Fire Brigade enters into an undertaking to pay, or the immediate payment of such fees as provided by Government.

Given that in both of the above cases no call has been already made within the jurisdiction for the assistance of the Fire Brigade.

Printed forms for the above purpose can be obtained at any fire station, and at headquarters, from the Telephone office of Chief Officer's office.

Requisition form for the services of the Calcutta Fire Brigade within a radius of 6 miles of headquarters, and without the jurisdiction of the Licensed Warehouse and Fire Brigade Act, 1 of 1893.

$\frac{I}{We}$ having requested the Commissioner of Police for Calcutta to direct the attendance of a portion of the Calcutta Fire Brigade with necessary engines, hoses, etc., at a fire at and the said Commissioner of Police having required as a condition of such attendance the payment by $\frac{me}{us}$ of fees on the scale specified below, to provide for the payment of special allowances to the members of the Brigade so attending and for the general wear and tear of engines, hoses, horses, etc., and for other proper charges $\frac{I}{We}$ undertake and agree in consideration of the said Commissioner of Police directing such attendance as aforesaid to pay to him on demand the total amount of the fees prescribed as aforesaid for such attendance calculated on the scale specified according to the length of absence from the station in Calcutta to which they belong, of the portion of the Fire Brigade and the engines, hoses, etc., so attending as aforesaid.

No. 96M., dated Calcutta, the 2nd August 1915.

From—THE HON'BLE MR. J. LANG, I.C.S., Commissioner, Presidency Division,

To—The Secretary to the Government of Bengal, Municipal Dept.

I HAVE the honour to submit herewith copies of the reports on the working of the Licensed Jute Warehouse and Fire-Brigade Act, I (B.C.) of 1893, for the year ending 31st March 1915, in the Cossipore-Chitpur, Maniktala and Garden Reach Municipalities.

No. 654, dated Talla, the 17th June 1915.

From—RAI KRIPA NATH DUTT BAHADUR, Chairman, Cossipore-Chitpur Municipality,

To—The Magistrate of the 24-Parganas.

WITH reference to your letter No. M 326—1-15, dated the 17th May 1915, I have the honour to submit the following report on the working of the Licensed Jute Warehouse and the Fire-Brigade Act within the municipality during the year 1914-15, together with the statements of receipts and disbursements and of the licensed warehouses in the forms prescribed by Government.

2. The rate of the license-fee levied on the warehouses in the year of report was 7½ per cent. on their annual valuations—the same as was levied in the previous year.

3. The total receipts from the fees and the rates specified in Statement I amounted to Rs. 23,531. The demand of the Commissioner of Police for the year as contribution towards the cost of maintenance of the Metropolitan Fire-Brigade being Rs. 36,447, the Municipal Commissioners had to pay Rs. 12,916 from their General Fund.

4. No rates were levied under sections 25 (*1*)(*a*), 25 (*1*)(*b*), and 25 (*1*)(*c*), of the Licensed Warehouse and Fire-Brigade Act during the year of report; neither were any fines received by the Commissioners during the year 1914-15, as will be seen from the statement submitted herewith.

5. The warehouses licensed during the year of report are shown in Statement II.

No. 522, dated Narkeldanga, the 25th June 1915.

From—S. A. A. Asghur, Esq., Bar.-at-Law, Chairman, Maniktala Municipality.

To—The Magistrate of the 24-Parganas.

With reference to your letter No. M.326—1-15, dated the 17th May 1915, and subsequent reminders, I have the honour to submit the following report on the working of the Licensed Jute Warehouse and Fire-Brigade Act in this municipality for the year 1914-15.

1. The share of expenditure allotted to this municipality by the Commissioner of Police was Rs. 3,645, which was discharged in two instalments.

2. The revenue during the year under review amounted to Rs. 3,400-8-6.

3. License-fees were levied on jute warehouses at 4 and 6 per cent. on the annual value of the holdings and 10 per cent. on trades of other descriptions mentioned in the annexed statement showing the number of warehouses and licenses issued during the year, and the license-fees were duly paid.

4. The jute godowns and the firewood packing case, hay and straw depôts, etc., are mostly situated near the Circular Canal which forms the northern, western and southern boundaries of the municipality. Soorah Jute Mill, Narkeldanga Jute Mill of Messrs. James Park & Co., and the Jute Pressing Mill of Messrs. Landale & Clark are the three mills within this municipality situated on the north of Narkeldanga Main Road and Maniktala Main Road.

5. The following businesses were started in the year 1914-15 and their license-fees were duly paid:—

No. 1340.M., dated Kidderpur, the 5th June 1915.

From—R. P. GIBBES, ESQ., Chairman, Garden Reach Municipality,
To—The Magistrate of the 24-Parganas.

WITH reference to your letter No. M.326—1-15, dated the 17th May 1915, I have the honour to report as follows on the working of the Licensed Jute Warehouse and Fire-Brigade Act in this municipality for the year 1914-15, together with Statements I and II in the prescribed form.

2. During the year under report the total income from jute warehouse fees and from rates under section 25 (*b*) of the Fire-Brigade Act, as shown in Statement I, was Rs. 3,028-3 as compared with Rs. 3,135-12 in the previous year. The amount of contribution paid to the Fire-Brigade Fund was Rs. 6,074 against Rs. 6,039 in 1913-14.

In levying the jute warehouse fees the limitations prescribed by the provisos under section 10 of the Fire-Brigade Act were strictly followed.

3. The rates at which the fees were levied were 7 per cent. on the annual value of all large warehouses, 10 per cent. on the annual value of wood and straw depôts, and ¼ per cent. on the annual value of all *basti* lands with huts, if any, on them. A list of licensed warehouses within this municipality during the year under review is given in Statement II.

No. 592, dated Howrah, the 9th June 1915.

From—W. S. HOPKYNS, ESQ., I.C.S., Chairman, Howrah Municipality,
To—The Magistrate of Howrah.

WITH reference to your letter No. 338G., dated the 3rd May, and subsequent reminder regarding the report for the year 1914-15 on the working of the Licensed Warehouse and Fire-Brigade Act, I have the honour to submit the two statements prescribed in Government letter No. 1385T.M., dated the 27th May 1910, and to say that there is nothing of importance in these statements to comment upon.

The total collections during the year under review amounted to 88·5 of the current demand and 20 per cent. of the arrear demand.

The contribution of the Municipality towards the Fire-Brigade Fund is 11 per cent. of the total expenditure budgetted for by the Commissioner of Police, Calcutta. The rates of fees continued as before, *i.e.*, 4½ per cent. on jute warehouses, 4 per cent. on cotton, 4½ per cent. on wood depôt and 1½ per cent. on the rest. The proviso to section 10 of the Fire-Brigade Act has been followed; more than half the contribution of the Municipality came from the General Fund of the Commissioners.

DEPARTMENT OF AGRICULTURE, BENGAL.

First forecast of the Winter Rice Crop of Bengal, 1915-16.

(NOTE.—On the average of the five years ending 1913-14, the area under winter rice in Bengal represents some 19·8 per cent. of the total area under winter rice in British India.)

Character of the Season.—The weather was rather dry in April and the early part of May, but heavy showers fell towards the end of May and in the month of June in Eastern and Northern Bengal. The sowings of the broadcast paddy and the preparation of seed-beds were commenced at the usual time under favourable conditions in the Eastern Bengal districts, but excessive rainfall and floods later on caused some damage and interfered with the growth of the young plants. In July the rainfall was not in excess of the normal and the transplanting was carried out in proper time and under not very unfavourable conditions excepting in Western Bengal and in the flooded areas of Eastern Bengal. In Western Bengal, especially in the districts of the Burdwan Division, the rainfall has been in defect since the beginning of the season and both the sowing and transplanting operations were late in consequence. Considerable tracts have been, up to the time of this report, left untransplanted with the result that there has been a large falling off in the acreage in this part of the province.

Acreage.—According to the figures reported by the District Officers, the area sown this year is 14,974,000 acres, against 15,051,600 and 15,084,000 acres shown in last year's first and final forecasts respectively. The decrease is chiefly due to want of timely rainfall in the Western Bengal districts. The normal area under the crop is returned as 16,579,400 acres.

Outturn.—From the summary of the district returns appended, it will be seen that two districts only report more than a normal crop, viz., Khulna (108 per cent.) and Bogra (105 per cent.). Thirteen districts report a crop between 90 and 100 per cent., six districts between 70 and 87 per cent., and five districts between 50 to 67 per cent. Bankura returns as low a percentage as 42. The low outturn is attributed to the deficient rainfall in the western districts and excessive rainfall and floods in the eastern districts. According to the District Officers' estimates, the provincial outturn works out to 87 per cent, as against 95 and 72 per cents. shown in the first and final forecasts respectively of last year.

Director of Agriculture, Bengal.

APPENDIX I.

First Forecast of Winter Rice Crop of 1915-16.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of broadcasted winter rice commenced this year, and whether that date was early, normal or late.	Date by which the transplanting of winter rice commenced this year, and whether that date was early, normal or late.	REMARKS BY DISTRICT OFFICERS.
		Last year (1914-15).	This year (1915-16).	Last year.	This year.			
	2	3	4	5	6	7	8	9
	Acres.	Acres.	Acres.					
24-Parganas ...	899,700	795,100	768,100	67	83	Beginning of May. Late.	July. Late ...	The decrease in area this year is due to insufficient rainfall in the greater portion of the district at the time of sowing and transplantation. The weather condition was not favourable at the time of sowing, but has improved since then. Owing to the insufficiency of rainfall at the beginning of the season the transplantation was retarded on high lands. It also impeded the growth of the crops sown broad-cast.
Nadia ...	138,800	134,600	124,300	58	67	Middle of April. Normal.	Middle of June. Normal.	The decrease in area sown is mainly in the Sadar and Meherpur subdivisions owing to want of rain at the sowing time. Transplantation was retarded also for want of rain. The condition of weather has not been favourable. The outturn is estimated below the normal owing to scarcity of rain.
Murshidabad ...	345,600	315,900	321,400	75	75	End of April to beginning of June. Normal.	From June to August. Normal except in Kandi where the transplanting was late.	The increase in area as compared with that of last year is due to the fact that some jute fields were cultivated with this crop in consequence of the fall in the price of jute. The weather condition was not favourable at the time of sowing, but has improved since then. The outturn is expected to fall below the normal on account of the damage done to the crop by drought and insectpest.
Jessore ...	568,100	411,400	462,400	87	92	April. Normal	July. Normal ..	The increase in area as compared with that of last year is due to the fact that the cultivators put more lands under the cultivation of this crop on account of the high price of paddy and the low price of jute obtained last year. The condition of weather was favourable except in Magura where there was excessive rain and flood at the end of August. The outturn is expected to be below the normal on account of the damage done to the crop by flood and insectpests.
Khulna ...	745,800	748,000	746,400	69	108	April to June. Normal in Sadar and Bagerhat and late in Satkhira.	July. Normal in Sadar and Bagerhat and late in Satkhira.	The decrease in area is due to the fact that some of the lands on which winter rice was grown last year were sown with *aus* paddy this year. The condition of the weather has been favourable. Hence the outturn is expected to exceed the normal. In Satkhira a slight drought is responsible for the slight fall in the outturn.
Burdwan ...	874,800	760,000	820,000	67	67	May to beginning of July. Normal but late in places.	Middle of June to July. Normal but late in places.	The decrease in area sown this year is due to deficient rainfall at the time of sowing. The condition of the weather up till now has been unfavourable owing to continued drought.
Birbhum ...	604,600	604,600	573,000	67	67	No broadcast sowing in this district.	Beginning of July. Normal.	The decrease in area sown this year is due to insufficient rainfall. The condition of the weather up till now has not been favourable. About 33 per cent. of damage has been caused to the crop by drought and insect-pests.
Bankura ...	510,600	481,500	171,000	83	42	Middle of June ...	Middle of August. Late.	The decrease in area sown this year is due to the absence of rain in June and July.

	Acres.	Acres.	Acres.					
Midnapore ...	1,576,400	1,576,900	1,545,000	67	67	July. Late ...	August. Late ...	The decrease in area sown this year is due to the late breaking in of rains. The weather condition has not been favourable. Some damage to the crop by drought is reported from two thanas in Ghatal. The outturn is expected to fall below the normal for want of timely rainfall.
Hooghly ...	376,700	246,400	220,900	71	74	June. Normal ...	July. Late ...	The decrease in area as compared with that of the last year is due to want of seasonable rainfall at the sowing time. Some damage is apprehended on account of continued drought. Hence the outturn is expected to fall below the normal.
Howrah ...	126,300	103,300	107,600	67	79	Middle of June. Late.	End of July. Normal.	The increase in area is due to extension of cultivation owing to the dull market of jute last year. At the sowing time there was want of sufficient rainfall. The rainfall in August has somewhat improved the condition of the crop, but more rain is wanted.
Rajshahi ...	697,000	498,000	565,900	70	90	First part of April. Normal.	First part of July. Normal.	The increase in area sown this year is due to extension of cultivation owing to the decrease in the price of jute last year. The weather conditions have been favourable. Some damage was caused by heavy rain after sowing in the Natore subdivision.
Dinajpur ...	1,120,800	900,800	1,037,900	50	94	.....	First part of July. Normal.	The increase in area sown this year as compared with that of last year is due to timely rainfall and also to decrease in the area under jute crop. There was sufficient rainfall at the time of sowing; but owing to insufficient rainfall in the latter part of July and first part of August the transplantation was to some extent retarded.
Jalpaiguri ...	531,200	408,000	488,400	72	100	Beginning of May in Pahakata. Normal. End of June in Chaprajat. Late for want of rain.	Beginning of July. Normal.	The increase in area is due to the falling off in the price of jute as well as to timely rainfall. Effects of the weather on the cultivation and growth of the crop have been good. Some damage has been caused by flood on a small area on the banks of the Jaldhaka river. The outturn is expected to be normal.
Darjeeling ...	65,200	36,800	36,200	69	100	April. Normal	July. Normal ...	The increase of area sown this year is due to fall in the price of jute last year. The condition of the weather since sowing time and up till now has been favourable.
Rangpur ...	892,300	582,800	795,700	90	100	Beginning of May. Normal.	June and still going on in places. Late.	The increase in area is due to timely rainfall and also to the fact that more land has been brought under rice on account of the low price of jute last year. The weather conditions have been favourable barring some damage caused to the crop by flood in August last in parts of the district. The outturn is expected to be a little better than that of last year.
Bogra ...	303,000	303,000	303,000	60	105	April. Normal	July. Normal ...	The weather at the time of sowing and up till now has been favourable. Some damage has been caused to the crop in the Dhunat thana on account of excessive rain. The outturn is expected to be much better than that of last year.

Pabna ...	566,000	470,000	500,000	82	100	End of March. Normal.	End of July. Normal.	The increase in area sown this year as compared with that of last year is due to the condition of the jute market. Those jute fields in which *aman* paddy can be sown have been turned into paddy fields.
Malda ...	300,000	300,000	300,000	45	90	May. Normal	July and August. Late.	The weather conditions have not been good. Owing to want of timely rainfall and late transplantation the outturn is expected to be low.
Dacca ...	633,100	597,200	620,600	80	87	April. Normal	May. Early ...	The increase in area is due to the low prices of jute last year. The weather conditions were good at the time of sowing, but sudden rise of water in May and June and the heavy early rains caused some damage. Hence the outturn is expected to be below the normal.
Mymensingh ...	1,126,300	966,500	949,700	100	91	First part of April. Normal.	First part of July. Normal.	The increase in area as compared with that of last year is due to decrease in the area of jute cultivation on account of fall in the price. The weather was favourable at sowing time, but the subsequent excessive rain and flood damaged the crop in low area. The condition of transplanted paddy in high lands has been favourable up till now; but the paddy seedlings in some places are reported to have been damaged by flood. Hence the outturn is expected to fall below the normal.
Faridpur ...	770,100	661,000	769,100	80	100	March and April. Normal.	June and July. Normal.	The increase in area is chiefly due to the fall in the price of jute last year as well as the favourable weather condition at sowing time and up till now. Slight damage has been caused by the unusual rise of the river Padma.
Bakarganj ...	1,200,000	1,285,000	1,240,000	60	100	Middle of June. Normal.	Middle of July. Normal.	The decrease in area is due to the failure of the crop last year which has caused a corresponding increase in the area under *bhadoi* crops this year. The weather conditions have been favourable on the whole.
Chittagong ...	418,400	425,000	426,100	80	90	Middle of June. Normal.	First week of August. Normal.	The increase in area is due to extension of cultivation. The weather was fair, in spite of excessive rainfall after sowing. Seedlings were damaged to some extent owing to the excessive rainfall in July and August.
Tippera ...	724,800	820,000	714,300	75	50	Middle of March. Normal.	July and August. Normal.	The decrease in area is due to the fact that transplantation was not possible in Brahmanbaria and part of Sadar subdivisions on account of high floods. The weather conditions were good at sowing time; but about 90 per cent. of the crops was destroyed by floods in Brahmanbaria and in parts of Sadar subdivision. Hence the outturn is expected to be poor.
Noakhali ...	586,000	632,000	632,000	80	100	April. Normal.	Latter part of July. Little late.	The decrease in area and the late transplantation are due to flood in early July. About 21 per cent. of paddy plants has been damaged by flood in the Feni subdivision. Nevertheless a normal outturn is expected.
Chittagong Hill Tracts.	47,500	38,000	48,000	50	80	Last part of May. Late.	Last week of July. Late.	The increase in area is due to extension of cultivation. The outturn is expected to fall below the normal for want of seasonable rainfall.

RESOLUTION ON THE ANNUAL REPORTS OF THE PORT OFFICERS, CALCUTTA AND CHITTAGONG, FOR 1914-15.

No. 481T.—Marine.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

Dated Darjeeling, the 22nd September 1915.

RESOLUTION.

READ—

(1) Letter from the Port Officer, Calcutta, No. 9204, dated the 31st August 1915, submitting the Annual Report of his Department for 1914-15.

(2) Letter from the Port Officer, Chittagong, No. 3851., dated the 2nd July 1915, submitting the Annual Report of his Department for 1914-15.

Port of Calcutta.

THERE were four casualties in the Bengal Pilot Service during the year. Two Branch Pilots retired, one died and one Leadsman Apprentice resigned. One Leadsman Apprentice was recruited from England. The strength of the service during the year was 53 Pilots and 13 Leadsmen Apprentices.

2. There was a falling off in the number and tonnage of vessels entering and leaving the Port during 1914-15 as compared with those of the previous year. Vessels to the number of 1,431 with a gross tonnage of 6,006,581 were piloted inwards, against 1,649 vessels with a gross tonnage of 6,926,817 in the previous year. The number of vessels piloted outwards was 1,451 with a gross tonnage of 6,099,433 against 1,659 vessels with a gross tonnage of 6,961,807.

The receipts from pilotage were Rs. 13,14,601 against Rs. 14,63,822 and Rs. 15,33,673 during the years 1913-14 and 1912-13, respectively.

3. The number of vessels drawing over 21 feet piloted inward and outward were 401 and 827 respectively against 386 in-going and 995 out-going vessels in the preceding year.

4. No vessels were neaped during the year for want of sufficient depth of water over the bars; in the preceding year two inward-bound and one outward-bound vessels were neaped.

One vessel only was detained at the Sandheads for want of a Pilot against five in the previous year. Sixteen Pilots were carried off to sea in May, June and August 1914 in consequence of bad weather at the Sandheads against thirteen in the previous year.

5. There were 24 groundings against 20 and four collisions against two in the previous year. The groundings resulted in no damage. In four of the 24 groundings the Pilot was to blame and was suitably dealt with. The collisions resulted in damage to two vessels and one boat, and in the sinking of one boat. Two of the collisions were accidental. In the other two, the Pilot was not to blame.

Three cases were referred to Departmental Courts of Enquiry and seven to Special Courts of Enquiry.

6. Of 93 candidates who appeared at the examinations for the grant of Colonial and Home-trade certificates of competency, 35 passed. Candidates for the examinations for the grant of certificates of competency as Master, Serang, Engineer and Engine-driver under the Inland Steam-vessels Act, 1884, numbered 604, of whom 177 passed.

7. Commander C. J. C. Kendall, D.S.O., R.I.M., held the office of the Port Officer and Shipping Master, Calcutta, up to 5th June 1914, when he proceeded on leave making over the charge of the Port and Shipping

offices to Commander G. N. Forteath, R.I.M., Deputy Port Officer. Commander D. F. Vines, R.I.M., took over charge on the 11th July 1914 and continued as Port Officer and Shipping Master during the rest of the year.

Commander G. N. Forteath, R.I.M., was Deputy Port Officer and Lieutenant J. C. Ward, R.I.M., Assistant Port Officer, throughout the year.

Mr. G. Robertson was 1st Engineer and Shipwright Surveyor throughout the year. Chief Engineer C. T. Amor, R.I.M., was 2nd Engineer and Shipwright Surveyor up to 27th May 1914 when he proceeded on leave and reverted to the Royal Indian Marine. He was succeeded by Chief Engineer C. F. Laslett, R.I.M. Engineer W. G. Horley, R.I.M., was as 3rd Engineer and Shipwright Surveyor throughout the year.

8. The thanks of Government are due to Commander Kendall and Commander Vines for their efficient administration of the work of the Port and Shipping offices. Commander Vines took over charge of his duties just before the war broke out. His work in all matters connected with the war has been of a very high standard and the Governor in Council takes this opportunity of recording his warm appreciation of all that has been done by Commander Vines and his staff. He also desires to thank Mr. Robertson for his efficient supervision of the work of the Engineer and Shipwright Surveyor's Department during the year.

Port of Chittagong.

Vessels to the number of 714 (including 420 inland steam-vessels) with a gross tonnage of 6,186,622 entered and 705 vessels (including 415 inland steamers) with a gross tonnage of 617,855 left the port during 1914-15. In the previous year, 753 vessels (including 378 inland steamers) with a gross tonnage of 797,332 entered and 742 vessels (including 378 inland steamers) with a gross tonnage of 792,489 left the port.

There were two groundings and one vessel was totally lost.

Out of 126 candidates who appeared in the examinations for the grant of certificates of competency as Master, Serang, Engineer and Engine-driver of inland steam-vessels, 57 passed.

Commander B. H. Jones, R.I.M., was Port Officer and Engineer A. H. F. DeWoolfson, Engineer and Shipwright Surveyor, throughout the year.

The thanks of Government are due to Commander Jones for his efficient supervision of the work at Chittagong.

By order of the Governor in Council,

F. A. A. COWLEY,

Secretary to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 27th September 1915.

Summary.—During the week under review much rain fell throughout the Province. This rainfall has greatly helped the growth of winter rice and has much improved the prospects of standing crops, especially in the western districts. Transplanting of winter rice is almost finished; weeding is in progress. Harvesting of autumn crops is going on. The preparation of lands for *rabi* crops has commenced in some districts. Fodder is reported to be scanty in parts of Jessore, Pabna, Dacca, Mymensingh, Faridpur and Tippera. Cattle-disease is prevalent in eight districts. Scarcity still exists in parts of Bankura and Tippera. Gratuitous relief and agricultural loans continue to be issued in Tippera. The number of persons employed daily on the District Board road works in Bankura fell to 2,327 from 3,537 in the preceding week. The average price of common rice for the Province has risen by about 5 per cent. as compared with that of the previous week.

GOVERNMENT OF INDIA TERMINABLE LOAN.

NOTICE AS TO THE CONDITIONS ON WHICH THE PUBLIC MAY SUBSCRIBE THROUGH THE POST OFFICE.

THE Government are raising this year's loan in a new form carrying 4 per cent. interest. It will be repaid in full not later than November 1923, but Government can repay it, if they wish, any time after October 1920.

2. Rupees 4½ crores have already been raised in the usual way by the receipt of applications at Calcutta, Madras, Bombay and other large centres, and, so far, the loan is now closed. But in addition a special opportunity is being given to persons who wish to take up the loan in small amounts, whether they are savings bank depositors or not, of subscribing through the nearest post office which transacts savings bank business.

HOW TO SUBSCRIBE.

3. Applications through the post office can be made any time up to the 30th October.

4. Applications must be for even hundreds of rupees and for not less than Rs. 100 and not more, in the case of any one applicant, than Rs. 5,000.

NOTE.—An applicant may apply for the new loan up to Rs. 5,000, notwithstanding that he already holds 3½ per cent. Promissory notes previously purchased through the post office.

5. A person desiring to apply must fill up the form below, which can also be obtained at any post office which transacts savings bank business. He must at the same time pay the full amount for which he applies. For this purpose he can use the money in his savings bank account if he is a savings bank depositor, or he can pay in cash direct. The applicant may go to the post office himself or send a messenger. All amounts paid will be acknowledged.

6. For every Rs. 100 which the applicant pays he will receive Government Promissory notes for the same amount.

CUSTODY OF PROMISSORY NOTES.

7. The notes may either be kept by the applicant in his own custody, or, if he prefers, they may be retained in the custody of the post office authorities on his behalf. He should state which method he prefers in filling up the form of application. If he wishes to keep the notes himself, the post office will advise him when they are ready for delivery, and, on his presenting himself personally, they will be made over to him. If he decides to leave them with the post office, his personal attendance will not again be required, but the post office will send him an intimation in due course that they have been received and are held on his behalf. Should he at a later date desire to keep the notes himself they will then be made over to him.

PAYMENT OF INTEREST.

8. Interest at 4 per cent. a year will be paid half-yearly, *i.e.*, 2 per cent. on the 31st May and 2 per cent. on the 30th November every year. For the broken period from the date of subscription to the 30th November next, interest will be paid in cash at the time the Promissory notes are delivered if the applicant keeps them himself, or will be credited into the savings bank account mentioned in the next paragraph if he leaves the notes in the custody of the post office authorities.

9. If the applicant decides to leave his Promissory notes in the custody of the post office authorities, the latter will draw the interest for him regularly each half year and credit the amount into a savings bank account which will be opened for this purpose in his name. The post office will also inform him from time to time whenever interest is thus received. No charge will be levied for this service, and no income-tax will be deducted in making the half-yearly payments of interest.

If he keeps the Promissory notes himself, income-tax will be deducted from interest in the usual way at the time the half-yearly payments are made.
